MEET SHETH (ISTQB ® CTFL)

SOFTWARE TEST ENGINEER - QA

+1 (647) 938 6338 | meettheqa@gmail.com | Canada | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

With expertise gained from a **Software Quality Assurance and Test Engineering** program at **Conestoga College**, I excel in crafting testing plans and executing robust test cases, ensuring functionality, usability, and regression testing. My experience includes quality assurance audits, technical documentation, and insightful data analysis. With over **3 years of hands-on experience**, I possess a deep understanding of testing methodologies and automation frameworks, focusing on product quality and efficiency. Proficient in TestNG, Cucumber, and Custom frameworks, I emphasize Agile methodologies. Additionally, I am skilled in Selenium, **Cypress**, Java for automation, Python for scripting, SQL for database operations, and collaboration tools like JIRA and Git. My diverse skill set contributes to the success of projects, delivering high-quality software aligned with Agile methodologies and adaptive development.

PROFESSIONAL EXPERIENCE

Systems Administrator,

Mint Garage Inc., Milton ON CA   January 2024 - Present

- Efficiently manage end-to-end web development lifecycle, ensuring timely delivery and adherence to quality standards.
- Proactively maintain and update company websites, optimizing performance and user experience.
- Oversee the technical infrastructure of the company's digital presence.

Engineer - QA,

Volansys Technologies Pvt. Ltd., Ahmedabad GUJ IN   February 2023 - April 2023

- Demonstrated expertise in understanding, analyzing, and streamlining test requirements, ensuring alignment with project objectives and stakeholder expectations.
- Extensively worked on Iot, POS systems and cloud-based solutions to deliver the work in a fast-paced, deadline-driven environments
- Familiar with all phases of Software Development Life Cycle and Software Test Life Cycle.
- Good Experience in Bug tracking and reporting using Defect Management Tools (Bug Tracker and JIRA) till closure.
- Developed test scripts using WebDriver, Selenium RC, Selenium-IDE, Selenium Grid in Java.
- Executed the automated regression test cases during every release and executed the daily regression test suites.
- Executed performance testing and analysis using JMeter, resulting in the identification of critical performance bottlenecks and the optimization of system resources, ultimately improving application response times by 30% and enhancing overall user experience.
- Performed Database Testing with thorough knowledge in SQL and Docker, leading to the detection and resolution of database inconsistencies and performance issues.
- Have working experience with Agile (Scrum) methodology.

Projects: [Database x Typescript](#), [Performance – Java x Python Scripting](#), [Selenium](#)

Quality Assurance Analyst (Test Engineer),

Lodestone Acquired by Tech Mahindra, Ahmedabad, IND   August 2020 - December 2022

- Tested and refined interactive features within META's social media applications.
- Regression and Functional Testing Release Candidate builds
- Directed and mentored a team, providing training to team members while actively contributing to project success through effective collaboration and knowledge-sharing.
- Successfully established and optimized a critical, complex 200-test case suite for Facebook x Instagram integration, condensing it into a focused smoke set. This streamlined process significantly reduced testing duration by 30% while maintaining high-impact bug detection efficiency.
- Conducted interoperability testing with Facebook-Messenger-Instagram that resulted in smooth integration.
- Successfully performed Accessibility, Localization testing on iOS (Voiceover), Android (Talkback), Windows (JAWS), macOS.
- Promoted to a role with significant responsibilities, leading critical projects and contributing to the successful release of new features.
- Managed multiple concurrent objectives, including exploratory and ad-hoc testing.
- Demonstrated excellent communication skills, writing detailed bug reports, daily summaries, weekly reporting, tagging, and follow-ups.
- Successfully performed Sanity-Smoke testing hours before the release of Test-flight builds, identifying launch-blocking issues.
- Provided training to interns on projects for effective knowledge transfer.

Customer Service Executive - Trainee,

MedusInd Solutions Pvt Ltd., Ahmedabad GUJ   October 2019 – August 2020

- Ensured compliance with regulations like HIPAA and GDPR for secure patient data handling.
- Utilized medical domain knowledge to validate software functionalities effectively.
- Conducted thorough data integrity checks to maintain accuracy.

EDUCATION

Software Quality Assurance and Test Engineering   May 2023 - December 2023
Conestoga College, Waterloo, Ontario CA

Bachelor of Computer Application [BCA]   June 2016 - April 2019
Gujarat University, Ahmedabad, Gujarat IN

ISTQB ® CTFL   August 2024
GASQ

Mirans Classes Live Project Training in Automation Software   APRIL 2022

Udemy
TypeScript Essential Training   December 2023
Git for Beginners   January 2024

Skills

- Manual testing - Accessibility, Localization, System
- Automation testing - Selenium with Java, Maven, TestNG, Junit, Cucumber, Hybrid Framework
- API, Database, Performance Testing.

Tools

- TestRail, JIRA, Redmine, Bugzilla, GitHub
- Jenkins, ADB Tools
- JMeter, LoadRunner
- VS code, Eclipse, Postman
