

TARASH GEMS

Gemstone Crafters

Since 1988

# Curators of the finest Gemstones *with unparalleled skills at Precision-Cutting!*

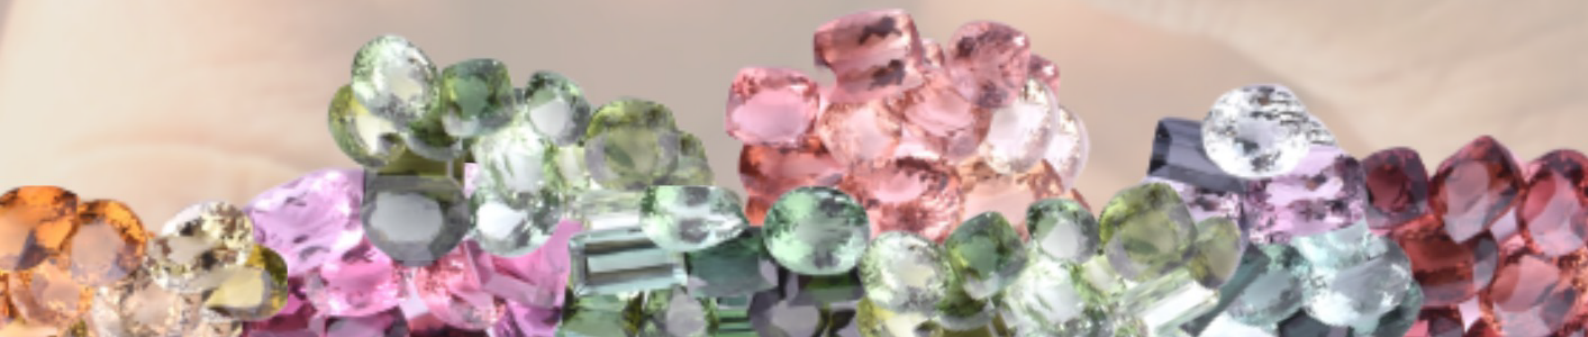

Our team of brilliant artisans & craftsmen assure that every piece of gem is precisely manufactured and screens for quality-check at every step it goes through.

Situated in the heart of Jaipur, it becomes natural for us to have expertise at manufacturing - including faceted, cobochons, beads, drops, and fancy shapes of gemstones.

We work dedicatedly with a strong motive to deliver well-crafted stones with accuracy, that further brings designs to beautiful reality. We measure our success with the factor that holds the utmost importance to us - our customers' satisfaction.

# About Us

Tarash gems was established by Mr. Ravi Jain in 1988, a place where finest gemstones are designed, cut, polished and exported to the jewellery sector across the globe. Our team of brilliant artisans and craftsmen have been working towards turning unpolished stones into well crafted polished gemstones since decades.

Located in Johri Bazar, Jaipur - the heart of gemstones, our city is known as a manufacturing hub! Our team is determined and focused on transforming each gemstone to its best form of existence for all our customers. We believe most of the artisans in Jaipur are blessed with the skills from their ancestors which benefits us to make our tourmalines stand out from other gemstone sellers.

With their individual expertise, the team collectively work towards providing the best tourmalines and gemstones consistently.

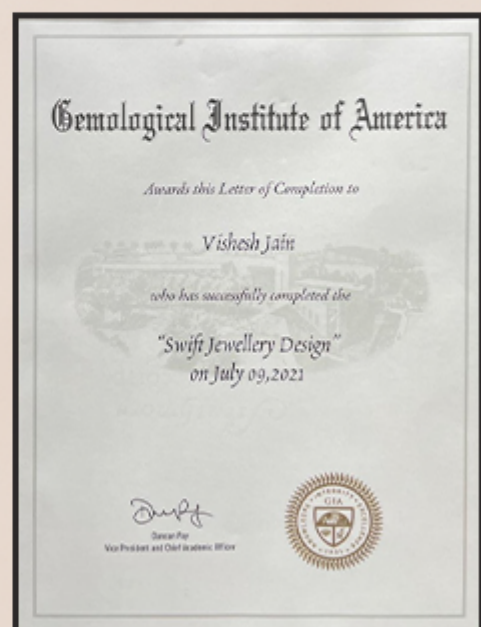

We have catered to 200+ customers and the factor that holds the utmost importance to us is our customers' satisfaction with the final product.

