JOKES

Why do fish live in saltwater?
Because pepper makes them sneeze.

How much fun is doing your laundry?
Loads.

Why did the gymnast put extra salt on her food?
So she could do summer salts.

What's purple and 5,000 miles long?
The Grape Wall of China

If you want to find out who loves you more, stick your wife and dog in the trunk of your car for an hour. When you open the trunk, who is happy to see you?

What did the left eye say to the right eye? Between you and me, something smells.

3. My grandfather died peacefully in his sleep, unlike the screaming passengers in his car.

JOKES

Never criticize someone until you have walked a mile in their shoes. That way when you criticize them, you'll be a mile away and you'll have their shoes.

How did the blonde die ice fishing? She was hit by the zamboni

How did the hipster burn his mouth? He ate the pizza before it was cool.

What did the Buddhist ask the hot dog vendor? "Make me one with everything."

A golf ball is a golf ball no matter how you putt it.

Insect puns bug me.

My leaf blower doesn't work. It sucks.

.What do you call an alligator in a vest? An investigator.

SUDOKU ANSWER ON PAGE 27

Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

		9	2	1		3		
	6				4			
9		4		3		5	8	
2			7					9
		5	9					
				6	1		2	
			3	7	5	9		4
5			4					

Level: Intermediate

Here's How It Works:
 Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

The 25th Annual Save Our Waters Week Grand Finale Program

Quinn Zacharias of Alachua County, FL will speak at this year's 25th Annual Save Our Waters Week finale held at the Old Courthouse Heritage Museum, 1 Courthouse Square, Inverness, on Saturday, September 26 from 2-3pm. This event will be offered both live and virtually.

Mr. Zacharias is an Environmental Engineer and Research Assistant at the UF Howard T. Odum Center for Wetlands. His "2020 Vision: Focusing on Florida's Water Issues" presentation will address several hot topics in water resources including: nutrient management, algal blooms, storm water flooding/erosion, spring/groundwater protection and coastline protection. These five issues are pervasive throughout the State of Florida and need diligent attention. Mr. Zacharias will be discussing and sharing the most up to date research on these topics.

Quinn will be graduating this fall with a Bachelor of Sciences degree in environmental engineering with an honor's thesis on phosphorus management in the South Florida Watershed. He intends to start the graduate school program in environmental engineering next spring.

Keeping with the CDC guidelines and the safety of our guest, this presentation will be offered both at the Old Courthouse Heritage Museum and as a virtual event using Zoom. Pre-registration is required either online at <https://tinyurl.com/y6ackdf4> or by calling 352-341-6428.

When registering, you will be asked if you prefer to attend the event live or virtually. Spaces for the virtual event are unlimited but in person, attendance will be limited to thirty participants. Instructions on how to attend virtually will be emailed prior to the event. Cost: \$10 suggested donation.

This program is sponsored in part by Keep Citrus County Beautiful, Save our Waters Week and the Inverness Cultural Heritage Council, a dba of the Citrus County Historical Society, Inc.

Guess Who?

I am an athlete born in California on September 3, 1986. Many may not know I had two open heart surgeries before the age of one. But that didn't stop me from going on to be one of the most successful professional snowboarders of all time. I have earned more X-Game gold medals than any other competitor.

Kick off football season with a tailgating staple

Football is back, and with it comes all of the delicious foods served at parking lot tailgates and viewing parties at home. Perhaps no food is more synonymous with football than chicken wings. Sports bars make names for themselves based on their chicken wings, but football fans need not visit their local pubs to indulge in wings worthy of gameday. The following recipe for “Chicken Wings with Bacon Barbecue Sauce” from John Holl’s “The American Craft Beer Cookbook” (Storey) is simple and sure to please foodies and their fellow football fans this season.

