Where does the General keep his armies?
In his sleeves!

Why aren't koalas actual bears?
The don't meet the koalafications.

A bear walks into a restaurant and say's "I want a grillllllled.....cheese." The waiter says "Whats with the pause?" The bear replies "Whaddya mean, I'M A BEAR."

What do you call bears with no ears?
B

Why dont blind people skydive?
Because it scares the daylights out of their dogs.
I went in to a pet shop. I said, "Can I buy a goldfish?"
The guy said, "Do you want an aquarium?"
I said, "I don't care what star sign it is."

What do you get when you cross a dyslexic, an insomniac, and an agnostic?
Someone who lays awake at night wondering if there is a dog.

Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Level: Intermediate

Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

JOKES

There was a man named Cletus that lived in a small town with only one traffic light. Cletus had saved up his money and bought a mo-ped. One day Cletus was at the light waiting for it to turn green when a shiny new Corvette convertible pulled up next to him. Cletus had never seen anything like this in his life. The Corvette had its top down so Cletus leans over the side of the car and starts checking out the interior. This annoys the driver of the vette so when the light turns green he steps on the gas, laying down rubber as he leaves the intersection. He gets up to 60mph when suddenly Cletus flies by him on his mo-ped. The driver of the vette says to himself "This clown wants to race". Shifting into 4th gear he steps on the gas again. He leaves Cletus in his dust as he gets up to 100mph. Then out of nowhere he sees Cletus coming up fast in his rear view mirror. He can't believe it as Cletus flies by him again on his mo-ped. The driver of the vette shifts into 6th gear and floors it. He passes Cletus and gets up to 150mph! Once again, Cletus passes him like he's standing still. Shocked, the driver of the vette pulls over to the side of the road. He hears gravel flying and brakes squalling as Cletus pulls up next to him. The driver of the vette congratulates Cletus on winning the race and asks him what kind of an engine he has in his mo-ped. Puzzled Cletus replied "Race? I was just trying to get my suspenders off of your side-view mirror."

Country Style Corn Muffins

"Country cooking" has different connotations depending on where one might be in the world. Many people attest that country cooking involves comfort cuisine foods that originated in the southeastern United States. Quite often such cuisine includes biscuits, gravy, fried chicken, boiled greens, and other delicious items made from simple ingredients.

Corn muffins can be another staple of country cooking. Corn meal is a versatile ingredient that is the star of this simple side dish that can be made sweet or savory with just a few substitutions. Check out this lip-smacking version of corn muffins, from "Virgil's Barbecue Road Trip Cookbook" (St. Martin's Press) by Neal Corman.

Lip-Smacking Corn Muffins

Serves 4-6

- 1 1/3 cups yellow cornmeal
- 3/4 cup all-purpose flour
- 1/2 cup, plus 1 tablespoon granulated sugar
- 1 tablespoon kosher salt
- 3/4 tablespoon baking powder
- 1 teaspoon baking soda
- 2 cups buttermilk
- 1/2 cup whole milk
- 2 eggs, beaten
- 6 tablespoons unsalted butter, melted
- 1/2 8-ounce bag shredded cheddar cheese
- 1 cup fresh corn kernels
- 3 tablespoons chopped scallions
- 3 tablespoons chopped fresh cilantro
- 1/2 teaspoon hot sauce

1. Preheat the oven to 400 F. Butter a muffin tin and dust it with flour.

2. Thoroughly combine the first six ingredients in the bowl of a stand mixer or a large mixing bowl, if using a hand mixer. Combine and mix the remaining ingredients in a separate mixing bowl.

3. Slowly add the wet mix to the dry, while blending on low speed. Continue blending until entirely incorporated.

4. Fill each muffin tin three-quarters full of the batter. Bake for 18 to 20 minutes, or until light golden brown on top.

5. Remove the muffin tins from the oven and allow to cool for 15 to 20 minutes. Serve slightly warm.

DID YOU KNOW?

Large school buses are not equipped with seat belts, but that doesn't compromise their ability to transport students safely to and from school. The National Highway Traffic Safety Administration says that school buses are designed differently than passenger cars and light trucks. As a result of their unique design, as well as their size and weight, school buses distribute crash forces differently from other vehicles, utilizing a different kind of safety restraint system that is effective at keeping passengers safe. This system is known as "compartmentalization." The NHTSA says the interiors of large buses protect children without seat belts because of closely spaced seats that have energy-absorbing seat backs. This compartmentalization will keep children from being forced out of their seats during an impact. However, in the United States, small school buses, or those with a gross vehicle weight rating of 10,000 pounds or less, must be equipped with lap or lap/shoulder belts in all seating positions.

IMPROVE YOUR KITCHEN PANTRY

People have been spending more time at home in 2020 than in years past, and certain projects around the house have become a priority. One home improvement idea that serves the double benefit of creating organization and making cooking at home more efficient is to reimagine the kitchen pantry.

