PROFESSIONAL BACKGROUND & SKILLSET

My systematic and dependable approach to task completion has made me an initiative-taking individual. Over the past seven years, I have collaborated closely with a variety of professionals and companies in the TV, Film, and music video industries. I have worked on several projects, including Sabaton's "1916," Ed Hardy, Shipyard Ale, and many others where I have cultivated my networking and creative skills.

I am committed to executing work to the highest standard and always meeting deadlines. Continuously improving my performance is a top priority. Working with some of the UK's most reliable companies has provided me with a wealth of experience, allowing me to expand my professional horizons beyond my Gaffer work. I have been diagnosed with Autism, but this does not hinder my work; in fact, it is the primary motivation behind my focus on lighting.
