Cleaning The Future

CleanMAXX

• BIO HARD •

CleanMAXX Bio Hard is an alkaline, multipurpose cleaner with excellent oil and grease-cutting properties and it is very suitable to be used in Mining, Heavy Duty Industries, Factories, Workshops, and Homes. Cleanmaxx Bio Hard can be used as an Industrial to remove oil and grease from mechanical equipments. It is also ideal to be used on most surfaces in the kitchen and bathroom where a "Spray On/Wipe Off" quick clean is required. The longer you leave, the deeper the clean.

Cleanmaxx Bio Hard is also suitable for cleaning:

- Bench Tops (Food preparation areas.)
- Fridge Cabinet (Doors, panels.)
- Tiles (Floor and wall, painted floors.)
- Caravan (Paintwork, interior, solar panels.)
- Trucks (Paintwork, bullbars, engine.)
- Cars & utes (Paintwork, steel, alloy and mag wheels, duco, interior.)
- Soiled Clothing (Use as a spot cleaner.)
- Grasshoppers & bug stains on vehicles.
- BBQ (Hot plate, grill, covers (metal & vinyl).)

Technical Data:

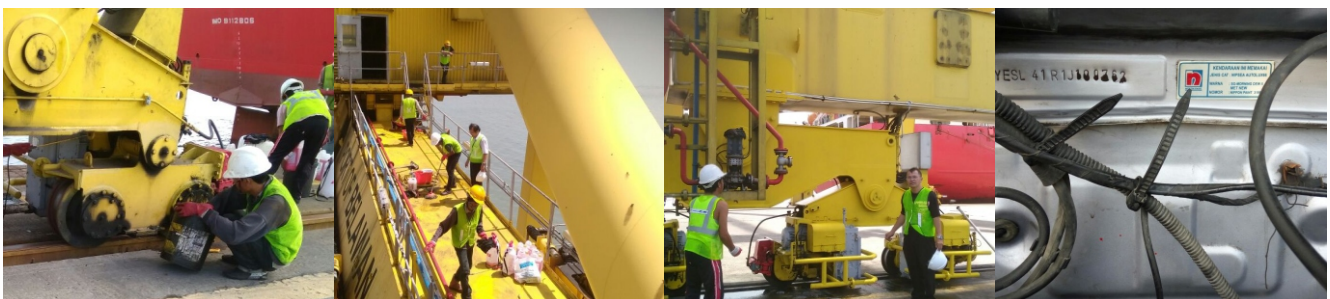

Appearance : Clear liquid with pine odour.
pH : > 13 approx. (1% solution).
SG : 1.0 approx.

Available sizes:
5L, 20L, 200L
and 1000L.

Product Features:

- **Cleanmaxx Bio Hard** contains a blend of biodegradable surfactants and wetting agents which lower surface tension and help to emulsify oil and grease based soils. The emulsions formed are unstable which allow the oil and water phases to separate quickly in a collection pit.
- **Cleanmaxx Bio Hard** contains a metal protecting alkali which makes it safe to use on soft metals, such as aluminium and galvanised iron.
- **Cleanmaxx Bio Hard** contains a water-conditioning compound which combines with calcium and magnesium minerals in the water supply to help preventing any scale formations.
- **Cleanmaxx Bio Hard** contains a soil suspending agent to help stop soil redepositing on cleaned surfaces.
- A combination of solvents helps loosen and penetrate oil and grease deposits when product is applied neat, making the cleaning easier.
- Solutions of **Cleanmaxx Bio Hard** are free rinsing and safe to human skin.

Clean **MAXX**

• PUMICE HANDWASH •

Clean **MAXX Pumice Handwash** is an industrial grade hand cleanser that is very suitable to clean oil, grease and grime. Not like other industrial hand cleanser products, Cleanmaxx Pumice Handwash is completely biodegradable and safe to human skin.

Product features:

- **Cleanmaxx Pumice Handwash** contains an antibacterial agent that can hygienically clean the skin.
- **Cleanmaxx Pumice Handwash** contains pumice which aids in cleaning oil, grease and grime.
- **Cleanmaxx Pumice Handwash** contains a conditioning agent that leaves the skin feeling soft after use.

Technical data:

Appearance: Light brown gel with citrus smell.

pH : 7-9.

SG : 1.1 approx.

Clean **MAXX**
