EA 2013 REGISTRATION RENEWAL

In common with all of us the invitation to register our boats arrived through our letter boxes. It advises that the increase is due to a three year charging plan discussed and introduced last year. ATYC put on record that we did not accept the additional 2% then and do not accept it now although we have no option but to pay it!

We will fight to remove the 2% surcharge before next year's renewals!