A pantry is a room or closet where food, beverages and linens or dishes are stored. Pantries can be highly useful spaces that provide ancillary storage in kitchens. Many modern homes are equipped with pantries, but older homes may require some modification to create more useful pantries. Whether starting from scratch or modifying an existing pantry, these tips can help projects go more smoothly.

- Maximize vertical storage. Utilizing vertical areas can help increase storage capacity. Build in extra nooks by investing in under-shelf storage baskets. These baskets can instantly create designated areas for different types of ingredients. Homeowners also can look for ways to use the inside of cabinet doors or add extra shelves on walls or in eaves.

- Consider your needs. Figure out which items you would like to store in the pantry and then shop for corresponding storage systems. For example, storage solutions may feature wine bottle racks, baskets

for potatoes and other produce, shelving for small appliances, and even pull out racks for baking pans or cutting boards.

- Use clear storage. Put ingredients in clear, airtight containers of similar dimensions so that you can easily find items you need. Transfer bulky items, like cereals and baking supplies, to storage containers for uniformity.

- Store bulk items elsewhere. Bulk shopping can be cost-efficient, but bulk items can quickly eat up real estate in the pantry. Designate another area for non-perishable bulk products, like paper goods or canned items, such as in a garage or utility room.

- Pull out drawers are convenient. Pull-out drawers can reduce the need to seek and reach for items. These drawers conveniently roll out so items in the back can be accessed without disturbing foods in the front. Drawers can be custom built for any pantry space.

- Make it accessible. Think about who will be taking items from the pantry. Put children's snacks on the bottom pantry shelf where they can reach them, and then organize other shelves for adults in the home.

A pantry remodel can add valuable storage space and make one of the busiest rooms in the house operate more efficiently.

SMART LAUNDRY ROOM RENOVATIONS

Does it seem like your hamper is always full and the washing machine is running constantly? You may not be imagining it. Laundry Butler for You, a wash, dry and fold service, says the average household washes 50 pounds of laundry a week and 6,000 articles of clothing every year. Families with children at home are doing laundry most often, and those with pets may find there is ample laundry to wash as well.

With so much laundry being generated, homeowners may want to consider paying extra attention to the space in the house where their clothing is being cleansed. Laundry room renovations may not top homeowners' priority lists, but it may be time to give these rooms another look.

Assess your equipment

If your appliances are aging, a laundry room renovation can start with an investment in new appliances. New models have large capacity loads, tend to be energy-efficient and could have innovative features that help fit with your laundry lifestyle. Purchasing front-loading models also can free up design space, as you can install a counter directly above the units, saving room for other items like drying racks.

Figure out your room needs

A laundry room need not be limited to laundry only. Many homeowners make large laundry rooms catch-all

spaces that can serve as utility or mud rooms, pantry overflows, or off-season storage areas. Consider the functions you want the room to serve and include those ideas in your designs.

Add some natural light

If possible, include a window in your laundry room. Natural light can help make the room more enjoyable. It also can help you identify stains on clothes that need to be addressed and make it easier to fold matching items like socks.

Think about a utility sink

Many washing machines drain out directly to waste pipes in the floor or wall, but you also can opt to have them empty into a utility sink. This sink also provides a convenient place to hand-wash items, clean tools or paintbrushes, or store items that perhaps you do not want to bring into a bathroom or kitchen sink.

Include some flair

This utilitarian space need not be boring or bereft of design elements. Mirror your home's style in the laundry room, and include wall hangings, plants, accent items, and even task lighting. Play up certain features with a bold floor tile or brightly colored walls. Updating laundry rooms can be a great way to make doing laundry more enjoyable and efficient.

TURN YOUR GRILL INTO A PIZZA MAKER

Some say an outdoor kitchen isn't complete without a pizza oven. A delicious pie straight out of a blazing hot oven can be delectable when dining al fresco, but pizza also can be made right on the grill.

This recipe for "The Chicagoan" from Craig W. Priebe's "Grilled Pizzas & Piadinas" (DK) utilizes grilled beef and sliced potatoes to give this grilled pizza a steakhouse flavor. Use a homemade dough or your favorite premade variety available at your local grocery store.

The Chicagoan

Makes a 12-inch pizza

- 1 russet potato, peeled and sliced about 1/4-inch thick
- 3 tablespoons extra virgin olive oil
- 1 teaspoon salt
- 1/2 teaspoon freshly ground black pepper
- 8 ounces top sirloin or strip steak
- 1/2 teaspoon salt
- Freshly ground black pepper
- 1 grilled pizza crust
- 1 tablespoon grated Parmesan
- 1 cup shredded mozzarella
- 1/2 cup shredded cheddar
- 1 cup chunky tomato sauce
- 1/2 cup thinly sliced red onions
- 1/4 cup sour cream
- 2 tablespoons minced fresh chives

1. Preheat the oven to 400 F. Place the sliced potato in a large bowl and toss with two tablespoons olive oil, salt and pepper. Line a baking sheet with foil and spread the slices in a single layer. Bake for about 15 minutes, until the potato is golden and tender. While still hot, loosen the slices with a spatula so they don't stick.

