Trash Chutes

Dumpsters

The Midland Chutes automatic odor control system is an industrial-quality odor control system specifically designed to neutralize odors in trash compactors, trash chutes and trash rooms up to 2,000 sq.ft.

- * **Easy To Use**– A digital control panel insures full automation and allows simple adjustments, easy to understand. Capable of operating 24/7.
- * **Safety**– Midland Odor Neutralizer is formulated to counteract solid waste and organic decomposition odors. Offensive odors are neutralized, not masked with heavy perfumes. Eliminates the need for maintaining inventories of several different types of odor counteractants. The premium concentrate is also an effective deodorizer, leaving a positive pleasant smell.
- * **Simple and Fast Installation** – Simple self-installation, unpack the unit, add the odor neutralizer, press the start button. The system is preprogrammed at the factory. Setup takes less than 15 minutes.
- * **One Year Warranty** – The system comes with a full one year warranty.
- * **Lifetime Warranty Option**– Each time you purchase a 5 gallon refill of Midland Odor Neutralizer we will extend your systems warranty by 1 year effectively giving a lifetime warranty on the system.
- * **Technical Support**– Our technicians are factory trained and are ready to assist.
