

## Ladybird Class home activities

The story for this week is Dinosaur Roar!

A good starter idea...

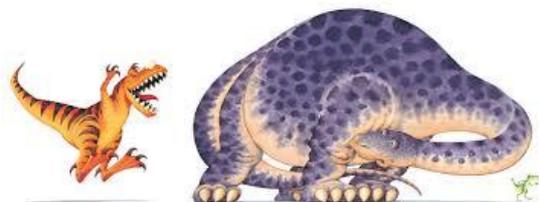

Draw a dinosaur footprint on a piece of paper, cut it out to make a template, then place it on the floor and sprinkle flour, creating a footprint. You can pretend a dinosaur has been to your house to get them really interested in this week's book!

Read the story together if you have the book at home, or you can find it using the following link.

<https://www.youtube.com/watch?v=5MMiiXIFNZA>

Talk with your child about the language of opposites in the book. Get them to look at the pictures to find the long and short dinosaurs, or can they be a fast dinosaur and a slow one?

Have a look at some dinosaur books or websites about dinosaurs such as The National History Museum website or The Dinosaur Museum

On one of your daily walks, you could find some stones and put them in some soil/sand and get your child to discover 'fossils' using an old toothbrush or paintbrush like an archaeologist.

You could follow the following recipe to make some salt-dough to make some of your own dinosaurs, and even make a swamp for them to stomp around in.

1 cup of salt; 2 cups of flour; 1 cup of water added slowly until the mixture has been kneaded into a dough.

*Salt-dough can be left out to harden and then painted. It can also be baked in the oven to dry out/harden - search Google for instructions.*

Have a look on the following website for some more Dinosaur Roar! activities and games.

When you have finished exploring the story, and if it is possible for you to do so, please take some photos of what your child has been doing and send it to;
