

HHD Covid Protocols

HHD no longer requires proof of Covid vaccination and masking is optional.

Since the darkroom is a small space where social distancing is impossible we want to provide a safe space for everyone, including those who are immunocompromised or are in close contact with family members and loved ones who are. HHD students and (visitors) should adhere to the following:

1. If you feel unwell, have a fever, or are exhibiting any symptoms of Covid or the flu, please stay home and test yourself (if possible) for Covid. Stay home until you are symptom-free.
2. If you have recently been in close contact with someone who has tested positive for Covid, or you strongly suspect has Covid, please closely monitor yourself for symptoms, and even if you remain symptom free, consider staying home from class or wear a mask (K95 or KN95 preferred) in class until five days have passed since your potential exposure.
3. Students who test positive for Covid **and** have taken a class at HHD within the previous five days, should immediately contact HHD's instructor who will notify the student's classmates that they may have been exposed to Covid at HHD while maintaining that student's confidentiality.
4. If at any time, a student requests that everyone wear a mask in class, everyone will respect that student's request and comply with no questions asked. (HHD will maintain a supply of surgical masks.)

Effective September 14, 2025.
