

Dear Community Members,

The Village of Love is addressing the challenges of the coronavirus (COVID-19), global pandemic, as it continues to affect our communities.

As always, the health and safety of our community and staff is our top priority. We will follow the Center for Disease Control's (CDC) recommended preventative protocol, and have heightened our measures to maintain a clean, healthy environment.

As a regular practice, The Village of Love cleans our offices daily, with sanitizing solutions. As a result of the coronavirus (COVID-19), we have put in place enhanced cleaning measures; sanitizing and disinfecting hard surfaces and entrances several times throughout the day. Our staff utilizes face coverings/masks, and we have also included additional sanitizing and cleaning supplies at each workstation. Upon entry into the office, each guest will answer COVID-19 screening questions and receive a touch free temperature check.

We have asked our staff to refrain from coming into the office if they are not feeling well. For our clients, we are fully available to you, and can hold meetings via web-based video conferencing, such as Zoom, Skype, or other means.

The Village of Love is open to serve our community. We are committed to taking the necessary actions to help support our communities in this challenging time.

Let us all be proactive, take preventative actions, and protect each other.

With respect,

Joey Harrison  
Executive Director