Chicken Wings with Bacon Barbecue Sauce

Makes 12 wings and plenty of leftover sauce

- 1 cup roughly chopped applewood-smoked bacon
- 12 large chicken wings
- 2 tablespoons extra-virgin olive oil
- 1/4 cup diced yellow onion
- 1/4 cup dark brown sugar
- 1 cup New Albanian BobŌs Old 15-B Porter, or similar robust porter
- 1 tablespoon unsalted butter
- 2 cups veal or beef broth
- 1/2 cup Worcestershire sauce
- 1 tablespoon puree chipotle in adobo
- 1 teaspoon dried oregano
- 1 teaspoon dried thyme
- 1/4 teaspoon garlic powder

1. Preheat the oven to 400 F. Put the bacon in a heavy skillet and cook it in the oven until crispy. Transfer the bacon to a paper towel-lined plate, reserving the fat in the skillet. Reduce the oven temperature to 350 F and move the skillet to the stovetop.
2. Toss the chicken wings in the olive oil, arrange them on a baking sheet and bake for 1 hour, or until crisp and cooked through.
3. Add the onion to the bacon fat in the skillet and cook over medium-high heat, stirring occasionally, until golden brown, 5 to 7 minutes. Be careful handling the skillet; it will still be hot from the oven.
4. Add the brown sugar to the skillet and cook over medium heat, stirring occasionally, until it dissolves. Add the beer, scraping the bottom of the skillet with a spatula to loosen any brown bits. Stir in the butter and simmer until the liquid is reduced by half, stirring occasionally.
5. After the beer has reduced, add the broth to the skillet and reduce until the jam is thick, stirring occasionally and being careful not to burn it, 10 to 20 minutes.
6. Add the Worcestershire, chipotle, oregano, thyme, and garlic powder to the skillet and stir to fully incorporate.
7. Transfer the sauce and bacon to a blender, let cool for 8 to 10 minutes, and then puree until smooth. Remove the chicken wings from the oven, place them in a large bowl, and pour in enough sauce to liberally coat the chicken. Serve immediately.

Note: This recipe yields a bit of extra sauce. Leftover sauce is great on burgers, with other grilled meats, or as a dip for bread. Or simply make a double batch of wings!

Archaeologist, Sean Norman to speak on the Archaeology of the Battle of Wahoo Swamp

As part of the Coffee and Conversation Speakers Series, Sean Norman, research archaeologist with Gulf Archaeology Research Institute, Inc. (GARI), will speak on the archaeology of the Battle of Wahoo Swamp at the Old Courthouse Heritage Museum, 1 Courthouse Square, Inverness, in person and virtually on Thursday, September 10, 2020 from 7pm to 8pm. The first 30 persons to call or to sign up online may participate in person.

Sean Norman is Acting Director of GARI. He specializes in the geoarchaeology of coupled human-natural ecosystems in coastal environments. He received my M.A. in Applied Anthropology from the University of South Florida (USF) where he examined the relationship between landscape modification (midden deposition and mound construction) and changing sea level and climatic conditions. This was accomplished with soil coring and landscape modeling using geographic information systems (GIS) software. This was accomplished with soil coring and landscape modeling using geographic information systems (GIS) software. This led to his interest in refining regional sea level reconstructions. He also possesses a graduate certificate in GIS from USF and a B.A. in History from Columbus State University.

Keeping with the CDC guidelines and the safety of our guests, this presentation will be offered both at the Old Courthouse Heritage Museum and as a virtual event using Zoom. Pre-registration is required either online at <https://tinyurl.com/y6ackdf4> or by calling 352-341-6428.

When registering, you will be asked if you prefer to attend the event live or virtually. Spaces for the virtual event are unlimited but in person, attendance will be limited to thirty participants. Instructions on how to attend virtually will be emailed prior to the event.

This program is sponsored in part of the Coffee and Conversations Speakers Series and is funded in part by the Citrus County Historical Society and the Inverness Cultural Heritage Council, a dba of the Citrus County Historical Society, Inc.

DID YOU KNOW?