Currently, ancestral brand Tarash gems is managed by Vishesh Jain son of Mr. Ravi Jain. He was inclined towards expanding his fathers business and therefore took some basic training about the jewels Industry in Jaipur and traveled abroad for further studies.

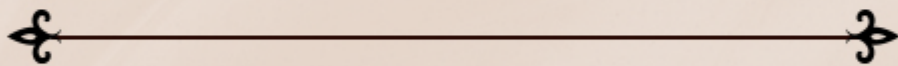

He holds in-depth knowledge about diamond grading and colour gemstone identification - his generational virtues and certifications from GIA- Carlsbad, America makes him stand out in this Industry. He has also been a part of multiple gemstones fairs and events to experience and understand the jewels industry better.

## Precision Cuts

*A glimpse of the most crucial step, where the artistry of exceptional craftsmanship comes to life!*

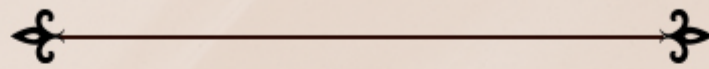

Our dedicated craftsmen ensure precision-cutting on a unique lapidary. These gemstones are cut at critical angles as per the type of tourmaline assorted to attain maximum light out of the stone & hence, produce a magical finish to fit your design.

We currently have over 500+ designs for you to choose from. With the help of our upgraded software and skillset, we can customise, design, and commit to bringing all your crafts to reality!

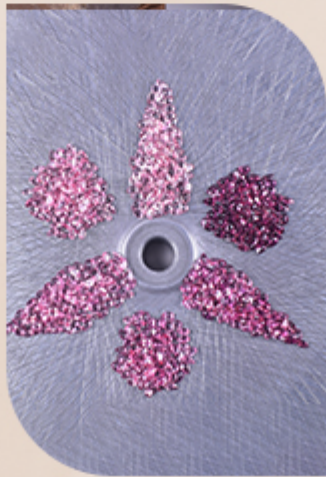

# Tourmaline

*A vivid collection of different colours and cuts of tourmaline  
to choose from - Sizes starting from 1mm*

## Pink Tourmaline

Comes in desirable shades of pink, with quality ranging from top to commercial and are generally calibrated or free-sized stones.

