Everything you need for your career. Nothing like you expected.

Exclusive member benefits keep professionals like you prepared for technology's growing sophistication. Let the industry's applied science arm increase your expertise. Comprising innovative thinkers and problem solvers, SCTE is the go-to network for every broadband career.

Through free, discounted and exclusive offerings, SCTE keeps you up to date and ready for what's next in the advancing world of cable telecommunications technology. Let the global technical leader in the industry – SCTE – help you to achieve expertise and build your personal brand of competent professionalism. True to our non-profit nature, the Society re-invests back into its programs and resources for the welfare of its members and the technical community at large.

EDUCATION & Development – Click on the displays below for more Info.

Earn College Credits Thru SCTE

SCTE is committed to the growth and development of the telecommunication industry. Therefore, we have partnered with the following higher education institutions that will provide college credits for select SCTE courses. Consider it another step forward in evolving the workforce of the future; a cost-effective approach that leverages the knowledge of industry experts to help earn your degree.

SCTE Leadership Institute Programs

Through partnerships with highly regarded institutions and organizations, SCTE's Leadership Institute programs are designed to enhance the careers of current and future leaders by leveraging the best and brightest minds and educators both within and outside of the cable telecommunications industry.

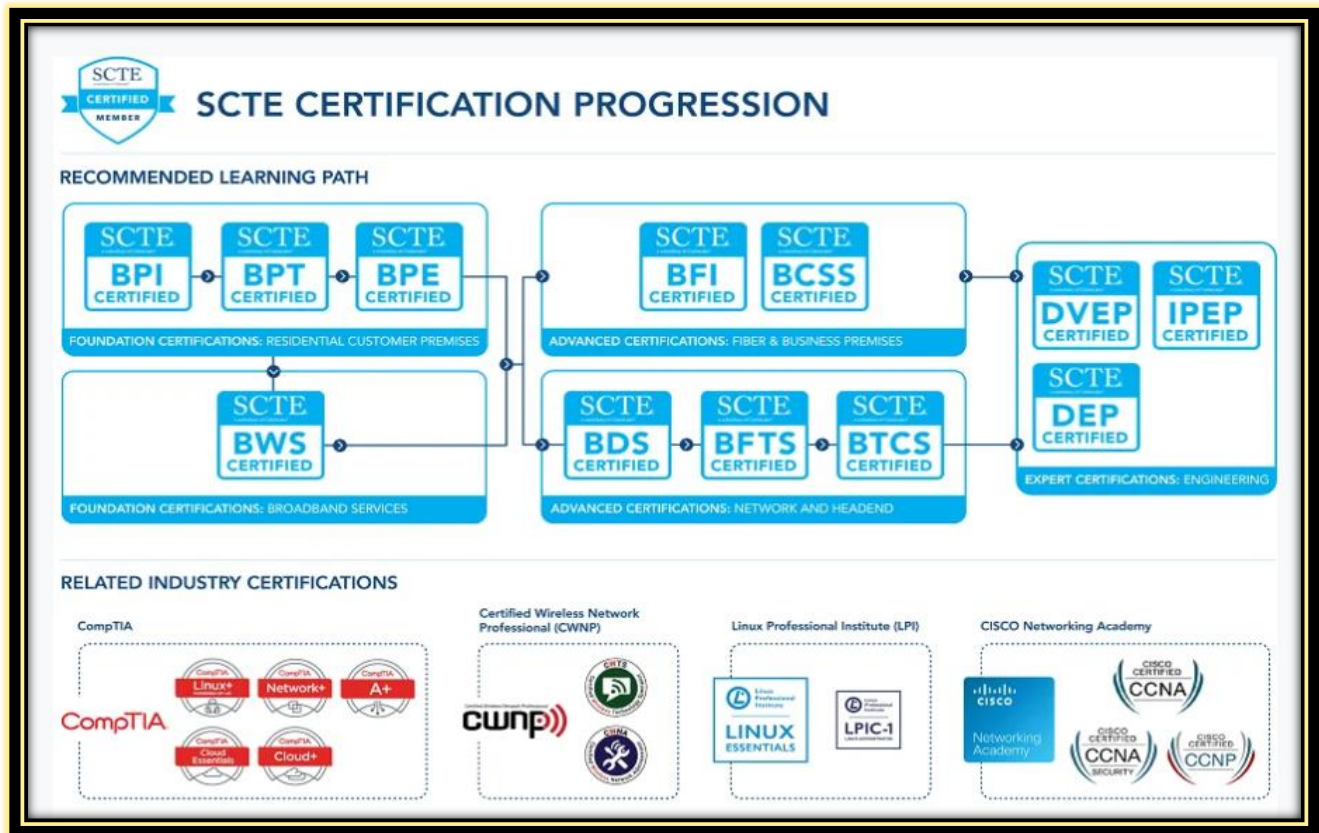

Microlessons

Microlessons are short; focused learning segments made available only to our members. Our learner-centric, just-in-time training is available on multiple devices, is easily accessible, and is meant for you to be able to apply to your job immediately.

Professional Certifications

HOW ARE WE DOING? WHAT CAN WE DO BETTER?

<https://forms.office.com/r/zrQe1G54Wx>

Your SoCal SCTE Chapter would like to hear from you. Please take 9 minutes to take a quick survey and share your experience. Also, let us know if there is anything that we can do to improve your experience.

DID YOU KNOW?

SCTE
a subsidiary of CableLabs®

ATTENTION CABLELABS® MEMBERS

Did You Know That You May Have Access to Education and Programs to Enhance Your Career?

If your company is a member of CableLabs®, you also receive complimentary benefits from SCTE®.

SCTE provides you with cutting-edge courses that enable you to own and enhance your career, opportunities to influence the future of the industry and discounts on professional certifications to demonstrate expertise.

Engage in programs such as courses and standards working groups — included as part of your company's CableLabs® membership.

Activate your benefits today at scte.org/allaccess

To join, scan the QR code and enter your info, including your company email. Be sure to select the Southern California Chapter on the My Chapter tab.

SCTE and CableLabs support this forum to encourage communication and collaboration among broadband engineers. This forum enables technology professionals in the telecommunications community to discuss issues, exchange knowledge, share ideas, and problem-solve.
