RATE SHEET 2024 LUKE AUTOMATIC FEATHERING PROPELLERS

Designed with the cruising sailor in mind, our three blade propeller reduces drag when feathered and because of the helical blade shape they are particularly effective in light air and in reverse. Speed increases of up to 1.5 knots are typical.

Prop diameter (inches)	Max shaft dia.	Hub Length	Price
14	1 1/8"	4 5/16"	\$3,575
15	1 1/8"	4 5/16"	\$3,575
