- U.S. customs clearance filing and compliance
- Documentation
- **Green Logistics**
- Cargo insurance
- Global parcel service handling
- One easy to read bill

FMC NVOCC & OTI License #: 019908NF

ITM Group is a fully bonded and FMC licensed one-stop logistics, supply chain and freight management company located in the Washington, D.C. metropolitan area. We are an innovative logistics company with a focus on:

- Complete end-to-end logistics Services
- Liner services
- Specialized and project cargo handling
- Fully integrated supply-chain management solutions

Small Business Advantage

We understand that our customers have changing needs so we use our small business status to remain nimble and adaptable, while providing the quality of service one would expect from a larger company. Our aim is to provide your company a competitive advantage by:

- Providing **volume discounts** without messy and cumbersome contracts
- Operating lean & streamlined with little overhead and passing those savings on to our customers.
- Guaranteeing a dedicated level of customer service and adaptability that no other company in the industry can beat.

Quick Response Time and Innovative Services

We understand the need for transparency so our customers can have all the information related to their freight at every point throughout the supply chain. That's why we, along with our many industry leading partners, have developed and maintain a privately managed logistics network infrastructure to further strengthen our physical freight network. This not only reduces errors but also creates a real-time environment so important data is always at our client's fingertips 24/7 via our [online e-service portal](#).

Your cargo is extremely important to us so our accomplished and dedicated employees, with over 25 years of experience, are available to you at anytime to address your questions or concerns.
