

**CRYPTO COMEDY CLUB**

Whitepaper 1.0

## The Goal

Whether it's from travel restrictions, travel costs or location some people don't have access to good comedy. The blockchain needs entertainment.

Comedians have a hard time getting their name out if they only perform locally. They have to travel constantly to reach their fans.

We aim to solve these issues.

## The Mission

Our mission is to bring comedy to people from all over the world with a VR Comedy Club powered by the blockchain.

We aim to make the blockchain fun and enjoyable to all while showing the comedy world the power of crypto.

We will help get comedians more fans while introducing talent to new viewers.

This will also allow comedians to perform for fans in other countries without having to travel constantly.

## For Comedians

This is going to be a great tool for all comedians. Whether they are still trying to make a name for themselves or they are already famous.

### Comedian Benefits

- They will be able to perform from home or while on the road.
- They will be able to reach a whole new fan base that is world wide.
- Give fans a opportunity to see them perform live due to travel restrictions or financial reasons.
- Enjoy the support of our community to help promote shows and push social media.
- Make easy money performing from the comfort of your own home.

## For the Fans

This will give people a chance to enjoy comedy from any part of the world, nationality, culture or language.

You will be able to enjoy shows in VR and/or on a desktop or mobile device.

The community can sign up for open mic nights to see if they have what it takes.

Cheaper prices than brick and mortar clubs.

Enjoy from the comfort of your our home (no pants needed).

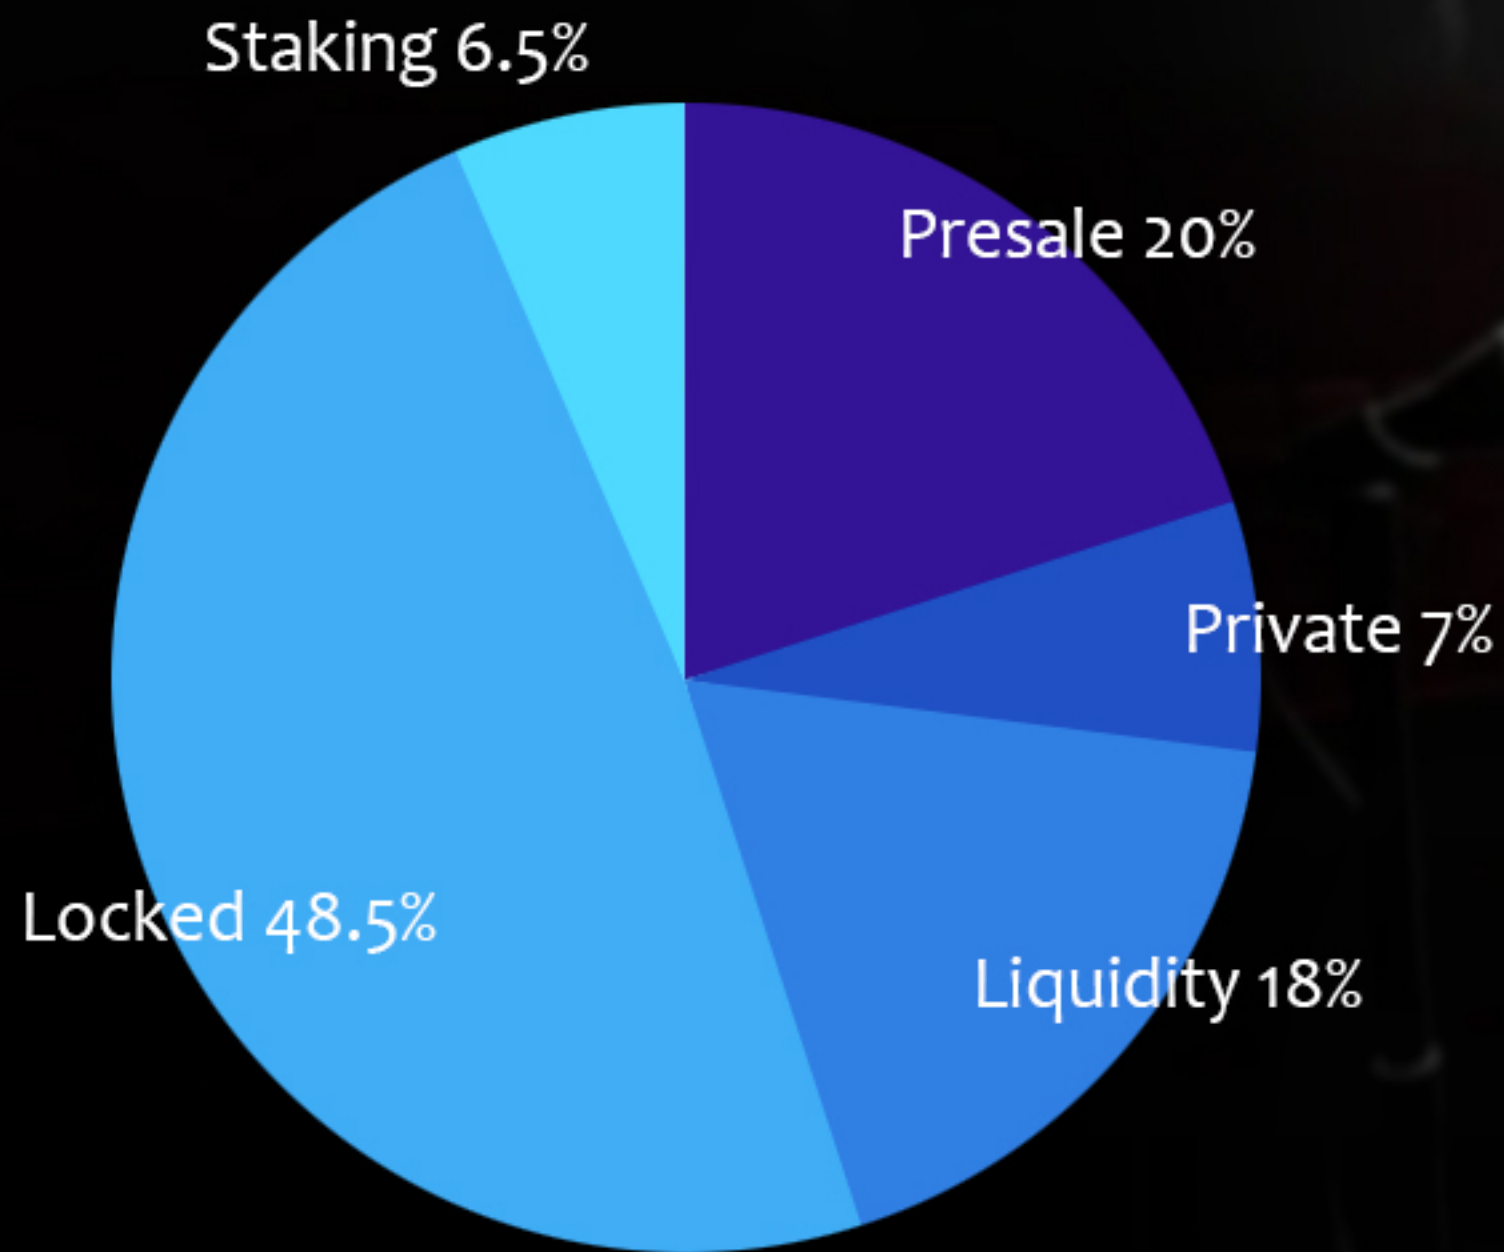

Enjoy passive income from staking and reflections.

