X-ELEMENT ORBITAL BLAST

Hey Elements,

Got some exciting updates for you all in this edition of Orbital Blast!

First up, mark your calendars for March 9th because our Call of Duty squad is diving headfirst into the Challenger Cup! With a sweet $2500 prize up for grabs, it's going to be an adrenaline-fueled showdown you won't want to miss. Swing by this Saturday to cheer on X-Bamboozled, X-Deimos, X-GHOSTCHAN, and X-ODB as they battle it out for X-Element glory!

But wait, there's more! **Let's give a massive shoutout to our Apex Legends squad - X-Lipo, X-Naughty, and XEL BlueChronic** - for their stellar performance in the recent Challenger Circuit. Making it to round three was no small feat,

especially considering their previous best was round two. Talk about leveling up and inspiring us all to push harder!

In other news, did you catch the epic finale of Capcom Cup X? Talk about nail-biting action! With a jaw-dropping prize pool exceeding $2 million, it was a historic moment in the fighting game community.

Huge props to Uma, the unsponsored prodigy from Taiwan, for clinching the title and becoming the first-ever millionaire from a tournament win! And guess what? Capcom Cup XI is already on the horizon, boasting another mega $1 million grand prize. Time to dust off those fightsticks, FGC fam, because the grind starts now!

On a more serious note, let's talk security.

You may have heard about the fake Ransomware hackers trying to pull a fast one on Epic Games. Thankfully, Epic saw through the ruse and shut it down, but it's a stark reminder of the importance of beefing up our digital defenses. **Remember, folks, adding Dual-Factor Authorization** is like having a guardian angel for your data and bank account. Stay safe out there!

Last but certainly not least, as X-Element continues to grow by leaps and bounds, we're on the lookout for sponsors to join our journey.

We want to hear from you, our awesome community, about potential sponsorship opportunities that align with our values and interests.

Got any suggestions? Drop them in the chat and @TeamSpirit!

Two-Factor Authentication (2FA)

[ˈtü ˈfak-tər ə-ˌthen-ti-ˈkā-shən]

A security system that requires two distinct forms of identification in order to access something.
