

Business Sustainability Plan

To support United Nations Sustainable Development Goals: Goal#7 Affordable & Clean Energy and Goal#13 Climate Change

PREPARING

- Create a sustainability team
- Create a corporate sustainability vision
- Establish baseline

OPPORTUNITIES

- Conduct energy and carbon emission assessment and audits
- Identify energy and carbon reduction opportunities
- Select the right opportunities

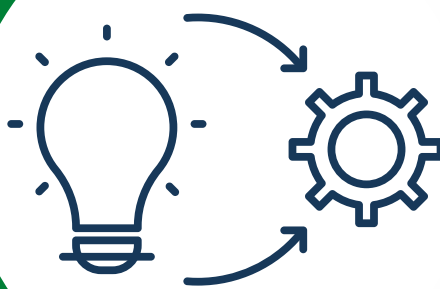

GOALS

- Set sustainability goals
- Break goals down into short and long term goals
- Pick 3-5 goals
- Determine resources needed

IMPLEMENTATION

- Address the low cost/no cost opportunities first
- Seek outside support and resources for capital projects
- Work with local utilities for incentives eligibility
- Track and report results

REVIST AND REVISE

- Set annual plan
- Annual review
- Continuous improvement
