

STUD SERVICE POLICIES REQUIRED PAPERWORK

We require a copy of your females AKC Registration, her Pedigree, any DNA certificates you have, both color & AKC, and a photo, plus stud fee, before any stud services are reserved, rendered, or shipped. We WILL NOT RESERVE a spot with one of our studs without ALL required documents, contracts, and payment. If someone else calls & reserves a spot at the same time your girl is in, we will have no choice but to deny our services to you unless you have RESERVED our Stud properly.

MUTUAL AGREEMENTS BY BOTH PARTIES

Both parties agree that the Midwest Bulldogs name will not be used in the sell of the puppies of their dam. The STUD DOG name can be used as the name of the sire only. The puppies produced by this dam are the property of the Dam owner and are not puppies belonging to Midwest Bulldogs and will not be sold as Midwest Bulldogs puppies with the exception of "Pick Puppy Back Agreements". Pick Puppy Agreements will be noted in the "Other Considerations" portion of the Online Contract. Therefore in all advertising or selling of these pups Dam Owner will not use Midwest Bulldogs as a selling key. Both parties agree that one live puppy constitutes a litter. Failure to raise the litter does not constitute a repeat breeding. Both parties agree that their own dogs involved in this breeding are in good health and that all shots and worming are up to date before day of breeding to be verified by Veterinarian if necessary. Dam owner agrees to be forthcoming with ALL vet info & records in connection with the birth should they be requested by Midwest Bulldogs.

FAILURE TO CONCEIVE

Our service is to provide you with good quality, live, healthy, motile semen for your use. This is what you are paying for. There is much involved in this process which costs us money, time, and limits the use of our male for others. Conception after live, motile semen is delivered or inseminated is the sole responsibility of the Dam owner and or your veterinarian. There must be accurate timing, proper procedures, and ovulation with eggs dropped in order for the semen to do its job. We provide a repeat breeding for \$150 per specimen plus shipping expenses. This also applies to a third specimen on any breeding as we provide only 2 for the advertised stud fee. Dam owner is to notify Stud Dog Owner 10 days before whelping, that the Dam is not bred & is to be due a repeat breeding. Failure to notify STUD DOG owner constitutes a null and void contract. A letter from a certified Veterinarian shall be provided to the STUD DOG owner for proof the Dam is not bred and for records in her file. If after 1st breeding said Dam does not become pregnant then progesterone testing will be required to detect optimum breeding time for said Dam. This test will be done by a Veterinarian or Stud Owner (fees apply) to detect exact ovulation time at the expense of the Dam owner. If after the 2nd breeding the Dam does not conceive no further specimens will be provided & the stud dog owner will advise Dam owner to have an implant done on the Dam to conceive. Both parties agree that if the stud dog dies or is not on the premises for breeding or is being used by another Dam at the time of repeat breeding, the Stud Dog owner will have the right to breed to another male of their choice. Both

parties agree that if the Dam changes ownership the stud service will be null and void. Both parties agree that any and all puppies produced as a result of this breeding cannot be sold or placed in puppy mills or purchased by brokers for the intent of resale of puppies.

PROGENY QUALITY

Midwest Bulldogs in no way guarantees the quality or health of puppies produced from this breeding. Both parties agree that the genetics, structure, quality, all health issues or problems, etc. are the sole responsibility of the Dam Owner & that Midwest Bulldogs is in no way responsible for any of the foregoing in any way or manner whatsoever. Midwest Bulldogs certifies that at the time of this contract, to the best of their knowledge, there are no major health or genetic issues with the Stud Dog herein & that this breeding does not constitute inbreeding.

STUD SERVICE CHARGES TO BE PAID

The owner of the Stud and the Dam owner agree to the Payment of the posted stud fee for stud used for 2 inseminations or specimens. This amount must be paid by Midwest Bulldogs accepted Payment Options as of the signing of this contract & 7 days BEFORE the first insemination or shipment unless this is an emergency arrangement. In shipment of Cooled Semen all Shipping charges are to be paid by Dam Owner with the Stud Service Payment.

STUD FEE INFO FOR Unique color COLOR FEMALES & CARRIERS

Please understand that if you pay a stud fee for a standard girl & you have a Unique color puppy in the litter, the Proper Stud Fee must be paid BEFORE the litter will be registered. On the other hand, if you have a carrier girl & no Unique color puppies are produced, you understand that this is because your female did not pass the gene to any of the puppies. The boy has done his job in that the Unique color gene is the ONLY one he has to pass, & thus he passes it to EVERY puppy. If you use our studs, you are agreeing to pay the proper stud fee before the litter is registered. PHOTO REQUIREMENTS We require GOOD photos of any produced puppies for our studs Progeny Pages and to verify the litter. We reserve the right to use any & all photos in any way we choose. Litter approvals will be done after acceptable photos are received by Midwest Bulldogs. Herein: The online contract along with these policies herein, will be governed by the laws of the state of Indiana and the county of Hamilton, Johnson and the city of Carmel, Greenwood. All mediations, litigations or law suits will be conducted in the county of Hamilton in the State of Indiana,

This constitutes the complete contract between both parties of said STUD DOG and Dam in question.
