Are you an asshole? - Test results

Are you an asshole?

You're just a normal man. You won't leave your friend in deep shit, but you don't forget about yourself. You don't care about shit that doesn't matter that much. You live a well-balanced, colourful life. Keep it up!

Little or No Indication of Narcissistic Personality Disorder

You do not show symptoms or experiences consistent with those associated with narcissistic personality disorder. If you or someone you know does show symptoms, it's a good idea to seek treatment from a licensed mental health practitioner. **Note:** Results of this quiz do not qualify as a diagnosis. Psycom recommends that you seek an evaluation from a licensed mental health practitioner for diagnosis and treatment.

Your Results

Little or No Indication of OCD

Your answers suggest that there is Little or No indication that you have symptoms common among people with OCD. However, this quiz is no substitute for a proper diagnosis from a health care professional and we would encourage you to schedule an appointment with your doctor or other mental health professional now.

Overall score

Explanatory comments on overall score: 126 score shows a solid grasp of the material and a strong understanding of the concepts. Although the results show a good understanding of the concepts, there are some areas where the score is lower than the average score. This suggests a need for more practice in these areas. The overall score is 126, which is a good score for this test.

Each section of the test is scored separately, and the overall score is the average of the scores for each section. The scores for each section are: Reading: 30, Writing: 30, Speaking: 30, and Listening: 36. The overall score is 126, which is a good score for this test.
