

# Tattoo Aftercare

Leave your bandage on for 2-3 hours,  
then take it off  
and wash your new tattoo with antibacterial non-scented  
soap 2-3 times a day for 7 days.  
after cleaning with antibacterial non scented soap you  
will pat it dry using a paper towel then put a thin layer of  
A & D ointment.

Stay out of Hot tubs ,Lakes and Oceans and any body  
of water for at least 2-3 weeks until it is completely  
healed. Don't pick or scratch at it  
do not work out for at least 2 weeks this can cause  
blow outs in the line work.

Saniderm instuctions only read this section if you are  
using the 7 day second skin saniderm bandage.

Take the bandage off after 24 hours  
clean with antibacterial non-scented soap. Dry with  
paper towel, then re apply the new piece of  
saniderm that was sent home with you first you will  
want to take the white  
layer off first, then put the sticky side down on top of  
your new tattoo making sure the entire thing is  
covered by the bandage.

Then take off the plastic layer off the top. keep the  
second bandage on for an additional 6 days.