Children with special needs often benefit from gifts with specialized purposes. While general gifts certainly can be fitting, customizing the gifts to the recipient's particular emotional or behavioral needs can be a great way to ensure kids get the most use out of their toys. To get help with making selections, gift-givers may want to visit Miniland Educational USA (www.minilandeducationalusa.com/able-play/), which offers a variety of ideas, comprehensive information on toys/products and its own rating system, known as AblePlay®, for special needs individuals. In addition, the company offers solutions for smart growth, care, fun activities, and learning opportunities for all children.

TECHNOLOGY THAT CAN MAKE DRIVING SAFER

Technology plays such a significant role in modern life that it can sometimes prove hard to ignore, even when drivers are behind the wheel. In fact, data from the National Security Council indicates that more than 700 people are injured in distracted driving crashes every day, and many of those crashes involve drivers who were distracted by their devices.

While technology can distract drivers, indirectly making the roads more dangerous as a result, the following technological advancements also can make driving considerably safer.

- **Backup camera:** Seasoned drivers know that danger can arise at any time while driving, including when backing out of one's own driveway or even a parking spot. Backup camera technology feeds video directly to drivers' dashboards, allowing them to get a clear view of what is directly behind their vehicles. This reduces the risk of hitting anyone, including small children playing in the driveway and pedestrians on the sidewalk, when driving in reverse.

- **Automatic emergency braking:** These systems, sometimes referred to as "AEB" on dealership window stickers, alert drivers to imminent danger. AEB systems can independently brake when drivers are not responding to danger, preventing potentially deadly collisions. Systems may detect cars both near and far, making them valuable when driving on crowded city streets as well as on highways where cars may not be so close but are driving at high speeds. AEB systems may even detect pedestrians. Some vehicles can even be equipped with rear automatic emergency braking systems, or Rear AEB, which automatically apply the brakes if sensors detect objects behind the vehicle while it's in reverse.

- **LED headlights:** LED headlights may not inspire the awe of backup cameras or AEB systems, but they can be just as effective at making driving safer. LED headlights tend to produce greater light output than traditional headlamps, making it easier for drivers to see at night. LED headlights also last much longer than halogen bulbs, meaning they won't fade as quickly, keeping more light on the road for longer periods of time.

- **Autonomous cruise control:** Autonomous cruise control, or ACC, systems operate in similar fashion to traditional cruise control with a key distinction. When engaged, ACC systems adjust vehicle speeds so cars and trucks maintain a safe distance from vehicles ahead of them.

Technology has forever changed the way people drive. Modern vehicles are safer than ever before thanks to technological advancements that help drivers avoid accidents in myriad ways.

5 TECH FEATURES YOU WANT IN YOUR VEHICLE

Technology has dramatically changed the way people live, and has increasingly changed how they drive as well. While power windows were once coveted as high-tech features, the sophisticated technology available in modern cars and trucks can make earlier tech seem like child's play.

While some vehicle technology is designed to keep you safe, other tech is all about comfort and convenience. The following are five options to consider when purchasing your next vehicle.

1. **Telematics:** Telematics is a system that can remotely monitor many components of a vehicle's diagnostics and driver behavior. While this telecommunications technology already is implemented in delivery, towing and public transportation industries, it can be utilized in the private market to track live weather conditions, traffic, parking lot information, fuel consumption, and battery power.

2. **Cooled seats:** While most drivers are familiar with heated seats, many vehicles now come equipped with cooled seats as well. These seats can make it more comfortable to drive on hot days and improve air flow in the car as they work in conjunction with vehicle HVAC systems. Cooled seats can be expensive and will add weight to a vehicle, so they may be best for heavy sedans, SUVs and light trucks.

3. **Wireless phone charging:** Electronic devices have been going wireless for years, and the newest crop of wireless tech is wireless phone chargers. The online tech resource CNET says wireless charging pads have become ubiquitous in offices and homes, but now they're becoming useful tools inside cars. Portable charging pads can plug

into the automobile auxiliary power DC outlet. For example, the X-Doria Defense Helix wireless car charging mount with RoboGrip has powered “robotic” arms that automatically open when you place your phone near the charger and then clamp shut after you dock it. Wireless charging pads are built into vehicles manufactured by Lincoln and Mercedes-Benz, and may soon be standard technology on more cars and trucks.

