

Butterfly class home activities

The story for this week is Jack and the Beanstalk. You can find this story by clicking on the link <https://www.youtube.com/watch?v=zurz-pl-uzw>

Once you have watched the story discuss the following with your child :

- How did Jack feel when his mum told him to sell the cow?
- How did Jack's mum feel when Jack brought the beans home instead of money?
- How did Jack and his mum feel at the end of the story?

Can your child show you the Makaton signs for these feelings? If possible take a photo of them signing these emotions and send it to us at the usual email address.

Talk to your child about what makes them happy. Can they draw a picture of something that makes them happy? Don't forget to email this picture to us.

Can your child make their own beanstalk? Have a look at the ideas below. You could try one of these or think of something different.

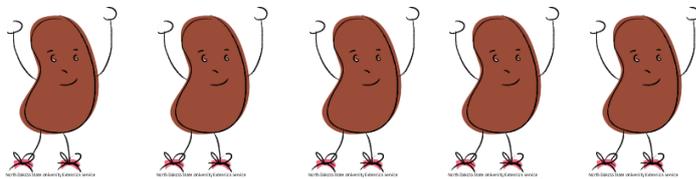

Mrs Hubbard has been busy planting. Click below to see her activity and you could try this at home.

claire H.mov

Can your child tell you how many beans there are below?

Help them to work out how many there would be if there was 1 more. How many would there be if you took one away? Can they have a go at recording these numbers?

This week we are learning the letter 'n'. Have a look at Mrs Leer demonstrating this new sound. (Click video link below)

liz 'n'.AVI

Encourage your child to have a go at writing it once they have seen how Mrs Leer forms it correctly. Remember this doesn't have to be on paper but they can also use their finger in flour or shaving foam.

Can your child point to the picture that begins with n ?

Can they tell you the sound that these pictures begin with ?

Ooops!!! Sorry, we have realised that the sound clip for 'i' did not work last week. Click below to see Mrs Leer demonstrate this.

liz 'i'.AVI

Remember to keep in touch and send us photo's of the learning your child is having at home.