## Green Tourmaline

This gem holds significant qualities that appear in different shades of green

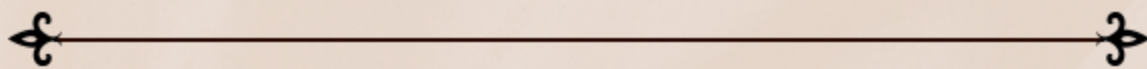

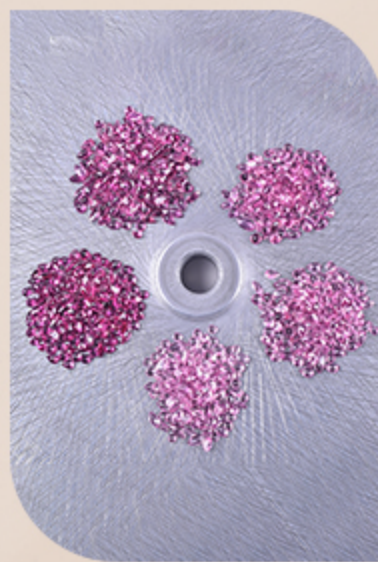

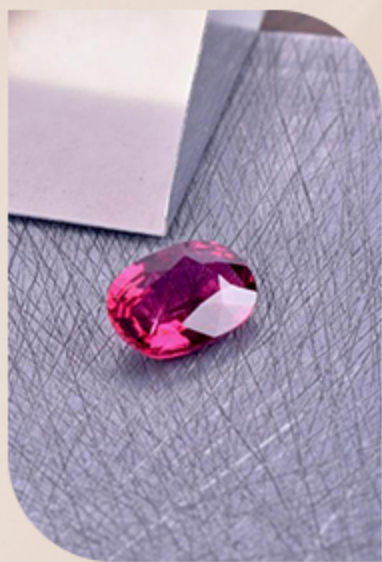

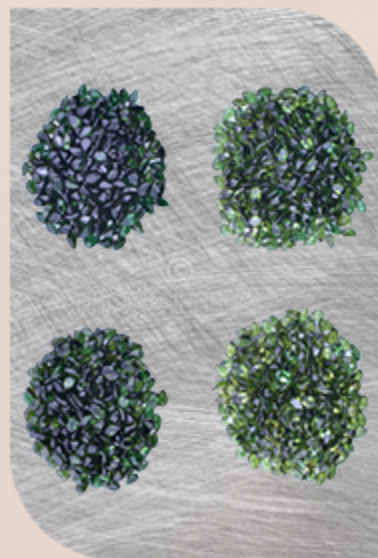

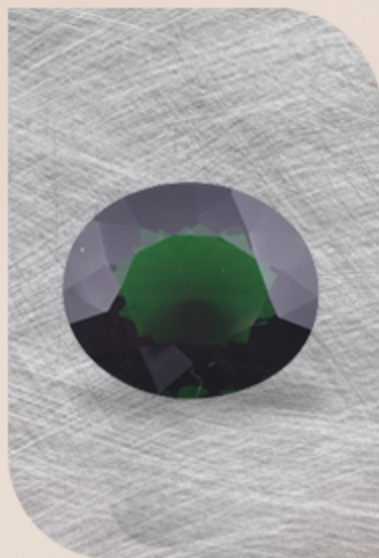

## Rubellite Tourmaline

An extraordinary gem that has an incredible bright-red to pinkish-red color tones. It is available in free sizes & calibrations.

## Chrome Tourmaline

Variant of the green tourmaline, this stone has chromium as it's soul. It is available in Tsavorite & Emerald colors.

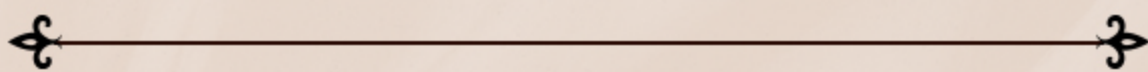

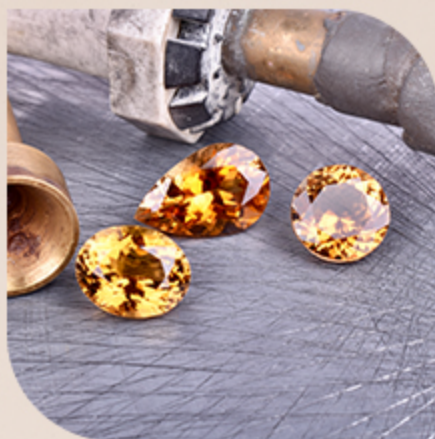

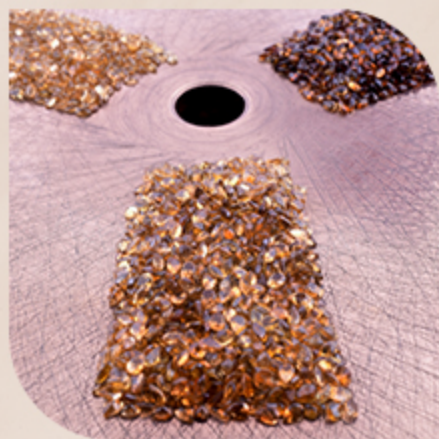

## Blue Tourmaline

Known as Indicolite tourmaline ~ this gem also has a stunning tint of green which makes it one of a kind.

