ALIVE
INSIDE

THE FEELING OF BEING ALIVE DEFINES OUR BEST MOMENTS ON SNOW, THE SAME SENSATION WE BREATHE INTO EVERY SKI WE DESIGN.

We focus all of our imagination, and concentrate all of our energies on inventing the technologies and processes that allow us to design and develop skis that offer the right balance of AGILITY, LIGHTNESS, and POWER, whatever the terrain, whatever the practice.

To make skis that are more efficient, more reactive, more ALIVE.

AGILITY
« Agility is adaptability »

The combination of balance, precision, and maneuverability, a skis agility frees the skier's movement – whether drifting or setting an edge, cushioning a landing, controlling speed and trajectory, to be adaptable you must be agile.

LIGHTNESS
« Lightness is snow feel»

Lightness doesn't mean simply mean lightweight. It's the feeling underfoot enhancing fluidity on a big powder day, easing the climb while ski touring, and increasing quickness as you roll seamlessly from edge-to-edge.

POWER
« Power is performance »

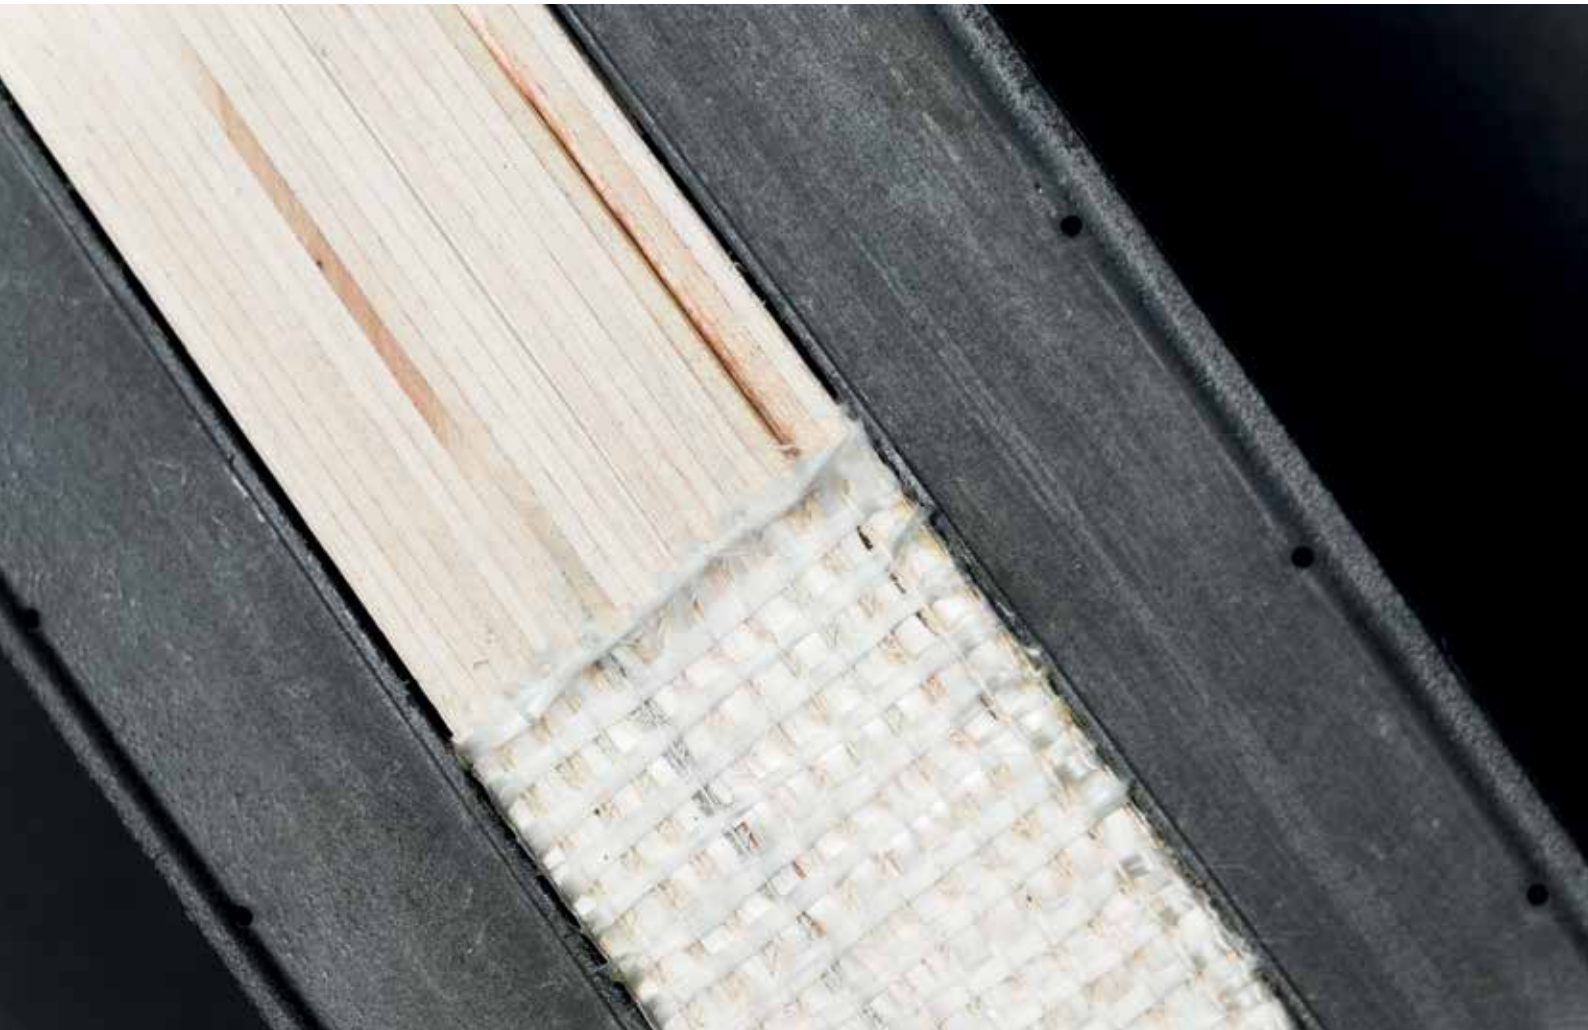
To excel and surpass, to compete with full confidence, a ski's level of performance is intimately linked to the power it allows you to harness. Smooth and precise, explosive yet stable. To perform at the highest levels of the sport.

