

# MIGI • HIDARI CONTEST

## みぎ・ひだりたいかい

How well do you know your location words? Let's try giving simple directions.

For this contest, you will work in small teams to guide a classmate from one side of the classroom to another **through a maze of tables**. (If your school has play equipment, you could try going outside, too.) Your classmate will be wearing a blindfold and will be responding to voice commands only!

Think carefully about the instructions you give your classmate - nobody wants to end up in sick bay!

# PLAN THE ROUTE

Use the space below to design your course using tables and chairs. Make sure you check how many tables and chairs are available around the room before you start!

You have 15 minutes to brainstorm a creative route.

Once you've planned a route through your maze, write out the sentences that you'll need to instruct your classmates through the maze.
