SCAFFOLDING

MEET THE TEAM

APPRENTICES

At Synergy J we're proud to support the next generation of skilled professionals through our scaffolding apprenticeship program.

Our apprentices are hands-on, hardworking, and learning from some of the best in the industry. By combining on-the-job training with expert mentorship, we're not just building scaffolds—we're building careers.

We believe in passing on the knowledge, upholding high safety standards, and shaping a workforce that's ready to take the industry to new heights.

OUR PROCESS

FROM ENQUIRY TO COMPLETION

We make scaffolding simple.

At Synergy J, we believe that every successful project starts with a clear plan and transparent communication. Our process is designed to ensure safety, efficiency, and complete client confidence at every stage.

1 Enquiry & Consultation

It all begins with a conversation. We take the time to understand your project requirements, timelines, and any specific site challenges.

2 Design & Planning

Every design prioritises safety, practicality, and minimal disruption to your operations.

3 Erection & Inspection

Our qualified scaffolders deliver a professional installation service – safely, efficiently, and on schedule. Regular inspections are carried out throughout the project to maintain the highest safety standards, with all works signed off by our competent supervisors.

4 Project Support & Maintenance

We remain on hand throughout the duration of your works, offering ongoing support, adjustments, and responsive maintenance where required.

5 Dismantle & Handover

When the project is complete, our team carefully dismantles and removes all scaffolding with minimal site disruption.

Health & Safety

Safety isn't just a priority – it's our foundation.

Accreditations

At Synergy J, safety, quality, and compliance are at the heart of everything we do. Our accreditations with Alcumus SafeContractor, Constructionline Gold, and SMAS Worksafe demonstrate our ongoing commitment to maintaining the highest industry standards. These certifications recognise our dedication to health and safety excellence, verified competency, and robust operational practices across every project we deliver. Clients can have full confidence that Synergy J operates with integrity, professionalism, and a proactive approach to compliance at every level.

Commitment

- Full compliance with TG20:21, SG4, and the latest Working at Height Regulations.
- CISRS-qualified workforce led by experienced advanced scaffolders and supervisors.
- Comprehensive safety training and regular refresher courses for all staff.
- Daily toolbox talks and site briefings to identify and manage risks effectively.
- Rigorous inspection programme – scaffolds inspected before use, after alteration, and at least every seven days.

SOCIAL RESPONSIBILITY

At Synergy J, we take our social responsibility seriously. We're committed to making a positive difference.

V3 Sleep On It 2025

The Synergy J team proudly took part in the V3 Sleep On It charity event at Cardiff City Stadium, joining colleagues from across the V3 Group to raise awareness and vital funds for Llamau, a charity supporting homelessness in Wales.

Llamau

Imagine a World Without Homelessness

Fundraising

£25K

Swapping hard hats for sleeping bags, our team spent the night outdoors to experience just a fraction of the challenges faced by those without a safe place to sleep. It was a humbling experience that brought everyone together for an incredible cause – highlighting our shared commitment to giving back and making a real difference in our community.