Technology

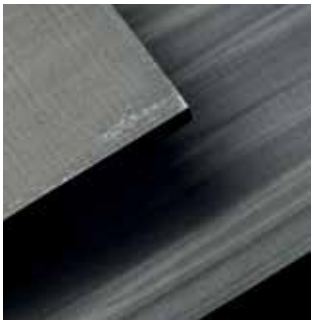
HYBRID CORE

HYBRID CORE

Our patented construction for unique on-snow sensations. The performance of traditional wood cores blended with the lightweight dampening characteristics of PU.



+



WOOD = POWER AND AGILITY

Offering a good balance of weight, energy and rebound, we utilize different species of wood cores to deliver the appropriate level of power.

+

PU = SMOOTH AND LIGHTWEIGHT FEEL

Recognized for its lightweight and dampening properties, PU perfectly balances the benefits of a traditional wood core to deliver a smooth on-snow touch.

=

unique on snow sensations

DIFFERENT SOLUTIONS

purpose built for the pursuit

We incorporate different species of wood to deliver the appropriate balance of lightness, agility, and power for every approach to the mountain.

HUNT
YOUR
LINE
DYNASTAR

The pursuit for freedom hides deep within each of us. A primal instinct resurfaced. We explore the white, wind-swept peaks around us, each with our own approach. Methodically stalking our prey. It's between the lines where the masses flock, that the M-LINE rider holds dominion.

Be a wolf amongst the sheep.

HUNT YOUR LINE

freeride
M-LINE

Freeride is about exploring without limitation. The pursuit for freedom that hides deep within each of us. A primal instinct where creativity and commitment collide as we seek out the perfect line. The perfect pitch; a long approach to the ridgeline; a tight alley weaving through the trees; an undulating apron of untouched snow, unfolding to the valley floor. Each of us seeks our own path. Each of us hunts our own perfect line.

The all-new M-LINE collection offers three distinct ranges: M-FREE, M-PRO, and M-TOUR; each purpose built for the pursuit of the perfect line.

1 SPIRIT

THE PURSUIT OF THE PERFECT LINE

2 SHAPES

***M-FREE**: PROGRESSIVE TWIN TIP SHAPE FOR PLAYFUL FREERIDE PERFORMANCE*

***M-PRO / M-TOUR**: DIRECTIONAL FLAT TAIL SHAPE FOR POWER AND FREETOUR PERFORMANCE*

3 ENGINES

A SPECIFIC HYBRID CORE CONSTRUCTION FOR EVERY STYLE:

***M-FREE**: POPLAR/PU HYBRID CORE*

***M-PRO**: POPLAR/ PU HYBRID CORE + TITANAL*

***M-TOUR**: PAULOWNIA/PU HYBRID CORE + BASALT*

SHAPING M-LINE

This innovative new shape offers a perfect balance of performance and accessibility. Classic Dynastar DNA with a fresh, new progressive on-snow feel.
