We bring silence everywhere

The best modular
private space on wheels!

March 2020

History

We introduced our first generation of silent spaces at the Stockholm Furniture Fair in 2007. Silen Space was born from a wish to feel free and to give everyone a chance to work in one flow without interruptions.

Silen Space founders are experienced engineers who have been designing unique silent spaces for more than a decade in a company called Wallenium OÜ. With that knowledge and experience they created and launched the unique modular acoustic pods solution Silen Space. They developed a form and style hand in hand with innovative technical solutions. Due to the pods long life span, our Spaces stand out ecologically and economically.

Silen separated from Wallenium as independent brand and company in 2018 (still owned by Wallenium) **silenspace.com**
Silen is one of the fastest growing company in Estonia.

Turnover in 2019 was 2,7M € (vs 2018 turnover 500K €), estimated turnover for 2020 is 8M €; 18 employees; office – showroom located in Tallinn, Estonia; factory (2000 m²) located 10 km from Tallinn. Current monthly production volume is 300 pcs. We sell products all over the world. Our largest market is the US where we are represented all over the country (we also have a warehouse in Milwaukee).

Wallenium OÜ was founded in 1999 **wallenium.ee/en**. Turnover in 2019 was 9,7M €; 35 employees; office and factory (2500 m²) located in Tallinn, Estonia. Wallenium produces, sells and installs movable partition wall systems in Estonia, Latvia, Lithuania, Norway, Sweden, Finland and Canada. The production volume in 2019 was 50 000 m².

In cooperation with architects, builders and designers we have continuously modernized and enhanced the technical solutions.

In February 2020 Silen became the first and only phone and meeting pod producer in Europe (and the third one in the US) to be listed under the premier North American Standard **UL 962**.

First prototype launched in Stockholm Furniture Fair in 2007

UL listed!

Silen became the first and only phone and meeting pod producer in Europe (and the third one in the US) to be listed under the premier North American Standard **UL 962**.

UL 962 is recognized by all agencies and is a highly trusted safety and quality symbol for buyers, distributors, insurers and regulators. As part of the certification, Silen's products also passed the **ASTM E84** standard fire tests and were awarded **Class A** in fire resistance.

UL 962 guarantees that all of our products are safe for use in the work environment and that their entire electrical system is fully compliant with the US and Canadian requirements.

More about [UL 962 standard](#).

LISTED

Silen spaces are modular silent rooms for open spaces. They come in four sizes for different needs.

The modular concept enables you to change the room size whenever you need, and by adding Silen Space modules you can upgrade Space 2, Space 4 or Space 6 to fit up to 12 people.

