|                       |                                                                   |
|-----------------------|-------------------------------------------------------------------|
| <b>Company:</b>       | ProSplice LLC                                                     |
| <b>Date prepared:</b> | September 3, 2026                                                 |
| <b>Scope:</b>         | All EXFO test units (chassis, modules, chargers, and accessories) |

This sheet lists six (6) EXFO test units plus one stand-alone test module, for internal recordkeeping. The serial number under each chassis line belongs to the mainframe itself; module lines are the cards that plug into that chassis' slots. Check each box to confirm the item is on hand; use the notes line under each unit for anything missing or in need of attention.

## Test Unit 1
