MOUZAN

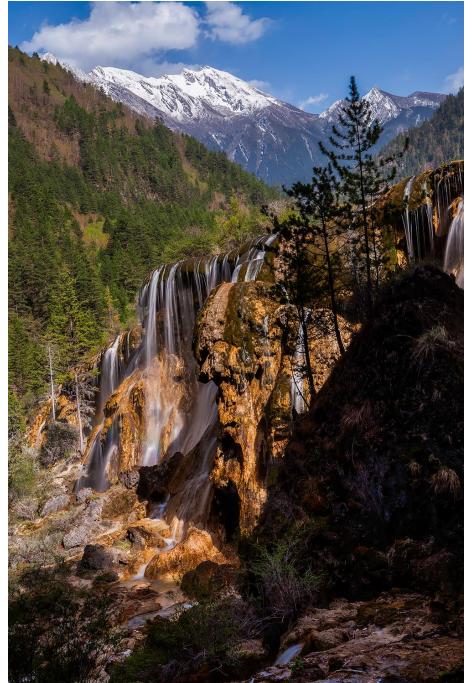

Mouzan Hamad, from Saudi. I have been practicing photography since 2006. I don't like to limit myself to a specific field or direction in photography, but I particularly enjoy capturing landscapes, portraits, travel moments, and fine art photography, through which I strive to present visually captivating works, so to speak. Photography is a journey, and my journey in this field has taken me to many places, allowing me to gain a deeper understanding of the diverse cultures in this world and enriching my creative vision.

In addition to photography, I also practice abstract painting, which enables me to express myself in other creative ways. Painting complements my photography and helps me explore new dimensions of creativity.
