Re: **9Wood Qualifications**

To Whom It May Concern,

Based in Springfield, Oregon, USA, 9Wood is one of the country's leading manufacturers of specialty wood ceiling systems. They are the only remaining commercial manufacturer in the United States who produces only wood ceiling & wall products.

9Wood meets the requirement for Class A fire-ratings, is BAA and BABAA compliant, and we produce several systems that hold HPD certifications with finishes that meet CDPH.

The company has been in business as an FSC® Chain-of-Custody holder since 2004, a PEFC Chain-of Custody holder since 2018, a USGBC member since 2007, and has completed countless successful projects nationwide.