4. **Apple CarPlay:** Mobile phone users tend to fall into two distinct camps: those who prefer iPhones and those who rave about Android offerings. Many car manufactures have realized consumers want CarPlay (and Android Auto) built standard into their vehicles. These apps allow drivers to access their most-used apps conveniently without an extra learning curve for manufacturer-specific driver assist apps.

5. **Second- and third-row USB ports:** USB ports for second- and third-row passengers is essential when moving an SUV full of kids or taking a road trip with the family.

Various vehicle tech features can improve comfort and convenience in modern cars and trucks.

MMM! SEAFOOD!

QUICK AND FILLING MEAL SERVED UP IN A SNAP

After the lazy days of summer, fall often arrives with packed schedules and everyone getting back on track, whether for work or school. Busy families may not have much time to spend in the kitchen these days, but they don't need to devote hours to cooking. Even quick meals can serve up significant flavor.

In the time it takes to boil rice, this recipe for "Creamy Rice With Roasted Shrimp and Tomatoes," courtesy of "Real Simple Dinner Tonight: Done" (Time Home Entertainment) from the editors of Real Simple, can be put on the table. Arborio rice makes this dish creamy, but if it's unavailable, long-grain rice also can be used – just follow the package directions for cooking.

Creamy Rice With Roasted Shrimp and Tomatoes

Serves 4

- 2 tablespoons olive oil
- 1 onion, finely chopped
- 1 cup Arborio rice
- 1 cup dry white wine
- Kosher salt and black pepper
- 1 pound peeled and deveined
- medium shrimp
- 2 pints grape tomatoes
- 8 sprigs fresh thyme
- 2 cloves garlic

Heat oven to 400 F. Heat 1 tablespoon of the oil in a large saucepan over medium heat. Add the onion and cook until soft, 5 to 7 minutes. Add the rice and wine and cook, stirring, until the wine is absorbed, 1 to 2 minutes.

Add 2 cups water and 1/4 teaspoon each salt and pepper to the saucepan. Simmer, covered, until the water is absorbed and the rice is tender, 18 to 20 minutes.

Meanwhile, on a rimmed baking sheet, toss the shrimp, tomatoes, thyme, and garlic with the remaining tablespoon of oil and 1/2 teaspoon each salt and pepper. Roast until the shrimp are opaque throughout, 15 to 20 minutes. Serve over the rice.

Guess Who?

I am an actor born in Pennsylvania on September 25, 1968. Before becoming an actor, I was a member of a hip-hop duo under a "fresh" moniker. My breakthrough role was on a popular sitcom. I've since added an impressive number of film credits to my name.

Redemption Christian Church

... a biblically functioning community where you will encounter truth and love in a casual setting

... a friendly, welcoming place. It's a different way to do church. It's not an "us and them" kind of place at all. No matter where you are on your spiritual journey, you are welcome.

... a place where God's Word is preached without excuse nor apology.

Imperfect people worshipping a Perfect Savior!

During these unprecedented times, we at Waybright Real Estate are still working diligently for our Buyers and Sellers. We have closed over 6 million dollars in sales this year, and have several more million in sales pending!

To accommodate the needs of our clients, we have adopted Covid-19 procedures, as well as utilizing the latest technology for both listing and showing appointments.

Waybright Real Estate is an independent real estate agency offering SINGLE AGENT representation and has been established in Citrus County since 1984.

If you are considering selling or buying a home, a commercial or investment property, please give us a call at 352-795-1600. We will be happy to provide a free consultation and Comparative Market Analysis."

"EXPERIENCE WHAT "EXPERIENCE" CAN DO FOR YOU!"
