Amado Energy Solutions
Your Energy & Sustainability Partner

About Us

Amado Energy Solutions (AES) is a boutique energy consulting firm with over a decade and half of experience in the energy industry. We specialize in strategic energy management (ISO 50001), optimizing energy consumption, reducing costs, and promoting sustainability as off-site Energy Manager.

Amado Energy Solutions delivers affordable and effective energy management solutions that drive tangible results for our clients. Energy management does not have to be inaccessible.

We make Energy Management obtainable to businesses and organizations.

Our Mission

To empower businesses with customized energy management solutions that drive efficiency, sustainability, and financial savings.

Work with an experienced **Energy Manager** to identify energy-saving opportunities, implement efficiency measures, and manage energy-related projects to reduce costs and environmental impact

Work with a **Sustainability professional** to help oversee and implement sustainability initiatives within your organization.

Work with a **Project Manager** to help you plan, organize, and oversee the execution of your next project,

Energy efficiency is a critical strategy for addressing environmental concerns, reducing greenhouse gas emissions, and promoting sustainable development

Our Vision

To be a trusted partner for businesses seeking innovative energy management strategies that contribute to a greener future.
