Dear Raenette Franco,

I'd like to thank you for your part in making the Texas Metabolic Summit a success! The dietitians and genetic counselors from around the state found your presentation incredibly helpful in getting coverage for patients. Working with insurance companies can be difficult to understand, stifling to treatment progress, and stressful to patients and clinicians. However, you empowered attendees by giving us the tools we need to get the best coverage for our patients, which leads to optimal care of their conditions. Your passion for patients and their families was endearing and refreshing and it is comforting to know that we have you and your staff available to help out with complex cases.

It was a pleasure to work with you before and during the conference. From the beginning stages of the meeting plans, I wanted to share Compassion Works Medical with others around the state and as expected, your presence translated into a vital part of the meeting.

I look forward to continued collaboration with you and hope you can be a part of future Texas Metabolic Summits.

Sincerely with gratitude,

Danielle Vice, MS, RD, CNSC, LD
University of Texas Medical Branch
