PATIENTS RIGHTS AND RESPONSIBILITIES
Acknowledge Receipt of Privacy Practices
Consent to Treat

CONFIDENTIALITY

It is the policy of this practice to treat all patient information confidentially. This includes patient records and conversations. We will investigate any reported violation of this policy. If you have any questions, please ask a front desk representative for information. This practice makes every effort to provide our patients with an environment, which is safe, private and respectful of our patient's needs. If you have a complaint about our services, facilities or staff, we want to hear from you. We will do everything we can to see that your experience with us is professional in every way.

ISSUES OF CARE

This practice, physicians and staff are committed to your participation in care decisions. As a client, you have the right to ask questions and receive answers regarding the course of clinical care recommended by any of our health providers, including discontinuing care. We urge you to follow the healthcare directions given to you by our providers. However, if you have any doubts or concerns, or if you question the care prescribed by our providers, please ask.

PATIENT RIGHTS

1. The patient has the right to receive information from health providers and to discuss the benefits, risks, and costs of appropriate treatment alternatives. Patients should receive guidance from their health providers as to the optimal course of action. Patients are also entitled to obtain copies or summaries of their medical records, to have their questions answered, to be advised of potential conflicts of interest that their health providers might have, and to receive independent professional opinions.
2. The patient has the right to make decisions regarding the health care that is recommended by his or her health provider. Accordingly, patients may accept or refuse any recommended medical treatment.
3. The patient has the right to courtesy, respect, dignity, responsiveness, and timely attention to his or her needs, regardless of race, religion, ethnic or national origin, gender, age, sexual orientation, or disability.
4. The patient has the right to confidentiality. The health provider should not reveal confidential communications or information without the consent of the patient, unless provided for by law or by the need to protect the welfare of the individual or the public interest.
5. The patient has the right to continuity of health care. The health provider has an obligation to cooperate in the coordination of medically indicated care with other health providers treating the patient. The health provider may discontinue care provided they give the patient reasonable assistance and direction, and sufficient opportunity to make alternative arrangements.
6. Any patient having a complaint or grievance should contact the Compliance Officer, Amy Stehli, at 913-387-2800. Once a grievance or complaint is filed, the Compliance Officer will respond in writing within 30 days to address and resolve the issues. They may also direct any complaint to the Kansas Department of Health and Environment hotline at 1-800-842-0078

PATIENT RESPONSIBILITIES

1. Good communication is essential to a successful health provider-patient relationship. To the extent possible, patients have a responsibility to be truthful and to express their concerns clearly to their health providers.

2. Patients have a responsibility to provide a complete medical history, to the extent possible, including information about past illnesses, medications, hospitalizations, family history of illness and other matters relating to present health.
3. Patients have a responsibility to request information or clarification about their health status or treatment when they do not fully understand what has been described.

4. Once patients and health providers agree upon the goals of therapy, patients have a responsibility to cooperate with the treatment plan. Compliance with health provider instructions is often essential to public and individual safety. Patients also have a responsibility to disclose whether previously agreed-upon treatments are being followed and to indicate when they would like to reconsider the treatment plan. Initials_____

5. Patients should also have an active interest in the effects of their conduct on others and refrain from behavior that unreasonably places the health of others at risk.

CONSENT TO TREAT

I understand that the decision to be treated is my choice, any doctor I see if up to my personal discretion. Even if a third party advises me that I must. I also understand that I do not have to remain under the care unless it is of my own choosing. I understand this practice or my physician within this practice may feel it deemed necessary to terminate the doctor/patient relationship; when medical care is no longer needed, when the patient specifically withdraws from the relationship or becomes non-compliant with treatment, or when care of the patient is transferred to another physician. All medical records and diagnostic studies will remain confidential and anonymous if used in research studies. A request of medical records will be charged to cover necessary time and materials to prepare.

FINANCIAL RESPONSIBILITY (Financial responsibility is not applicable to Worker's Compensation Patient's)

As a courtesy to patients and their families, the Practice submits claims to most insurance carriers. To insure proper and prompt processing of your claim, it is important that all current insurance information be presented at the time of pre-registration and/or admission. It is necessary that you have a copy of your insurance card and your driver's license or other form of identification with you when you check-in.

Consequently, many insurance plans require a referral in order to access health. If your insurance plan has such a requirement, it is your responsibility to obtain a referral from your Primary Care Physician and/or Specialist Physician.

If your insurance plan requires the medical services scheduled to be pre-certified or pre-authorized, we will attempt to obtain such approval from the insurance plan or the entity responsible for utilization management. Failure to meet your insurance requirements may result in partial or complete claim denial or a higher co-payment/or deductible, and you may be responsible for the remaining balance.

We are available to assist you in understanding your physician and facility benefits, should you be referred for a surgical procedure or surgery. We attempt to verify your insurance benefits prior to medical services being completed. Estimates of your financial responsibility are based on the accuracy of this information. The insurance benefit information provided by your insurance plan is based on the latest information they have available. Please remember that your insurance plan benefits are a contract between you, your employer and your insurance company. It is in your best interest to know and understand your benefits.

In the event you do not have insurance coverage, or cannot pay the patient responsibility portion of your bill, you will be asked to speak with one of our financial counselors. Our financial counselors are trained to assist you in meeting your financial obligations. We offer a variety of payment plans and prompt payment discounts, this practice follows state and federal regulations when dealing with all past due balances and offering discounts. We accept all major credit cards.

I understand I am financially responsible for the medical services provided to me and for any balances not covered by my insurance or worker's compensation coverage.

I hereby acknowledge that I have been offered a copy of the Notice of Privacy Practices. My signature authorizes and gives my consent to use and disclose my protected healthcare information for the purposes of treatment, payment and healthcare operations as described in the Privacy Notice.

This assignment will remain in effect until revoked by me in writing. A photocopy of this assignment is to be considered as valid as the original.