Get tickets before they go on sale to the public.

VIP access.

# Tokenomics

## Taxes

10% Buy/Sell/Transfer tax:

2% marketing

- "in-game" NFT objects (cigars, drinks, tomatoes etc.)
- Custom avatars
- Mini games
- Tips for comedians

## VIP Club

Our VIP members will enjoy several perks:

- Early access to ticket sales.
- Front row seating.
- Backstage passes.
- Meet and greets with comedians.

## Software

We are building an online multiplayer experience, that can be experienced in full VR, but also for those without a VR headset as a 360 degree mobile/web app

You can participate as either an audience member or a performer. Come to watch professional and open mic performers and enjoy the show with other real audience members. Or show off your stand up skills and take to the stage, entering open mic nights for real prizes or get paid to perform as an established comedy act.

There are VIP rooms for hanging out with the performers, a lobby to mingle with friends before the show, and multiple virtual venues ranging from cozy comedy bars to grand theatre shows.

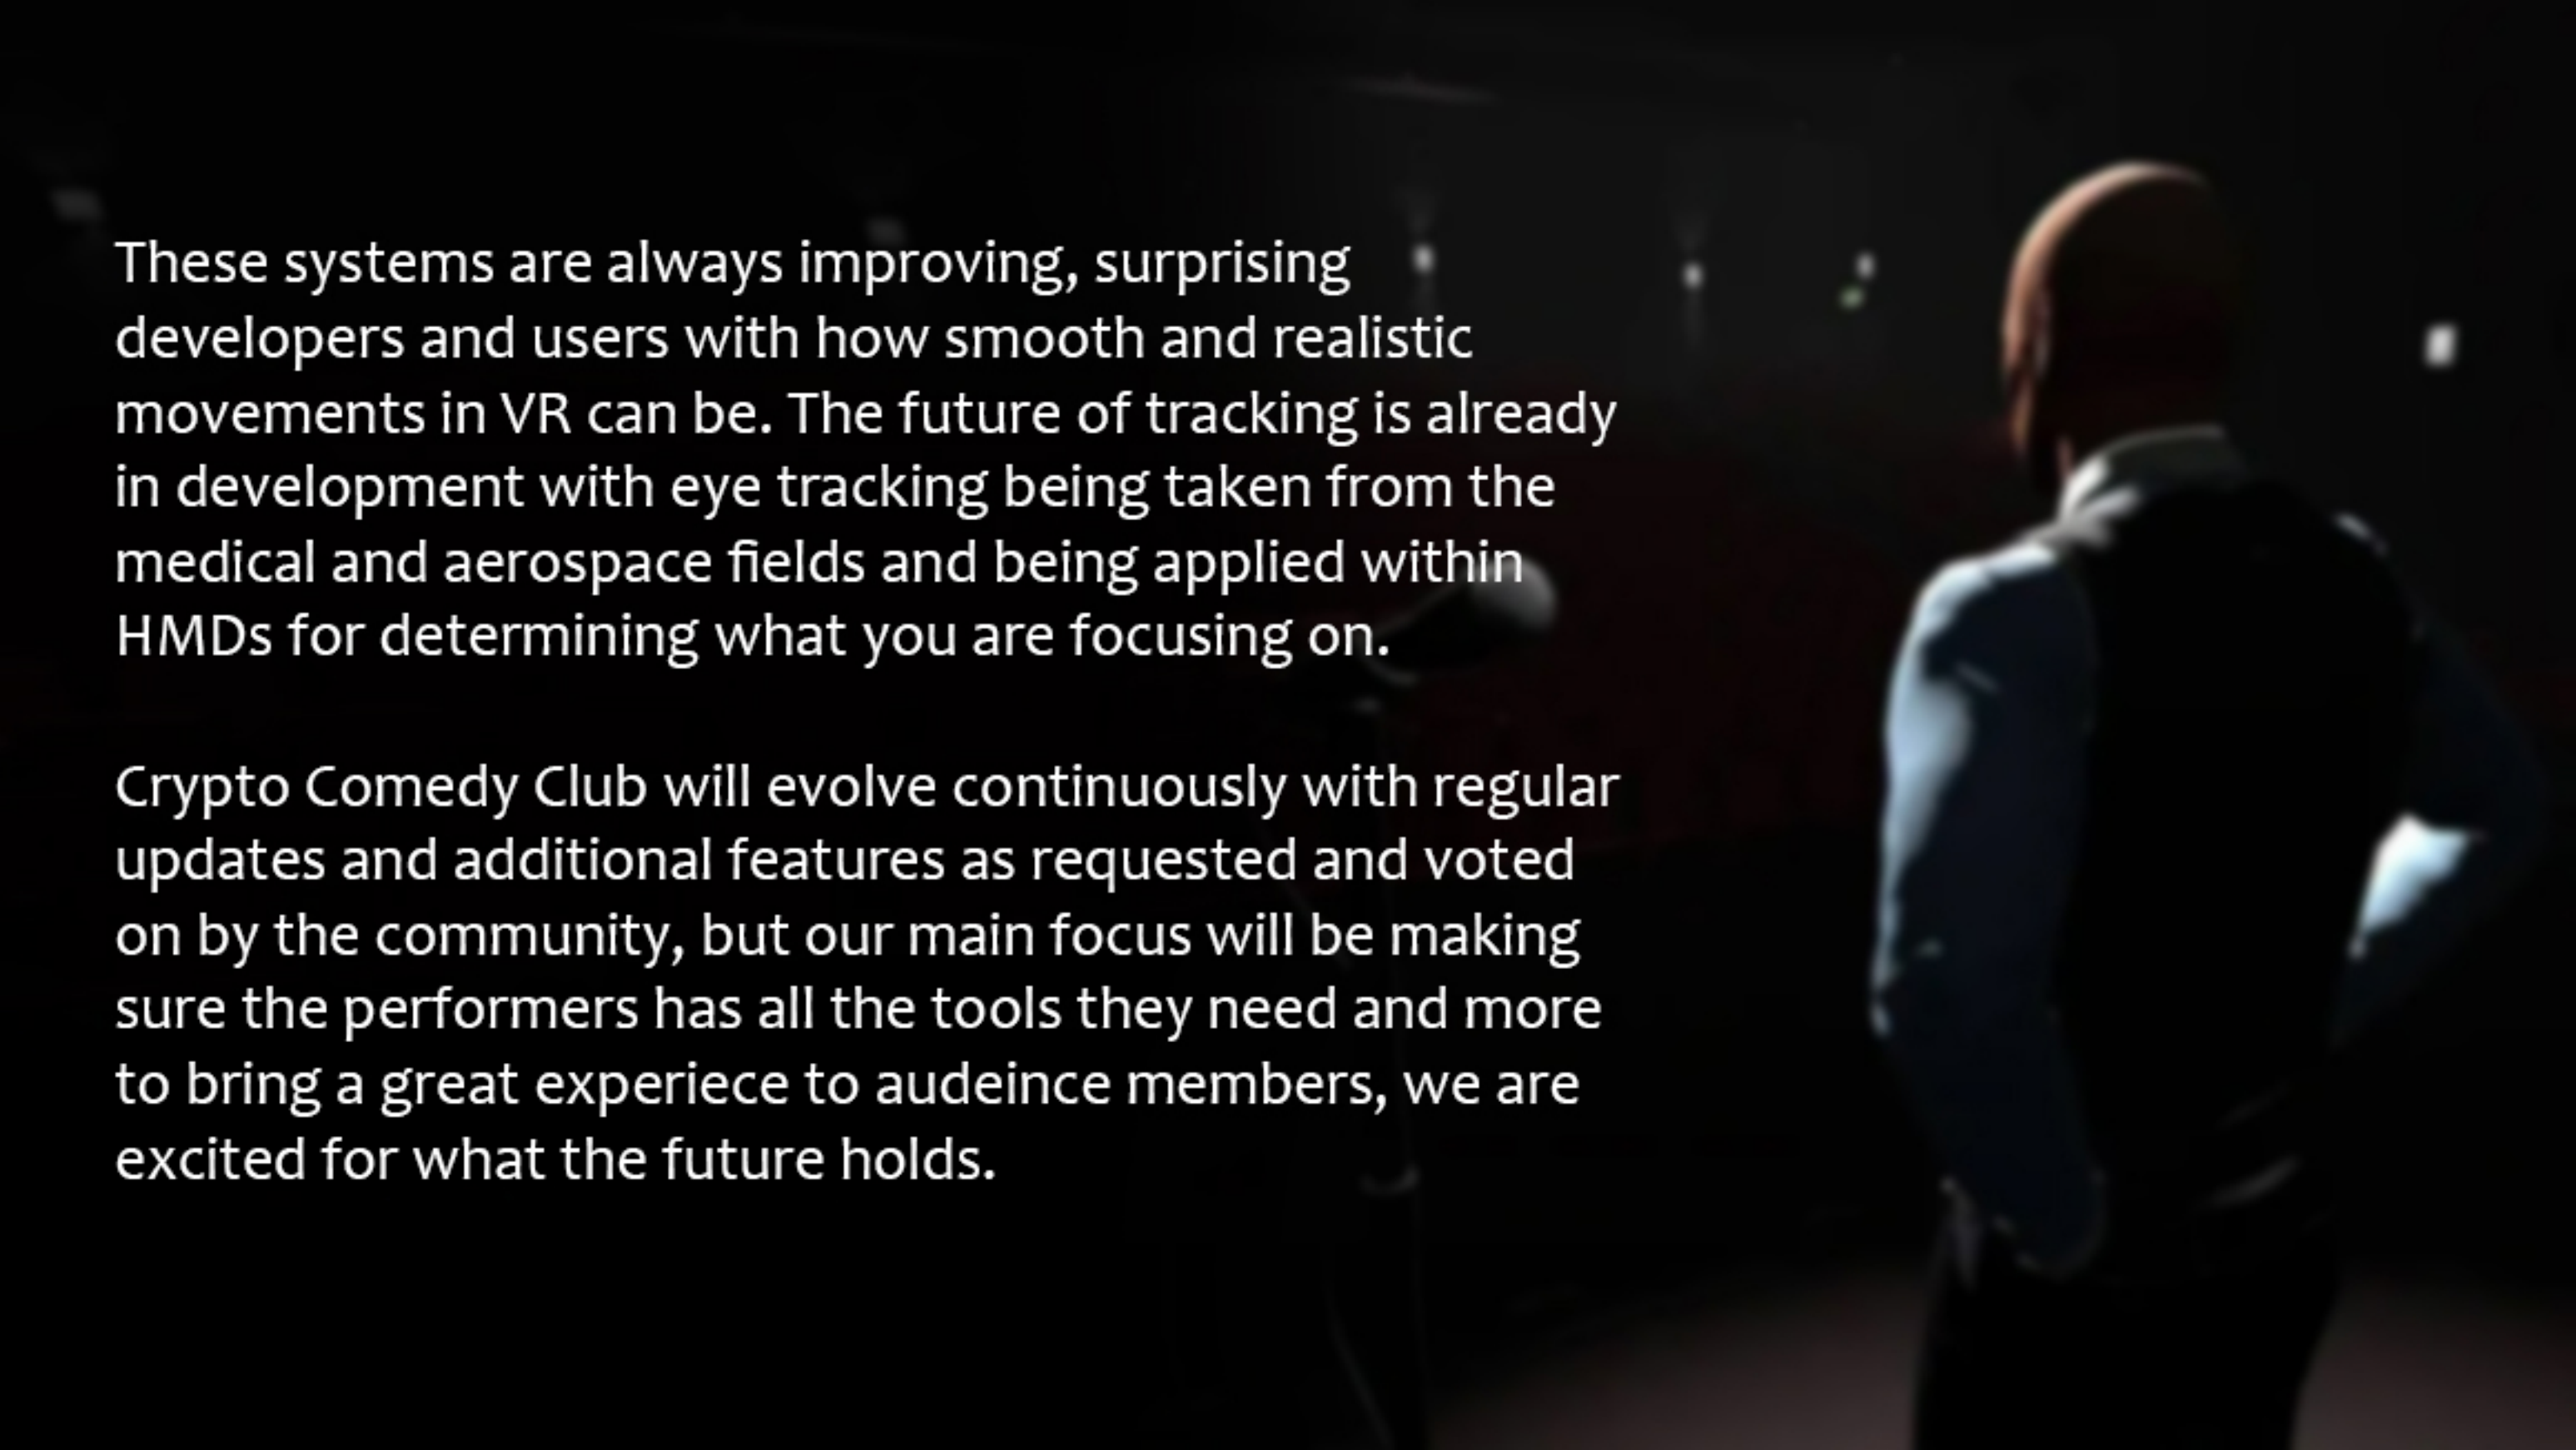

The VR experience lets you interact with people and objects as if you were really there. Talk, listen, heckle, grab, throw, touch, and laugh as if you were at the actual venue. All from the comfort of your favourite chair. Performing acts can choose to hear and see the audience avatars, mute individual hecklers, or even choose to make them all completely invisible, depending on preference.

Crypto Comedy Club VR mode will be available on Pico, HTC Vive, Valve Index, and Meta Quest 2 with other VR platforms to follow. It will also be available on WebGL, Android and IOS as a 360 degree video experience.

A person is shown from behind, wearing a VR headset and a dark jacket. They are in a virtual environment with a dark, starry background. The text is overlaid on the left side of the image.

These systems are always improving, surprising developers and users with how smooth and realistic movements in VR can be. The future of tracking is already in development with eye tracking being taken from the medical and aerospace fields and being applied within HMDs for determining what you are focusing on.

Crypto Comedy Club will evolve continuously with regular updates and additional features as requested and voted on by the community, but our main focus will be making sure the performers has all the tools they need and more to bring a great experiece to audeince members, we are excited for what the future holds.