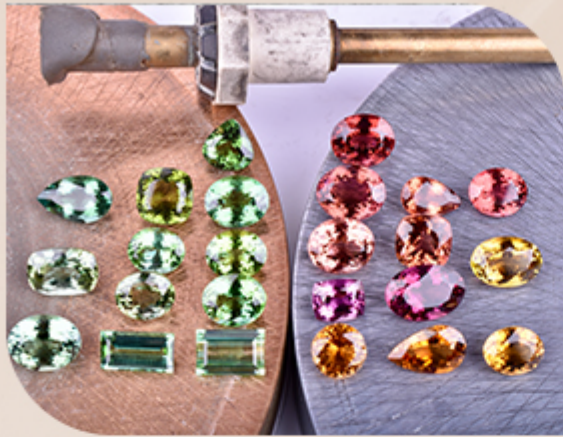

## Yellow Tourmaline

These gemstones come in several shades ranging from lemon yellow to petrol yellow.

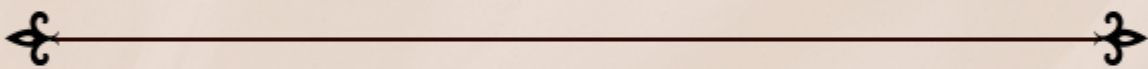

## Multi Tourmaline

These gemstones offer the best deals as they come in every desirable colour. We deliver calibrated cabochons & faceted multi-tourmaline with bright & mesmerizing colors.

## Watermelon and bi-colour

These stones have beautiful variants together; bi-color has two more colors on different zones while watermelon tourmaline has one color inside it, enclosed by another color. This unique feature makes it a brilliant gemstone.

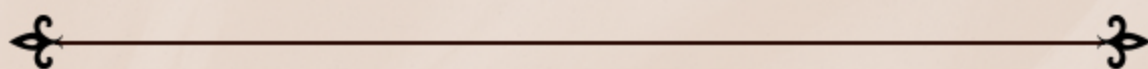

## Beads Tourmaline

Beads of Beauty come in differed sizes, shape and qualities and are usually multi-hued.

## Flats Tourmaline

Bringing variety in colors & sizes, Flats are very thin sliced-stones. As per the choice, they can also be Rose cut from Top & Bottom

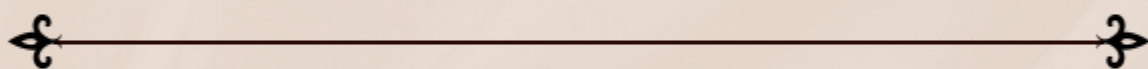

## Carvings Tourmaline

Choosing the perfect rough to carve is very difficult if it is tourmaline. Our artisans carve these exceptionally beautiful stones with their mastery & expertise.

