4. Are we allowing re-sets at the draw per player request?

No. Due to the special draw stick head technology, we are not allowing this request. The official can decide to reset if needed. Only if the fouled player stops their progress and holds for defense to give them proper spacing (4 meters) then we are to direct the penalized player to move four meters behind. If offense begins play, the ball is live and the player can be engaged. This is also true if the fouled player continues after the foul without coming to a stop.

6. If a goalie commits a cardable foul, what is the procedure?

If the goalie commits a cardable foul and the team has a second dressed goalie, the second goalie enters the game, carded goalie plus a field player selected by the coach serves the 2 minute penalty. The goalie plus a field player, selected by the coach, will be placed in the penalty area. This means the team will only have 11 players on field until the card time has elapsed. If no second dressed goalie - coach selects a field player to serve the 2 minute penalty.
