Enclosed you will find our new client information packet. Please complete all forms and return them to Serenity Now. Once we receive your completed packet with a copy of your insurance card, your information will be reviewed by our Clinical team to determine if we can appropriately serve your needs. Serenity Now is an independent psychiatric and counseling clinic which provides specialized services. When our ongoing clients are interested in psychiatric medication management, we work on a team philosophy in which clients receiving medications are also actively engaged in therapy with our staff at Serenity Now. At this time we are unable to see children under the age of 12 for medication management.

FIRST APPOINTMENT: Coming in for treatment for the first time to a new location can be intimidating for some. You will be meeting with one of our therapists on your first appointment to complete your initial evaluation. If appropriate, the therapist will make arrangements for you to be scheduled with one of our prescribers for medications at a later date. *You will not be prescribed medication on your initial evaluation at Serenity Now.*

If the client is a minor (under the age of 18) the legal guardian (parent, case worker or state appointed guardian) **MUST BE PRESENT FOR THE INITIAL APPOINTMENT.** If there is a custody arrangement, make sure to bring a copy of the custody papers.

If you have any mental health records, school records or psychological testing within the last five years, please obtain a copy and have them sent to our office. In order to provide the best mental health services it is crucial to obtain as much background information as possible. Please complete any needed Releases of Information so we may contact your referring resource.

ATTENDANCE: We have a strict policy in place on attendance. It is the policy of Serenity Now that failure to attend a scheduled appointment or failure to cancel a scheduled appointment more than 24 hours in advance, may result in a \$50 fee. This fee will need to be paid prior to your next appointment. Three no-shows or late cancellations within a 6 month period will result in termination of services. If you miss your initial appointment we will not reschedule.

Thank you for considering us for your mental health needs.

Controlled substance medications (i.e. Benzodiazepines, stimulants) are very useful, but have a high potential for misuse and are, therefore, closely controlled by local, state, and federal governments. In the event that I am prescribed a controlled substance medication, I agree to the following:

Parent/guardian (if client is a minor or under guardianship) or Patient Must Initial Each Line

____ 1. I am responsible for the controlled substance medications prescribed to me. If my prescription is misplaced, stolen, or if I increase the use of my medication without prior approval from the office, I understand that this medication may not be replaced regardless of the circumstances.

____ 2. I understand that many of these medications are intended for short term use as needed.

____ 3. I agree to sign a release of information for my insurance provider, primary care physician and other pertinent prescribers. I also understand that this includes information regarding treatment and any relevant diagnosis.

____ 4. I agree to report all medications being prescribed to me by other providers. I understand that failure to do so could result in discontinuation of controlled substance medication prescribing by Serenity Now and potential discharge from services.

____ 5. I am solely responsible for taking the medication as prescribed and for keeping track of the remaining pills.

____ 6. I understand that I am solely responsible for attending scheduled appointments. I also understand that failure to do so may result in delays in obtaining a prescription refill, or may result in refills being withheld.

____ 7. If I require a refill prior to a previously scheduled appointment, I understand that I must contact the office 5 full business days prior to the end of my prescription to minimize risk of delays in processing the prescription. Failure to do so may result in processing delays to obtain refills of the prescription.

____ 8. I understand and agree to comply with random urine or oral drug testing and pill counts, thereby, documenting the proper use of any medications, as ordered by my prescribing medical provider.

____ 9. I understand that I must come in for random drug screens or pill counts within 48 hours of being notified.

____ 10. I understand that if I violate any of the above conditions, my prescriptions for controlled medications may be terminated immediately. If the violation involves obtaining these medications from another individual, overdosing on the medication or in combination with the use of non-prescription illicit (illegal) drugs, I may also be reported to my primary care physician and other pertinent prescribers.

(A Division of Hoosier Uplands Economic Development Corporation)

(812) 275-4053

____ 11. I understand that the long-term advantages and disadvantages of chronic benzodiazepine and stimulant use may have yet to be scientifically determined and my treatment may change at any time. I understand, accept, and agree that there may be unknown risks associated with the long-term use of controlled substances.

____ 12. I further understand that if I violate this controlled substance contract due to non-compliance of medical directions, such as, failure in taking medications as prescribed, utilizing other illicit drugs, or abuse of controlled medications, I may be subject to dismissal from this facility.

____ 13. I understand that the use of alcohol while prescribed a benzodiazepine is considered non-compliance with medication directions and can lead to discontinuation of benzodiazepine prescriptions and potentially dismissal from this facility.

____ 14. I understand that the use of marijuana and hemp products, including CBD and Delta-8 variants, is completely disallowed while prescribed a controlled substance, such as benzodiazepines, regardless of whether or not I was in a locale where marijuana or hemp products are legal substances. Any violation of this can lead to the discontinuation of prescriptions for controlled substances. Failure to comply can lead to dismissal from this facility.

____ 15. I understand that some individuals may develop a physical dependence and/or addiction to these medications. This may occur if I am on the medication for several weeks. Stopping these medications too quickly can result in adverse reactions that could be potentially life threatening. Therefore, I agree to seek medical supervision before stopping any prescribed medications.

____ 16. All controlled substances will be written for only one month at a time. While on a controlled substance I will be seen in the office every 1-3 months.

We do accept that these policies may produce some hardships for a few people. We ask only that you understand that it is our intention to practice evidence-based medicine in the safest and most efficacious manner possible while complying with all local, state, and federal regulations.
