Cyberthreats are growing and can pose a significant threat to your business

65% of small and medium sized businesses and enterprises have experienced a cyberattack in the last year. Regulatory demands and cyber insurance requirements have never been more stringent. In today's climate, strategic cybersecurity and compliance management is a necessity, not a luxury.

Introducing vCISO Services: Defining, Managing, and Optimizing Your Security Programs

Powered by the Cynomi AI-driven platform and integrating decades of CISO experience, our vCISO service offers the benefits of an in-house CISO – at a fraction of the cost. We offer:

Cybersecurity Plan

We create a cybersecurity plan organization . It includes tailor-made security policies and remediation tasks

Ongoing Management

We manage the ongoing execution of the cybersecurity plan – monitoring, scanning, making changes or tweaks where necessary. This leaves you to focus on your core business, knowing that your digital security is in good hands.

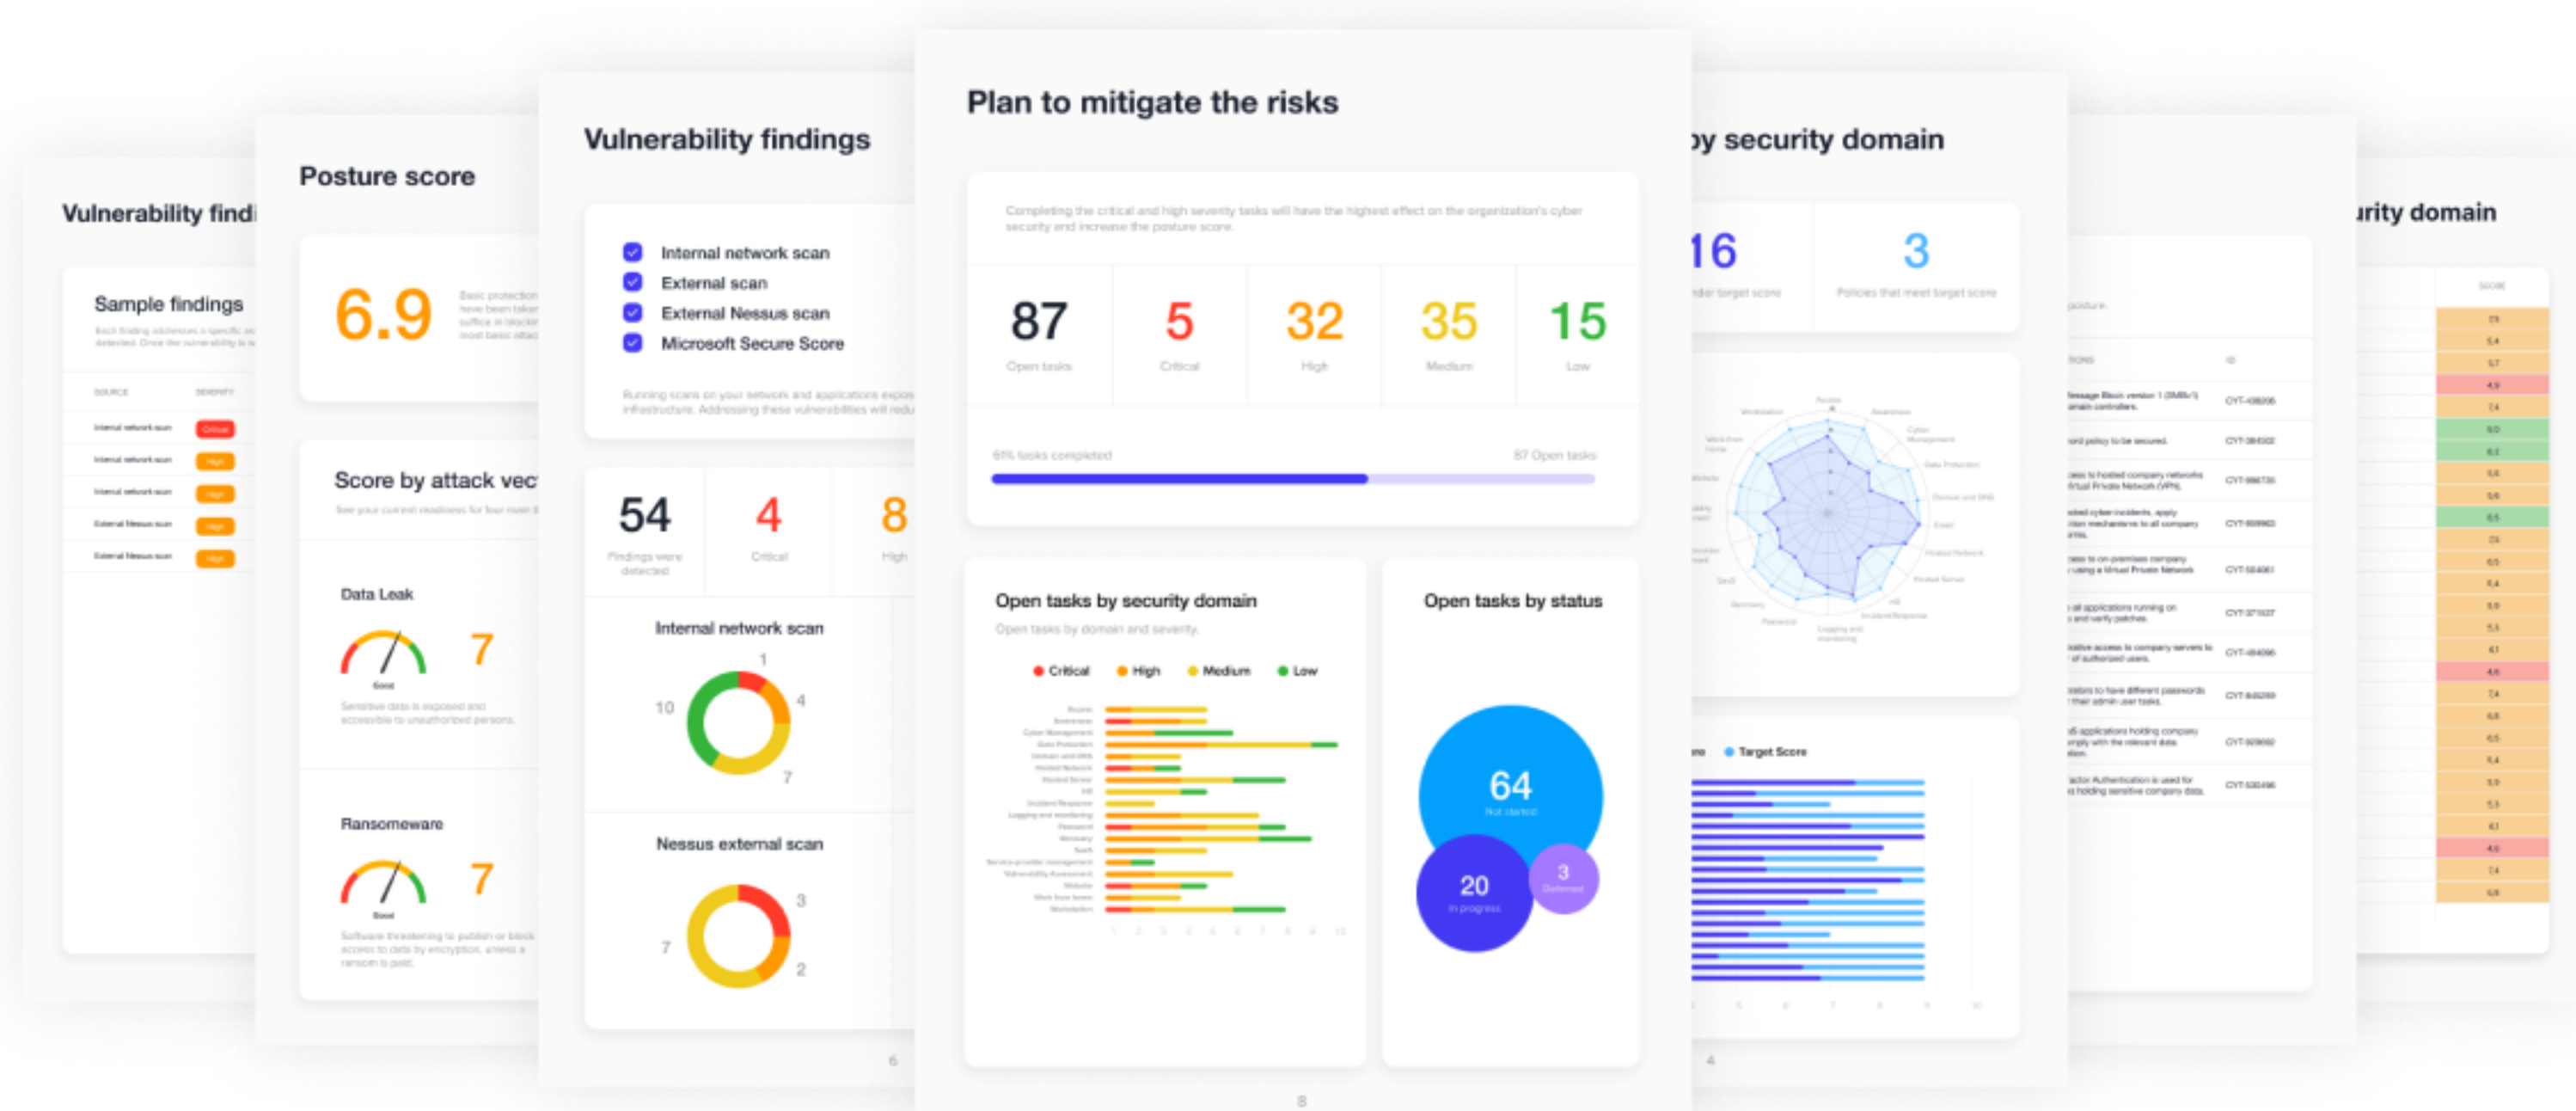

Risk Assessments

Through a series of questionnaires and scans that we perform on your environment, we create a full assessment of your current risk level and cyber posture, compared to industry benchmarks.

Cyber Posture Reporting

We deliver in-depth status and progress reports, showing your current security posture, improvement trends, compliance gaps and comparison with industry benchmarks, to reflect your current security posture, progress and remaining gaps