2. Prepare a grill for direct cooking over high heat. Season the steak liberally on both sides with the salt and pepper. Grill the steak over the hottest part of the fire for 4 minutes. Turn and grill for 4 minutes longer, until the steak is medium-rare and well charred. Remove and let sit for 5 minutes. Slice thinly.

3. Brush the grilled side of the pizza crust with the remaining one tablespoon olive oil and dust with the Parmesan. Sprinkle the mozzarella and cheddar on top. Drop spoonfuls of the chunky tomato sauce onto the pizza. Top with the potato, red onion and the steak.

4. Grill the pizza with indirect heat. If your grill is still hot, move coals to one side or turn off one burner and allow the pizza to cook on the side without a direct flame. Grill the pizza for 5 to 8 minutes, or until the crust is crisp and brown. The bottom may have a few black spots from charring. Optional: Broil the cooked pizza in the oven for 1 to 2 minutes more to caramelize the top.

5. Before serving, drop teaspoons of the sour cream onto the pizza, and garnish with the fresh chives.

Grilling the crust

To grill a pizza crust for this recipe, roll out to a 12-inch circle and place on a cookie sheet. Adjust the grill to reach a temperature of 400 F.

Slide the dough onto the grill. The dough should take about 3 minutes to cook. Watch for bubbles. The crust will be soft at first and tear easily. To check doneness, lift the underside. It should be an even light brown with brown grill marks.

Pick up the crust using tongs and place it on your cookie sheet. Flip it over so the grilled side is face up. This browned side becomes the top of your pizza.

Aw, Shucks – Scalloping Season Begins July 1 in Citrus County

CRYSTAL RIVER, Fla. (June 18, 2020) – People once again hungry for travel can satisfy their appetite for fun with the July 1 start of scalloping season in Florida’s Citrus County. The scalloping season runs through Sept. 24, providing a family-friendly water activity for visitors of all ages to get outside and enjoy all summer long.