# Roadmap

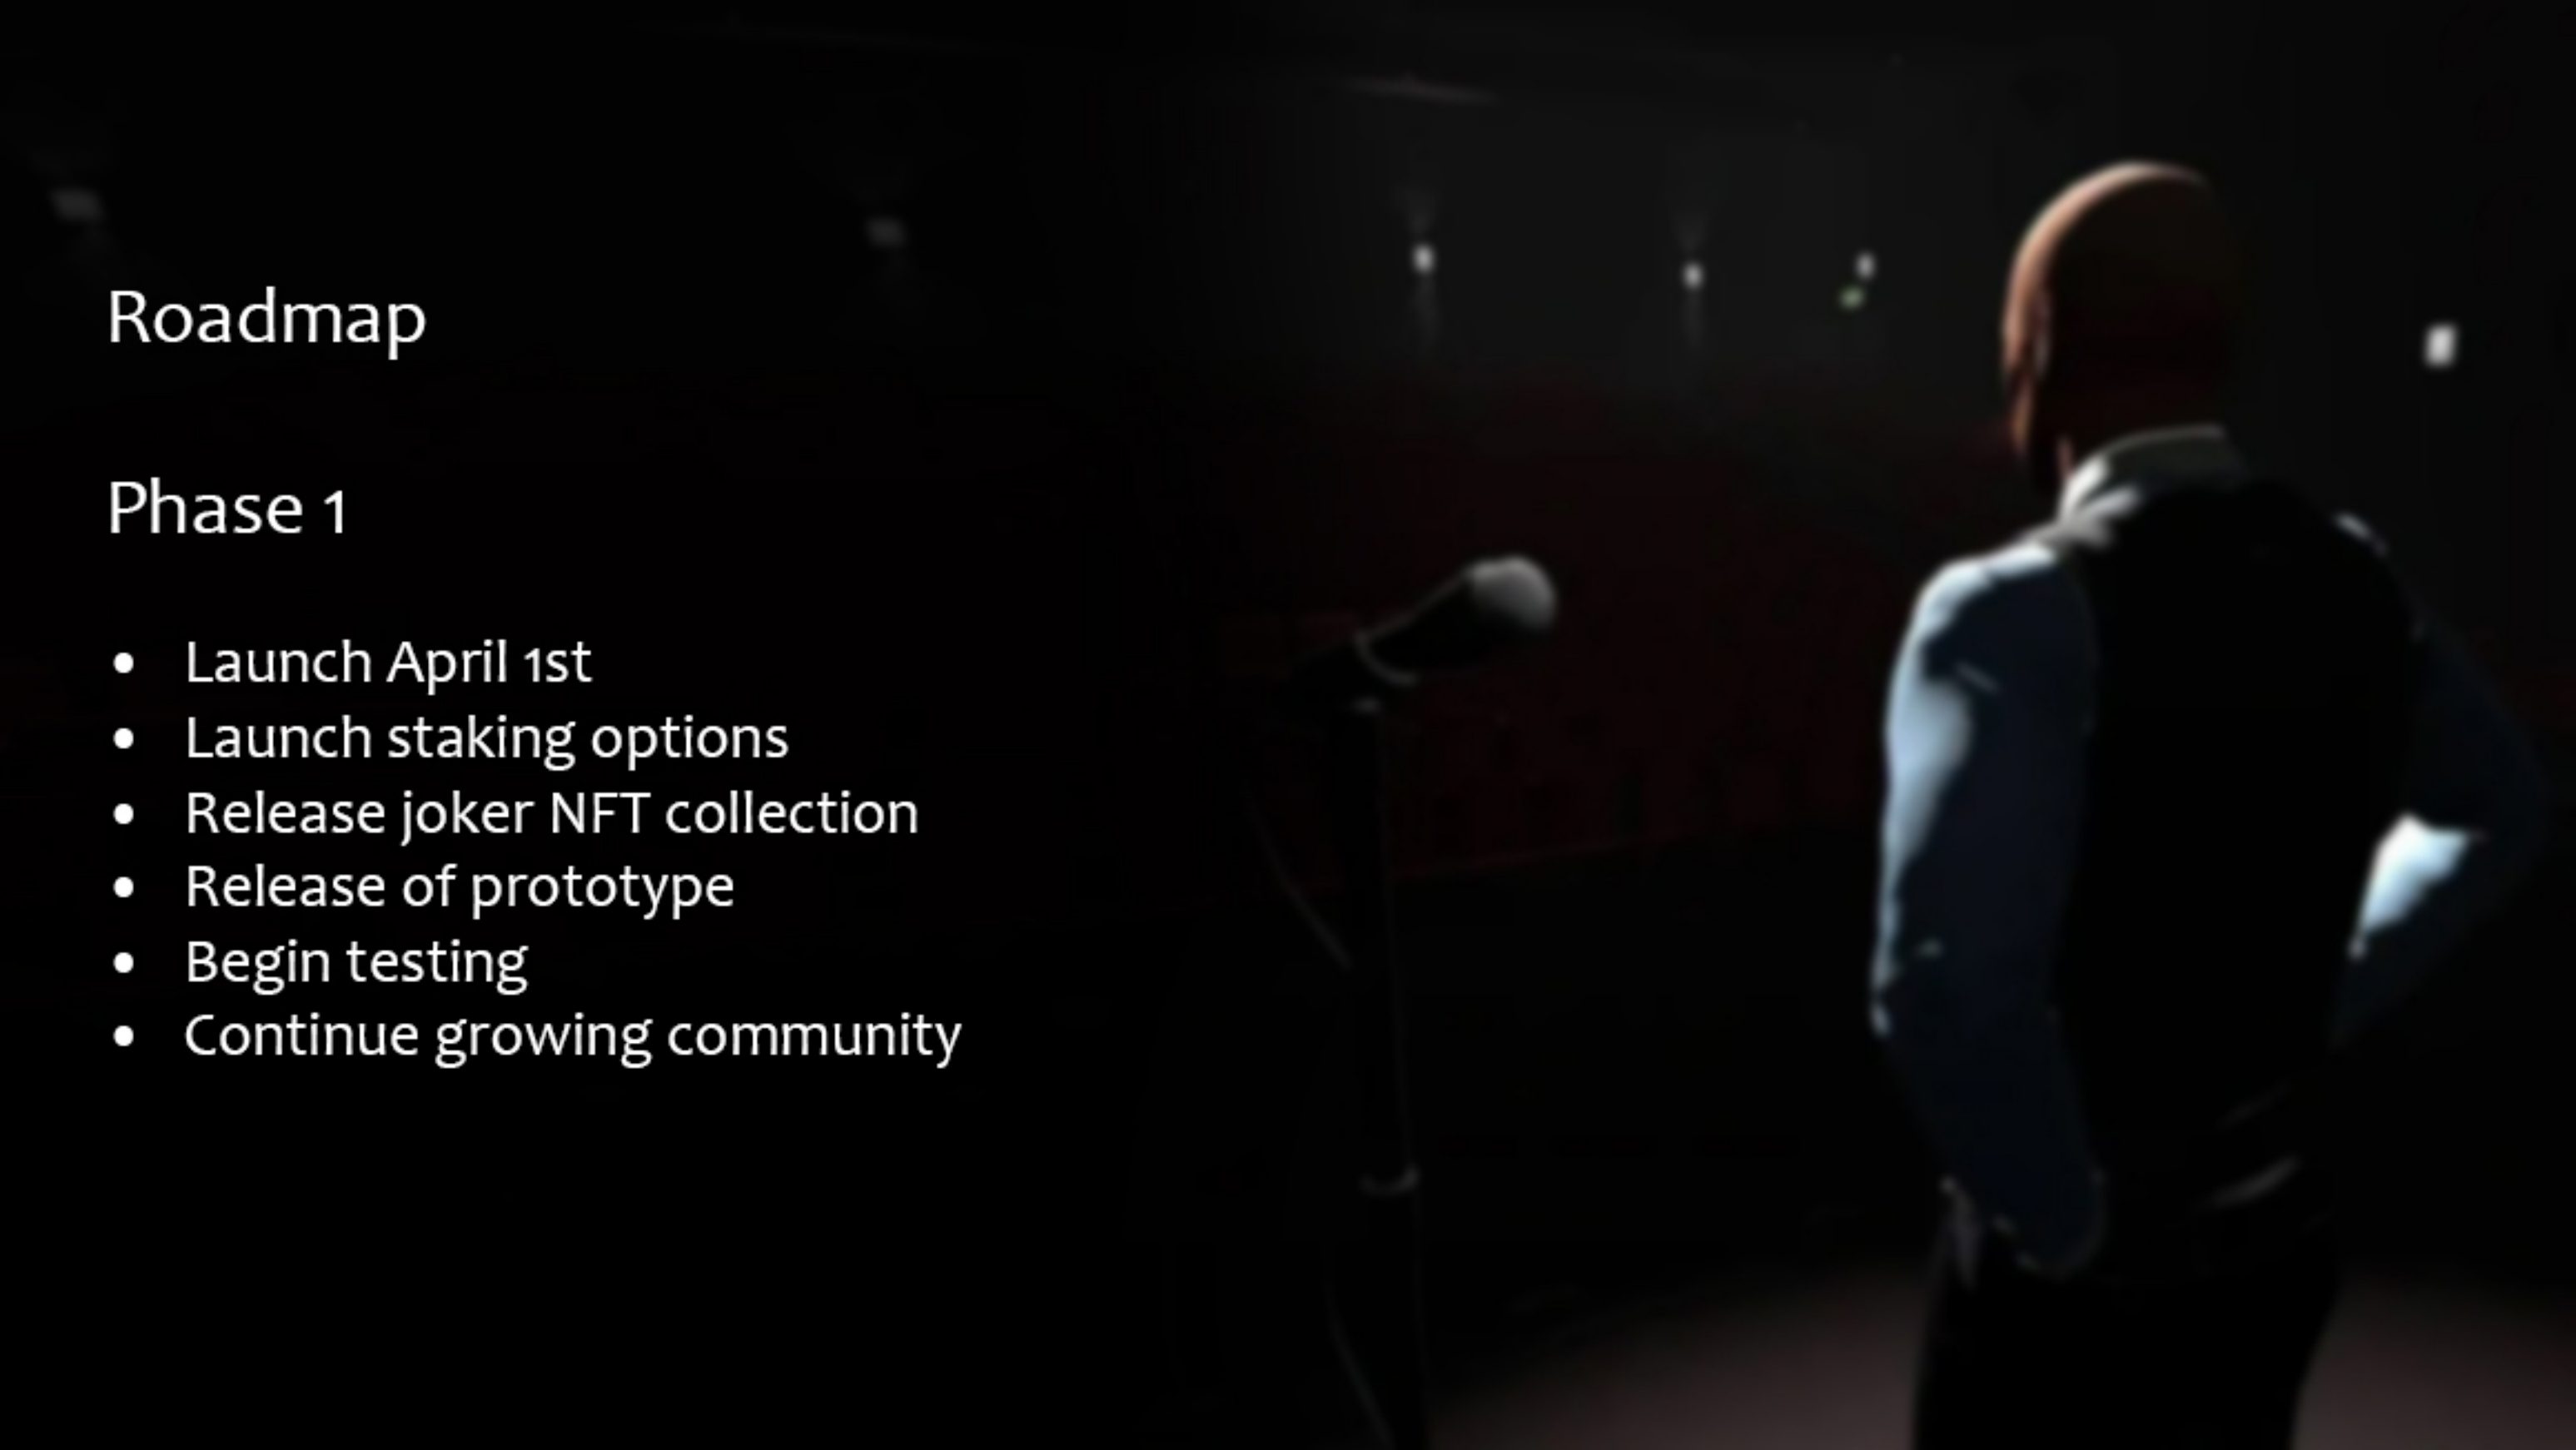

## Phase 0

- Create contract
- Complete contract audit
- Start building VR program
- Connect with talent
- Build Telegram community
- Create socials
- Hold private sale
- Run whitelist for presale

