

3D INSIGNIA EMB

FLOATING TEXT ON SMS IS THE
SMALLEST FLOATING TEXT POSSIBLE

*NO SERIFS

3/8" (10MM) TALL

1894 — original art

Even when all minimum specs are met
some fill in occurs due to
the mold injection process
We must be careful to avoid fill in.

original logo

thinnest details must be at least 1mm
thinnest spacing must be at least 1.5mm

some details that prevent floating elements

containing the elements with
a background is required