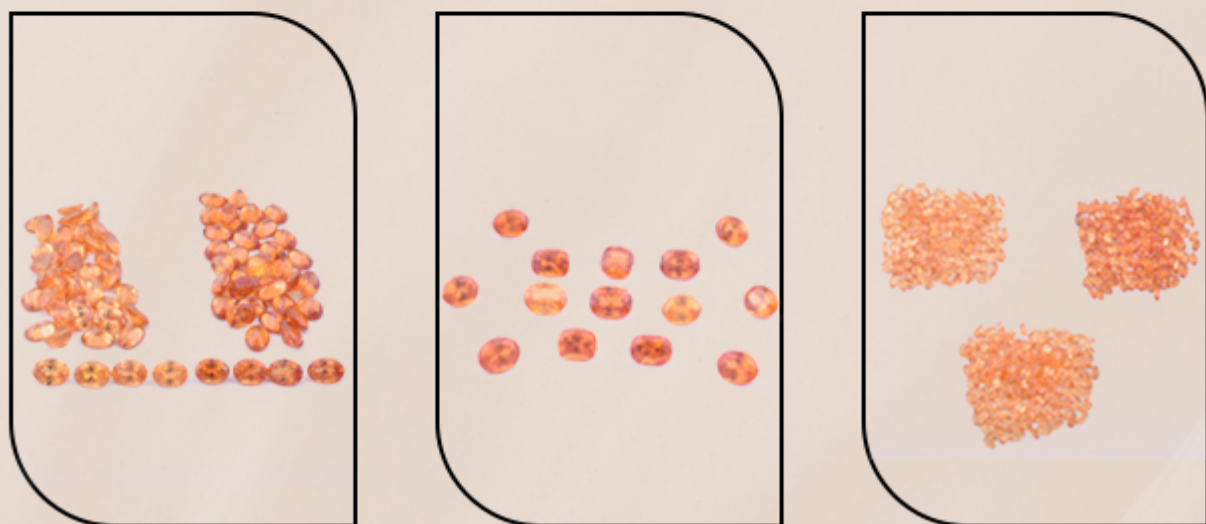

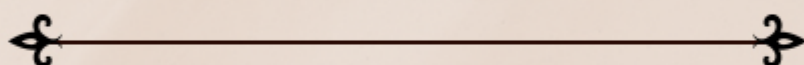

## Fancy cuts

We offer customised designs for customers looking at something different from ordinary shapes and cuttings. The beauty of each gemstone is defined depending on personal preference of cut, shape, colour and size.

# Spessertite Garnet

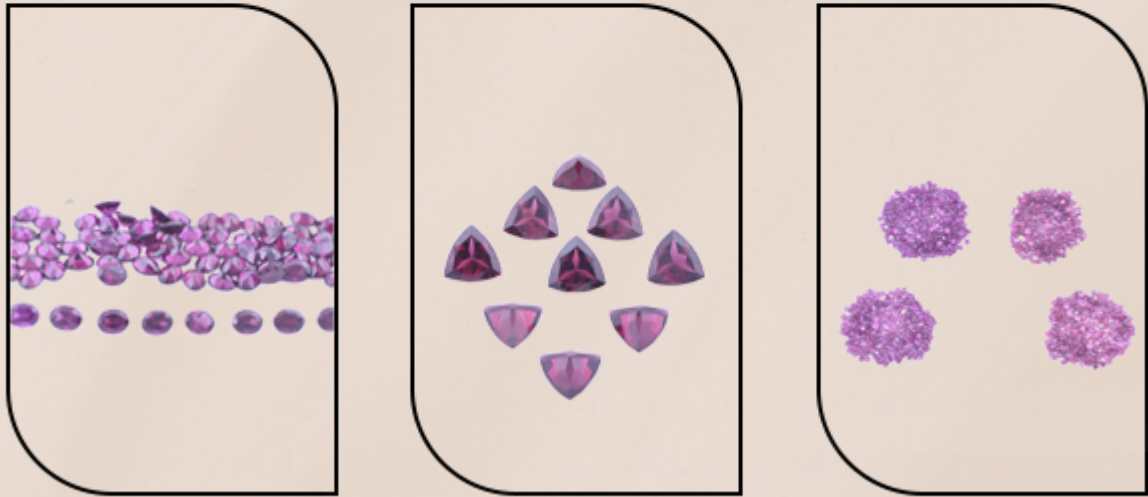

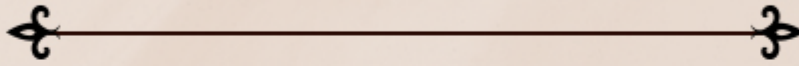

The name, "Spessartine" comes from the Bavarian word, "Spessart" which means ~ forest, representing a mountain range in Germany where its deposits were found in the 1880s.

From orange to dark red, reddish-brown, orange-pink, orange-red, brownish-yellow, and sometimes almost black, Spessartite Garnet is known for its energizing aura. Their warm radiations welcome strength, open heartedness and kindness to the wearer.

# Rhodolite Garnet.

Rhodolite Garnet is a high quality gemstone and finest of the red garnets. Also known as the crystal of inspiration and emotional healing, it encourages love, kindness, compassion, spiritual growth and promotes self-worth.

These crystals are available at Tarash Gems in shades of raspberry-red, purplish-red or colored garnet.

Available in calibration sizes starting from 2mm.
