A full day of interactive briefings, focused on DoD's need to: (1) modernize the geriatric Nuclear-Triad; (2) modernize conventional forces for maximum lethality & survivability; and (3) continue to fuel "technology-surprise", (through Space; hypersonic-offense & hypersonic-defense; AI; 5G; directed energy; autonomy; long-range missiles; cyber; and counter-UAS). This year's Conference will occur shortly after formal-release of the President's FY2024 Budget Request, as OSD/Service Leadership, and COCOM Commanders, take the Congressional-stage. This event is structured for committed Defense Investors, Sr. Industry Management, DoD Officials, and Congressional Staff. There is no charge to attend, but you must pre-register for the event.

Registration details will be provided in coming weeks.