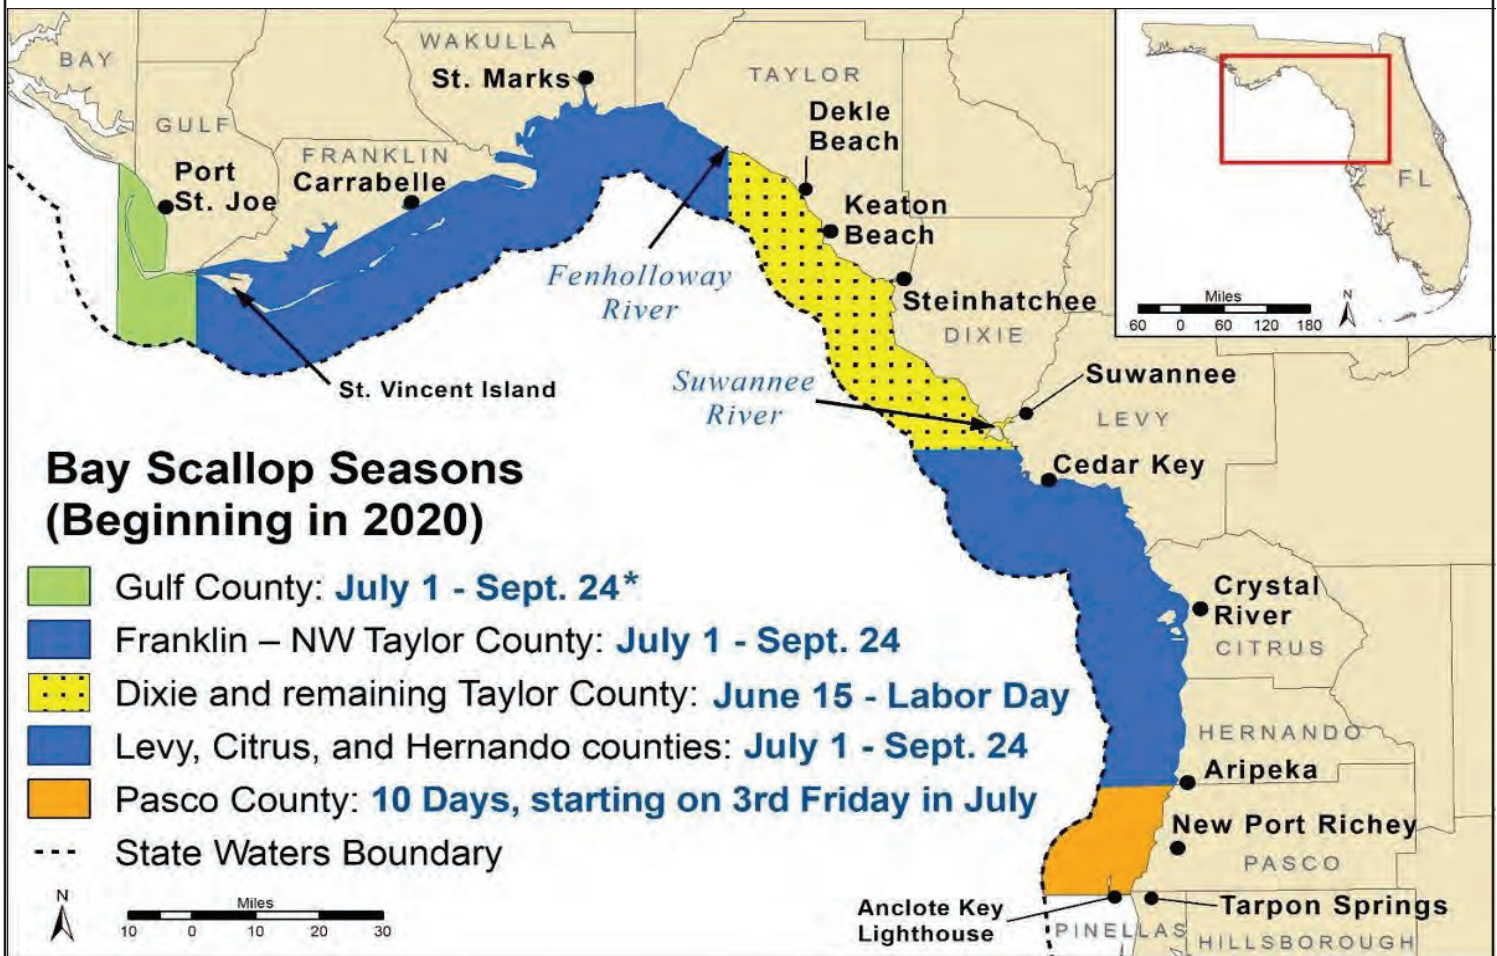

“Like swimming with manatees, scalloping is just one of those unique Florida activities that people never forget,” said John Pricher, Executive Director of Discover Crystal River. “Now more than ever, people are looking for outdoor experiences to enjoy with their friends and families that meet health guidelines, and our area offers natural adventures unlike anything else in Florida at an amazing value.”

Combining the best elements of snorkeling, fishing, and boating, recreational scalloping is an underwater scavenger hunt for Citrus County’s bay scallops, which sit four to eight feet underwater, along grassy beds or the edges of sandy spots just offshore in the Gulf of Mexico. The area’s top-rated guides and rental services make any scalloping trip a stress-free experience, providing all the equipment you may need.

One of the highlights of a scalloping excursion is enjoying the day’s catch after working up an appetite on the water. Visitors can take their harvest of scallops to several local restaurants, where the chefs can specially prepare Cook-Your-Catch meals, complete with all the trimmings. The bay scallop is noticeably sweeter and more tender than its sea scallop cousin, guaranteeing a delicious dining experience.

Scalloping is considered to be a sustainable food source, with daily limits per person and vessel. The bag limit is 2 gallons of whole, shelled scallops or 1 pint of scallop meat per person, per day. Scallopers must remain within designated scalloping areas and all scallops must be caught by hand or a dip net. Every year, barring environmental factors, the local bay scallops replenish themselves when left alone during the off-season. One single bay scallop can lay up to two million eggs every fall. Fortunately, local guides know all the rules, making it easy and fun visitors to safely enjoy the experience.

Find out more information about the Scalloping Season in Citrus County and to plan your visit today go to DiscoverCrystalRiverFL.com.

DID YOU KNOW?

Foods don't get much more coveted than a scoop or two of delicious ice cream on a hot day. Ice cream comes in scores of different flavors. Just ask Baskin Robbins™, which has long touted its own 31 flavors – a different flavor for every day of the month of July. Even though there seems to be a flavor for everybody these days, certain palate-pleasers remain more popular than others. According to an August 2019 survey conducted by ProdegeMR, a provider of people-driven insights for the market research industry, chocolate was consumers' preferred ice cream flavor in Canada, with 23 percent of survey respondents indicating it was their favorite. The International Dairy Foods Association indicates that Americans favor a different flavor of ice cream. In the United States, vanilla is the flavor of choice, perhaps because vanilla goes with everything and can enhance so many other desserts and treats. As popular as vanilla ice cream is, cookies and cream is being scooped up more and more, and is the most popular flavor in 14 different states.
