# WHAT IS THE ESSENTIALS OF HUMAN FACTORS IN DIVING COURSE ABOUT?

#### THE HUMAN DIVER

Apply Human Factors. Master the Dive.

www.thehumandiver.com

## AT A GLANCE

This short online course is a must have for all divers, from novice to experienced and everyone in between. It creates the essential foundations to understand and highlight the impact of human factors in diving, and how to ensure the dives you have are safe and have a reduced likelihood of human error.

#### **ABOUT THE COURSE**

To learn more about the "Level 0: Human Factors in Diving Essentials" course visit <u>https://www.thehumandiver.com/H</u> <u>FiD-Essentials</u>

"Very clear message, loved the humility in it, the leadership skills in it, the content, the resources, the vulnerability in it. Just a great course overall, probably the best I've been privy to date. I believe PADI or SSI should have this course in all it's areas based on specialty and or beginner stage to advance stages....this course is so VALUABLE, it needs awareness and promoted to all levels in the diving community."

- Will Morales

# WHAT INFLUENCES YOUR DIVE?

When we think about diving, we often focus on everything but the bits between our ears, and yet we take our brain with us on every dive!! We often overlook the human element, instead we think about the marine life we'll see, the wreck, the cave, or the task at hand.

Knowing how we make effective decisions, communicate clearly, how to build situation awareness, and how to be a good team mate, all contribute to a successful, fun dive. That is what this course is about.

#### **THIS COURSE COVERS**

The interactive course covers a number of aspects that will support you and your dive team members to have an enhanced awareness that will lead to safer experiences.

**TELL ME MORE...** 

#### **Unique Focus**

Most courses focus on equipment and techniques, but this course is dedicated to the human factors in diving - the human element!

# 2

#### Enhanced Safety

Giving you a better understanding of decision-making, communication, teamwork, and situational awareness to make every dive safer and more enjoyable for everyone!

#### Award-winning, Comprehensive Training

With a mixture of videos, case studies, theory, and quizzes, this integrated approach to diving goes beyond just equipment and techniques, you'll soon understand the intricacies of decision-making, communication, teamwork, and situational awareness beneath the waves.