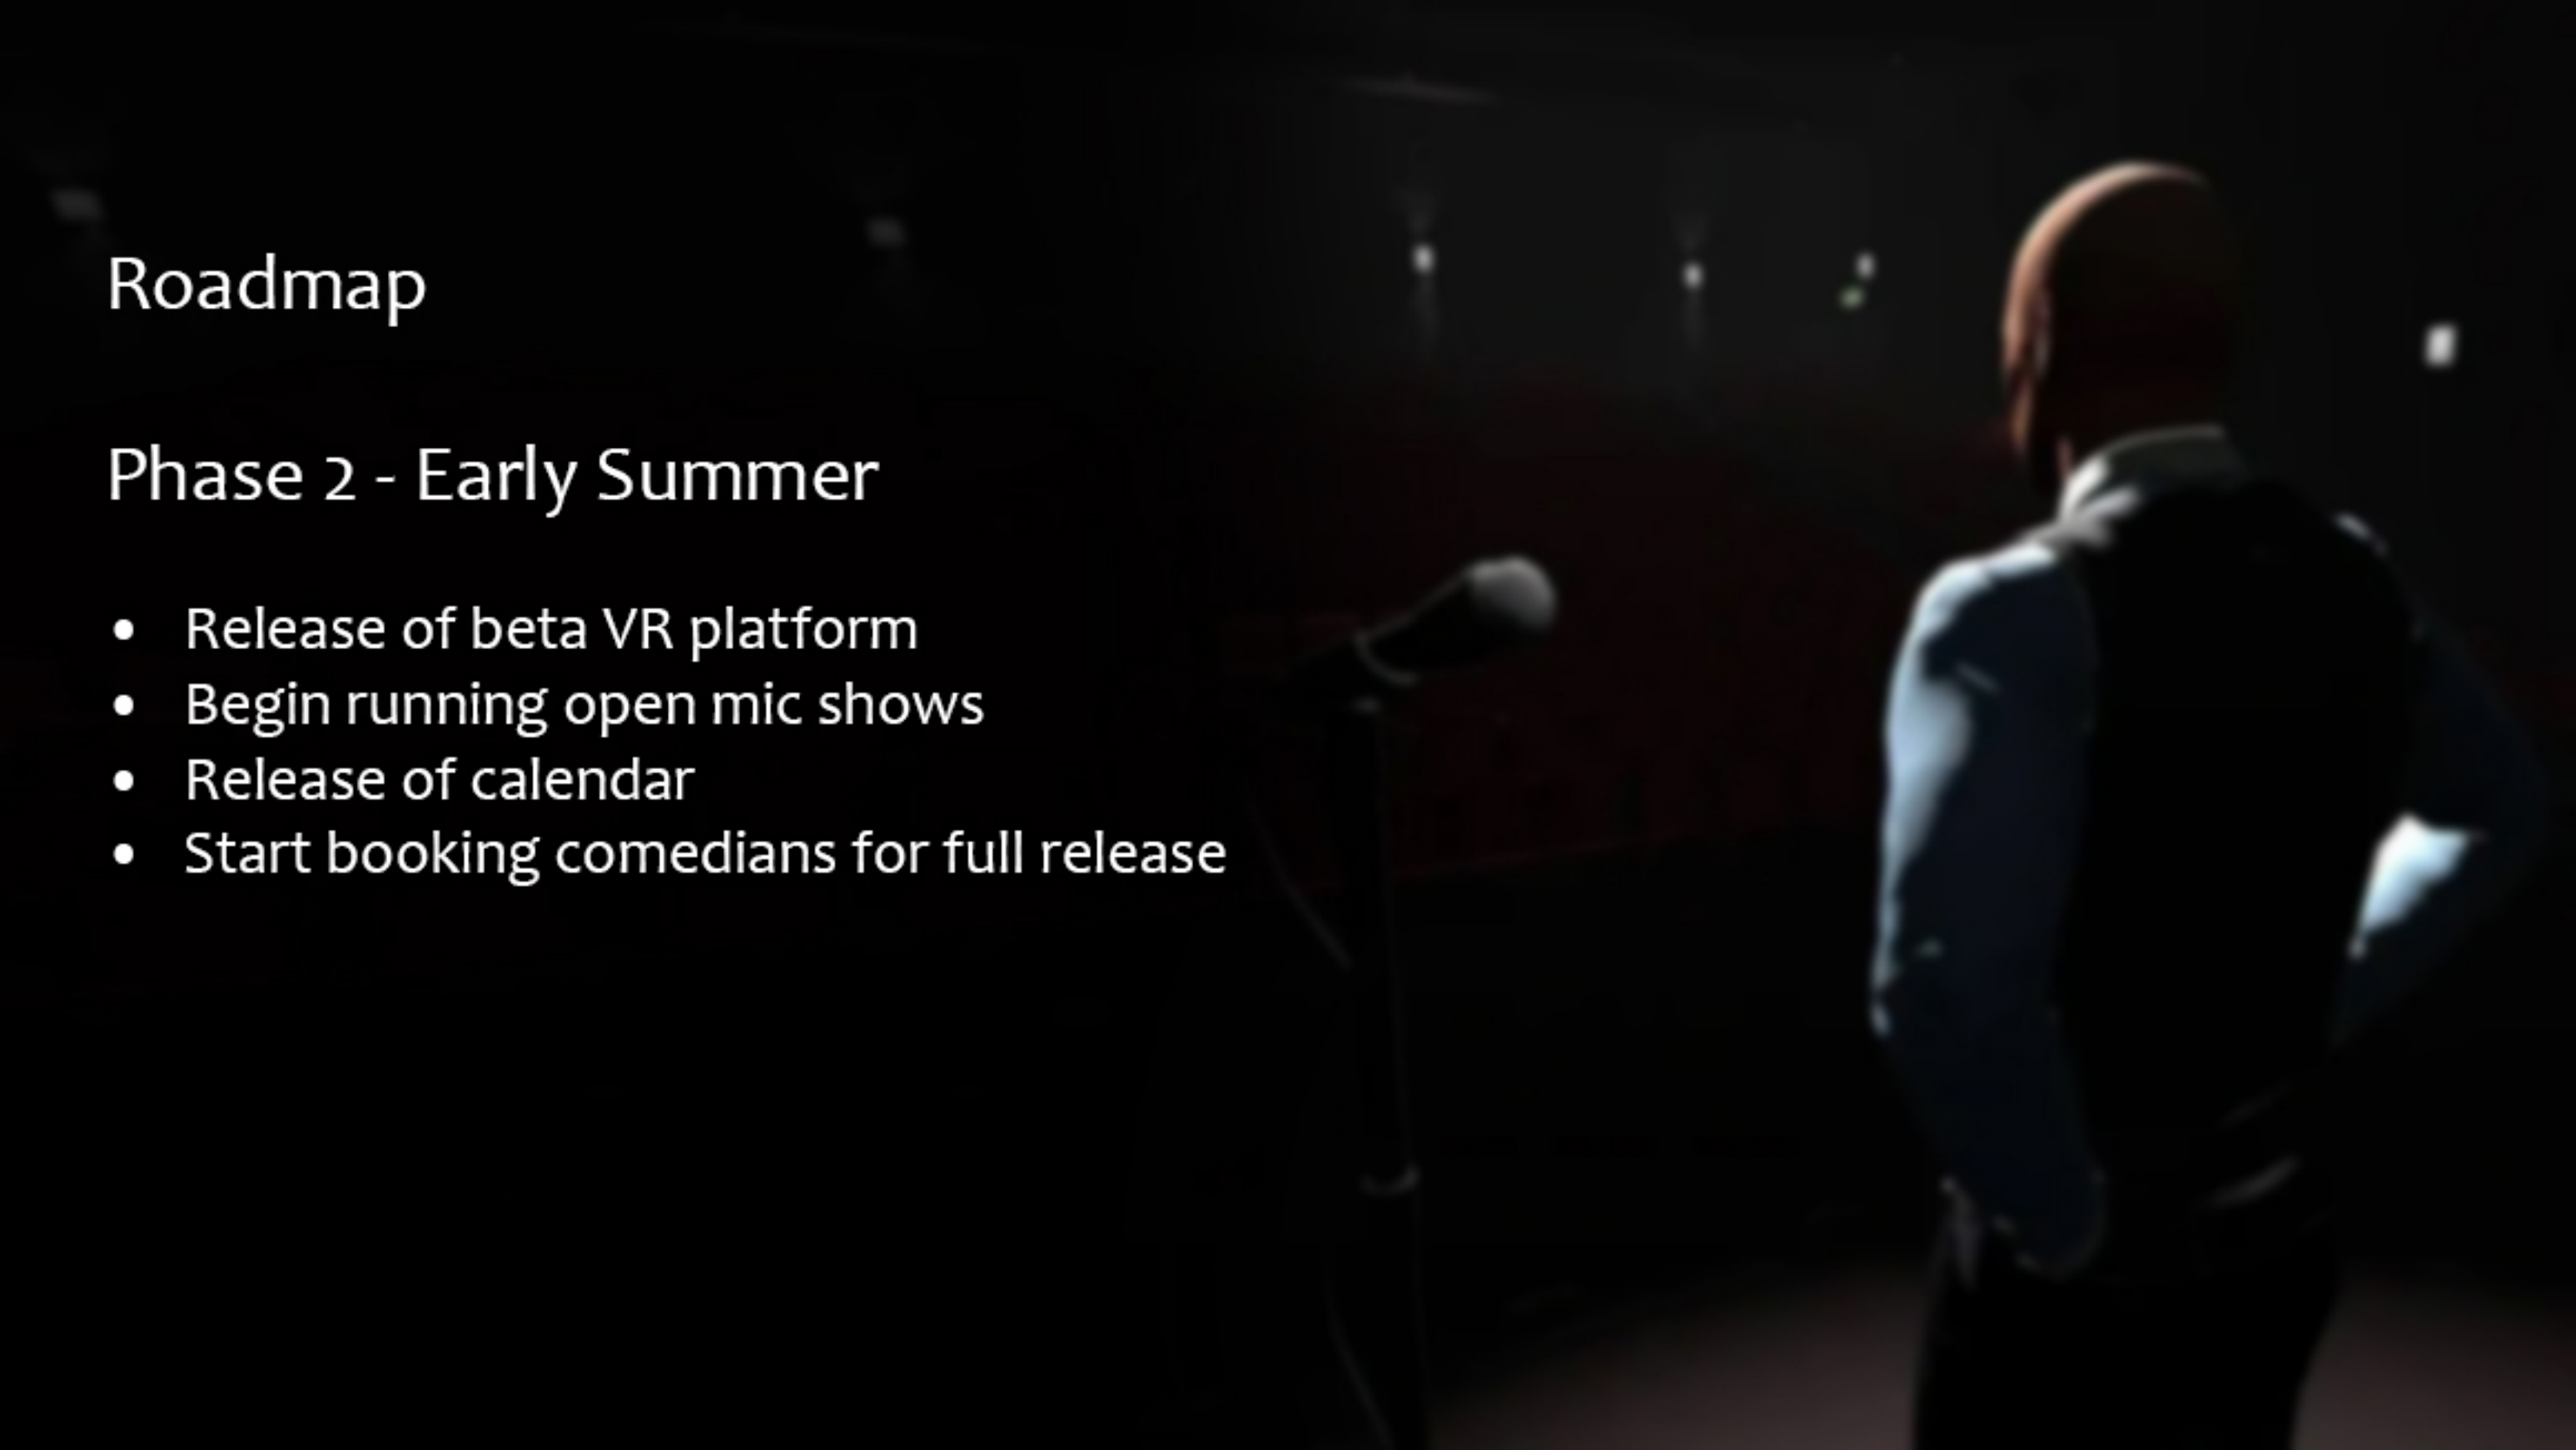

# Roadmap

