

Rothesay Nursery School

Mission Statement

Children are the heart of our child centred, inclusive nursery school. We provide high quality nursery education and care through an exciting and diverse play based curriculum, which develops children's skills for lifelong learning.

We work closely with our families, to foster high expectations for all our children.

We develop children's learning power by giving them opportunities to explore our extensive indoor and outdoor environment so they can reach their full potential.

We teach children to care for themselves and others and make healthy and sustainable choices.
