EMAP AT-A-GLANCE

EMAP
MONITOR · ENFORCE · PROTECT

WHAT IS EMAP?

EMAP is a secure, web-based platform that helps electronic monitoring providers manage **enrollments, alerts, reporting, documentation, communications, and day-to-day supervision** from one system.

EMAP creates a **time-stamped, auditable record of actions and communications** while giving authorized courts, law enforcement, prosecutors, jails, and other stakeholders access to the information they need based on their role.

Designed to work across **providers and jurisdictions**, EMAP makes electronic monitoring more organized, connected, accountable, and easier to manage.

WHERE EMAP CAN SUPPORT THE PROCESS

PROVIDER OFFICE	JAIL	COURT & DA	LAW ENFORCEMENT	OVERSIGHT
Enrollment, supervision, alerts, reporting, documentation and communication.	Provider registry visibility and electronic-monitoring installation/release coordination.	Authorized violation review, registry/reference information and active-monitoring visibility.	Real-time access to relevant authorized monitoring and accountability information.	A framework that can support broader government or state accountability where adopted.
