

Ministry⁺tel

Ministrytel

Our Mission:

Our mission is to help ministries share the Gospel of Christ.

Our goal is to help faith-based organizations, churches, schools, etc., to have the right technology resources at the best prices.

While the word of God has not changed, how we connect and communicate has changed. We recognize that the world has changed how ministries communicates his message.

From how we stream the services, to how we stay connected to members via phone or email or social media, wifi, or building security, technology plays an important role.

As the consultant, our goal is to play an integral role in assisting the ministry.

Who we are:

MinistryTel is made up of individuals who have put their trust in Christ for salvation.

We have served in our churches that we attend in youth ministry, coaching sports teams, pastors advisory groups and boards, and participated in many overseas missions projects.

We have deep understanding and belief in the need for local churches.

Along with our faith, for over 30 years we have also been in leadership positions and lead various regional and national telecommunications companies. We know and understand this industry and we work with 100's of telecommunications carriers and service providers across the country via our partnership with OTG Consulting.

We have now created MinistryTel to exclusively serve the faith-based community.

Ministrytel

About MinistryTel:

We became partners with OTG Consulting in 2022. It was founded by some of the nation's most renowned telecom and data executives, which now has over 300 executive partners across the United States and serving customers in 35 countries.

Through this partnership, our goal is to serve Faith-based Ministries to

- Help find the best solutions for churches needs
- Help negotiate pricing
- Help IT staff by providing the best options
- Help run the Ministry most efficiently

The Average cost savings is 25%

What we do:

We work with the most highly respected and most robust telecommunications & data providers around the country.

At MinistryTel, we act on behalf of the church to find the right fit for the current and future needs.

MinistryTel doesn't sell anything. We act as the [unpaid] consultant and we work with solutions providers across the country to provide the best options for the needs of the Church. There is no cost or obligation.

Relationship between MinistryTel and OTG:

MinistryTel is both a company and a product brand.

Together with its legal partnership with OTG Consulting, MinistryTel provides a unique and highly technical consulting service for the Faith-based community.

The Process:

- Define current and future needs
- Professional RFP proposal process
- Oversight and coordination of bid-selection
- Coordination and implementing new services
- Monthly review and inspection process

Value Proposition for Churches :

Shared goals. Our mission is to share the Gospel of Christ.

Most telecom companies and consultants seek the biggest companies hoping for the big paycheck. We solely focus on Faith-based organizations, churches, schools etc. We are your unpaid consultants. No obligation to change anything.

We offer unique consulting solution, whereby we assess your needs, and provide you options from carriers across the country. They openly bid for your service.

We are stewards of God's money. 10% of our corporate earnings go to support pregnancy counseling, adoption services, Christian education, and substance abuse counseling.

We would love to partner with you.