## Phase 1

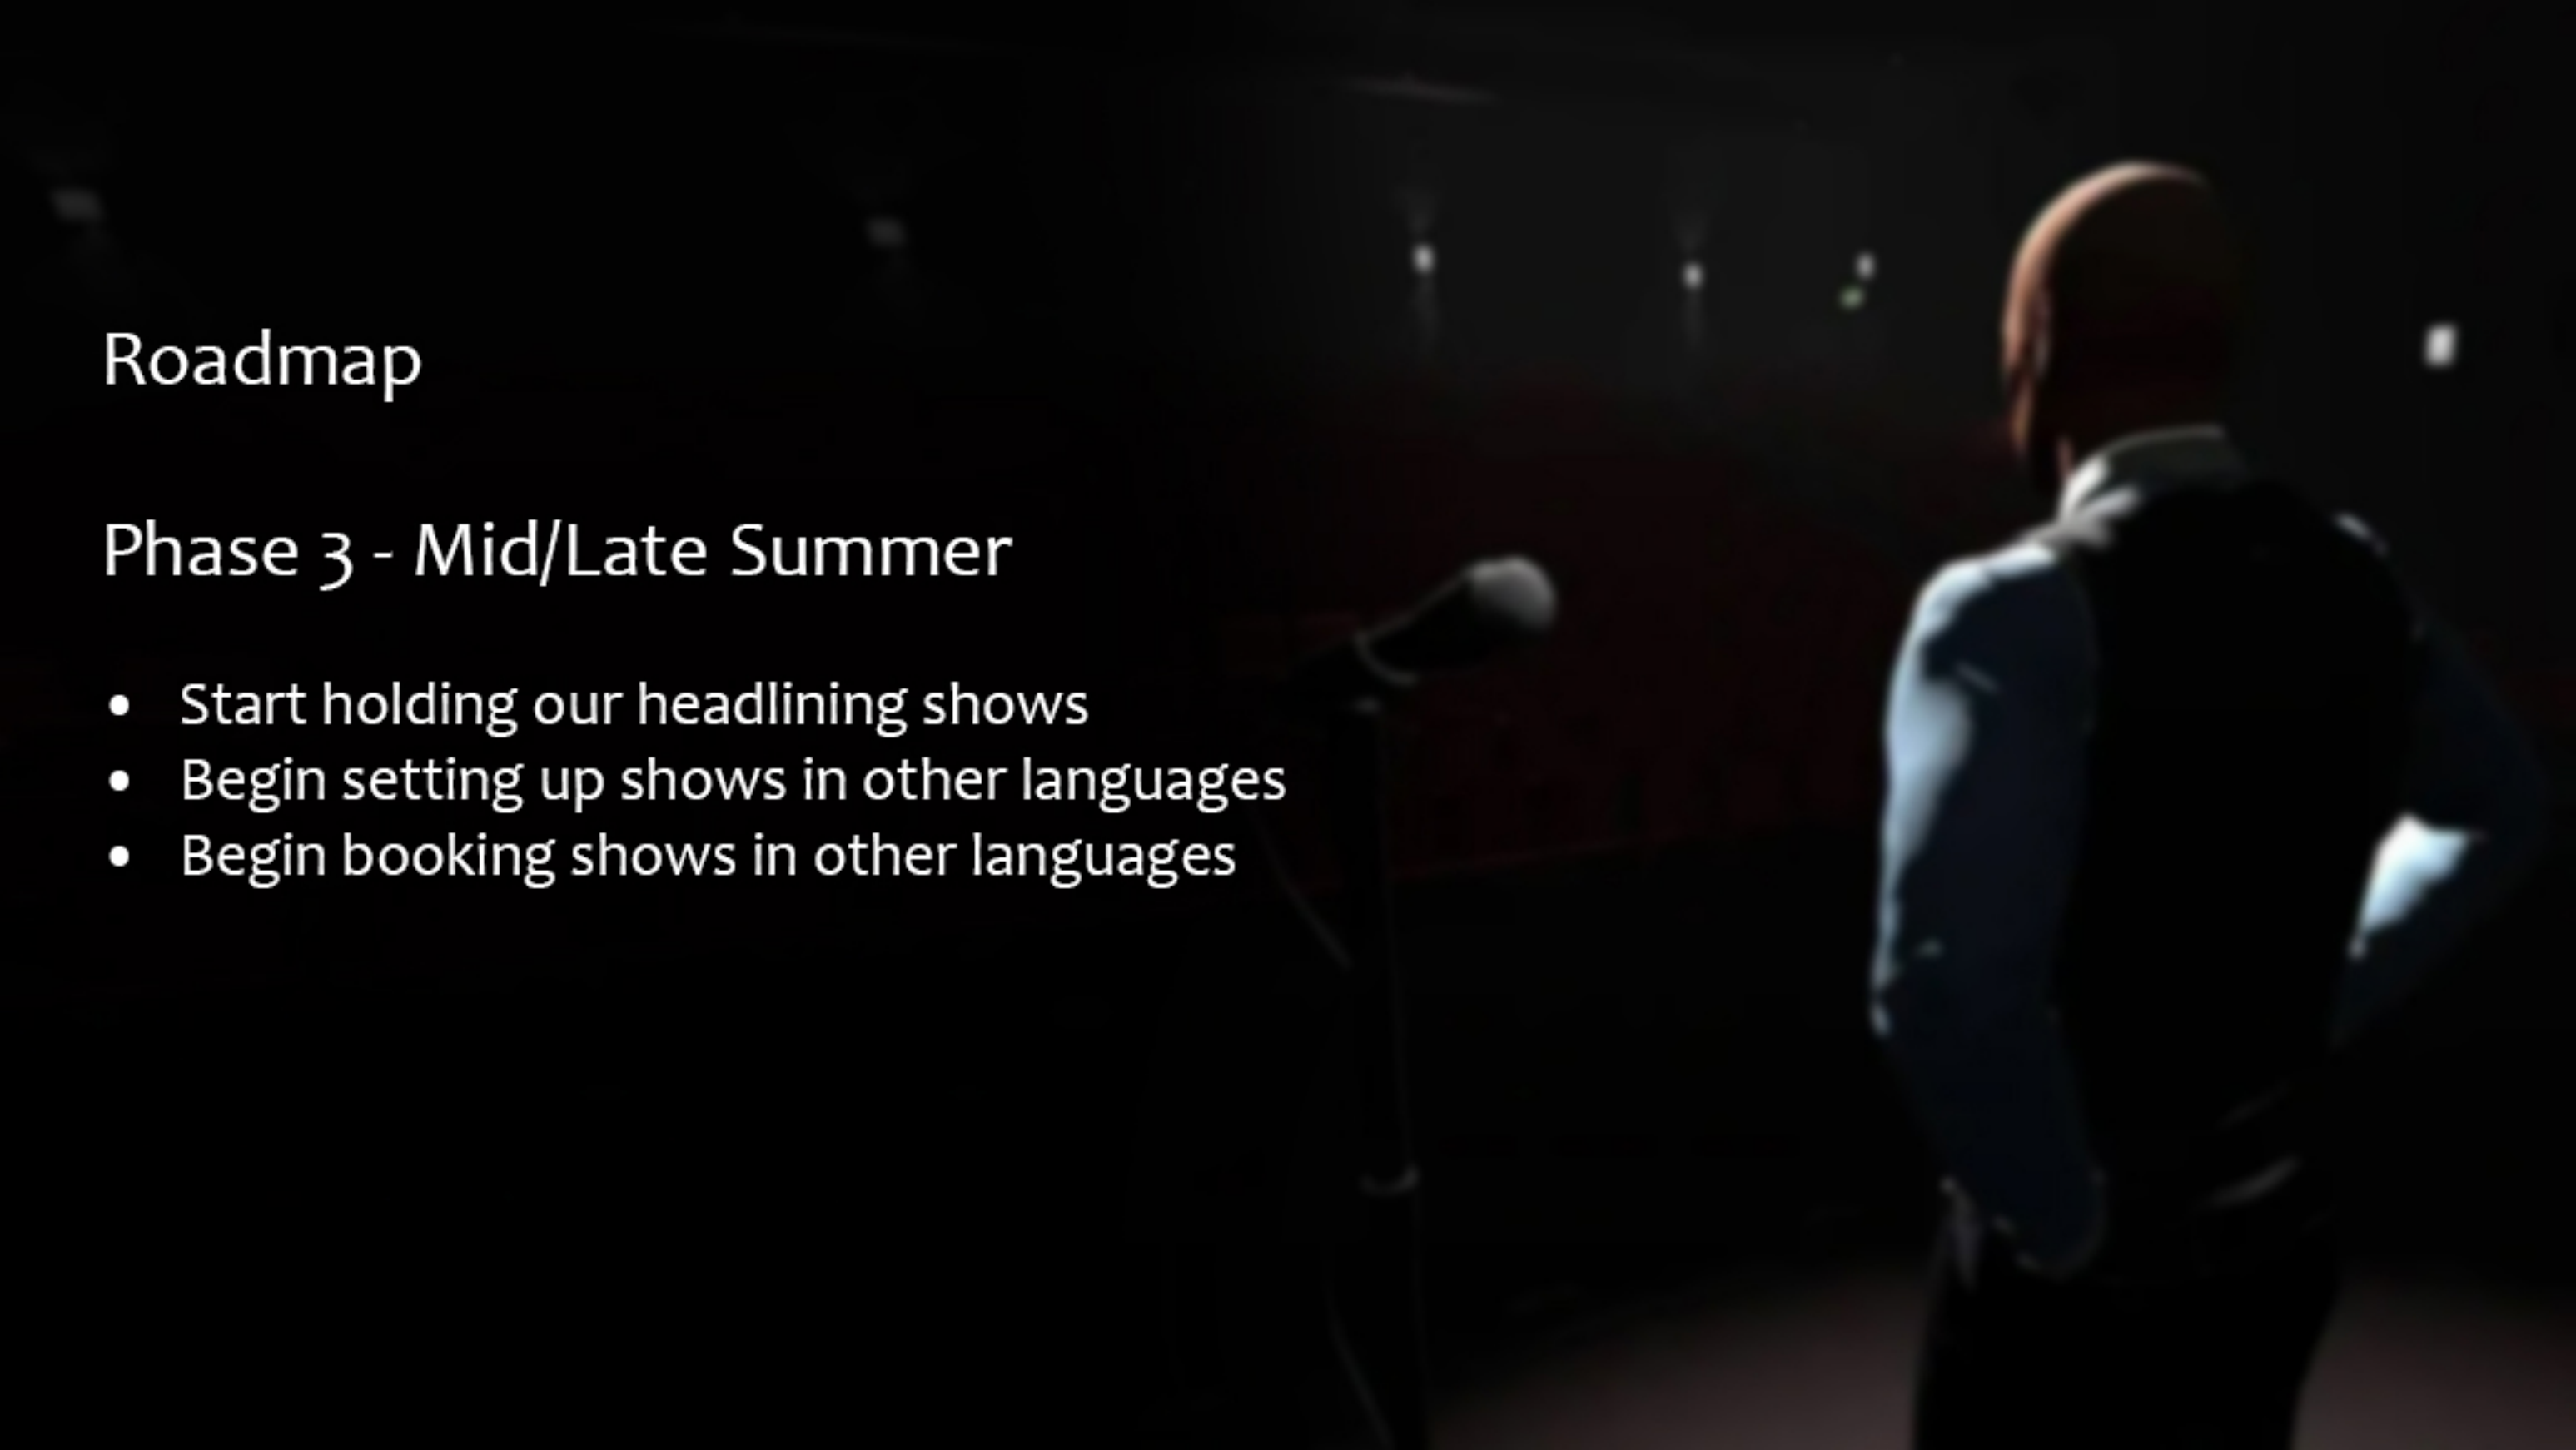

- Launch April 1st
- Launch staking options