Space 1

Space 2

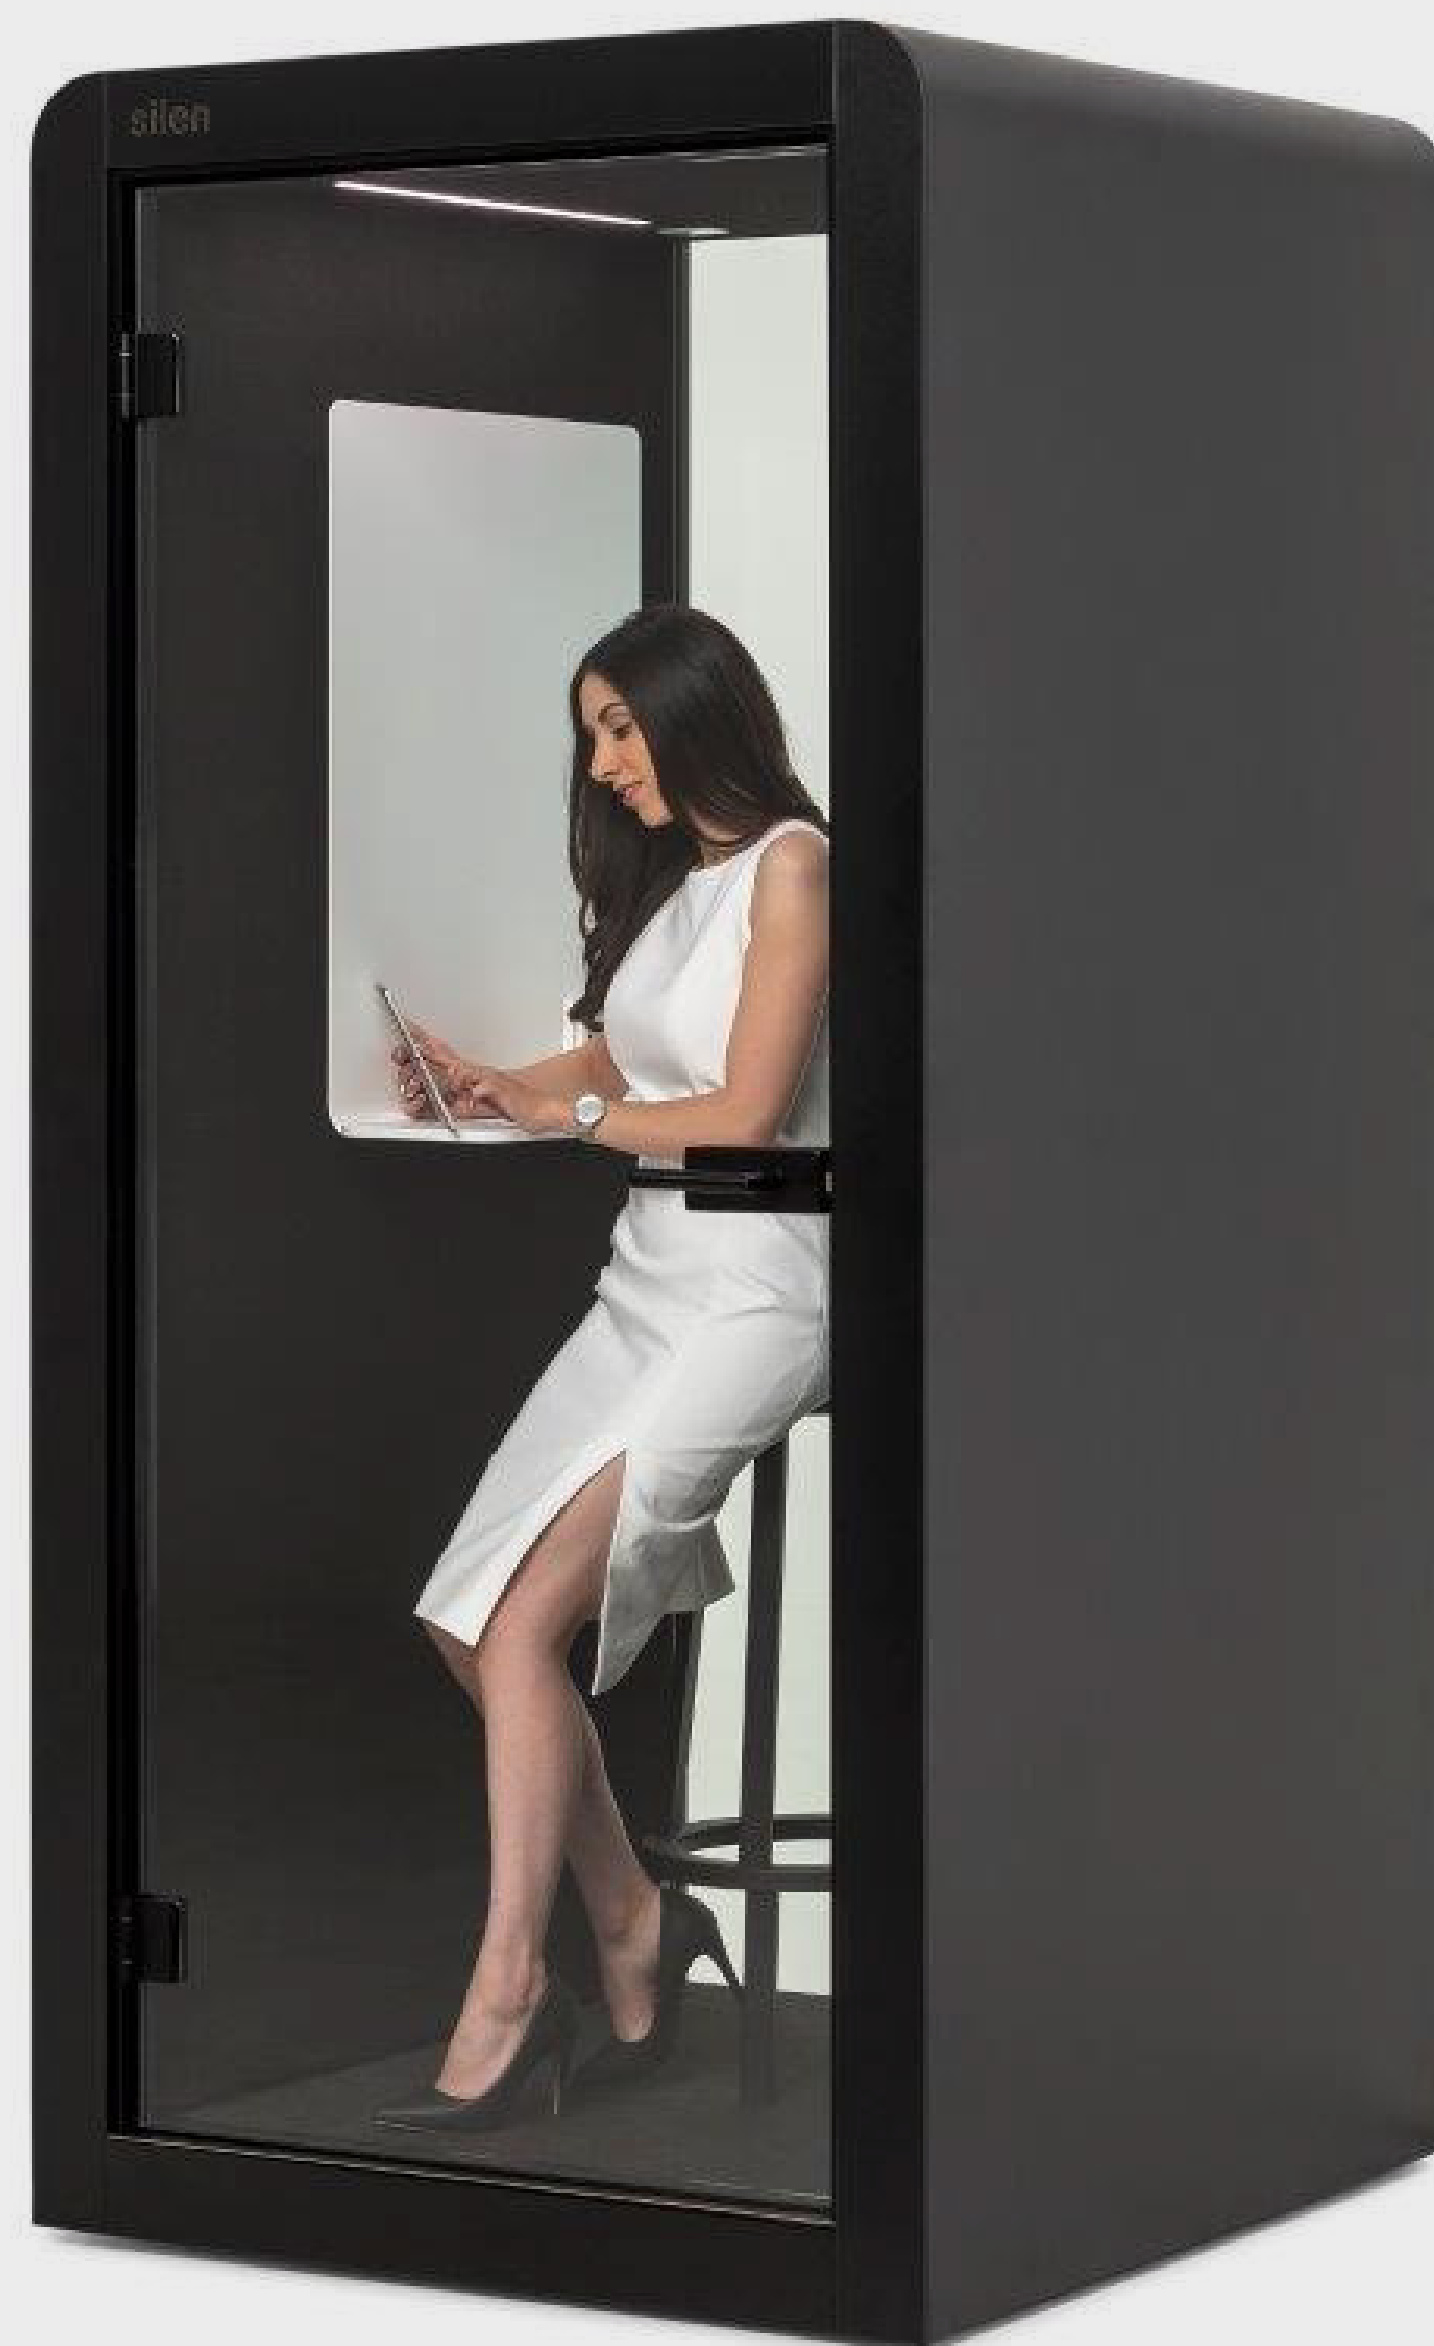

Space 4

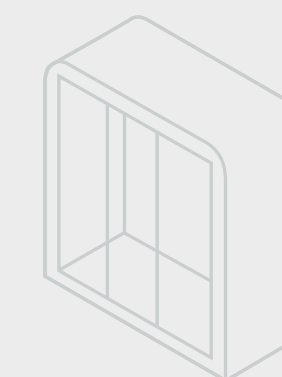

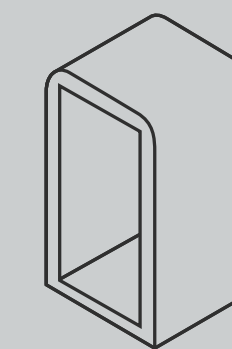

Space 6

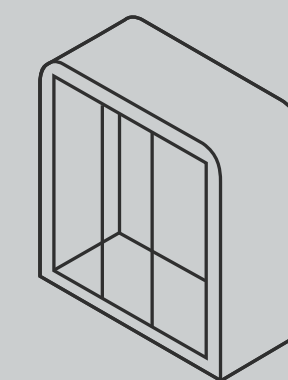

Space **1**

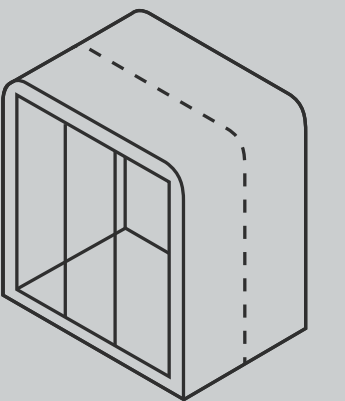

Space **2**

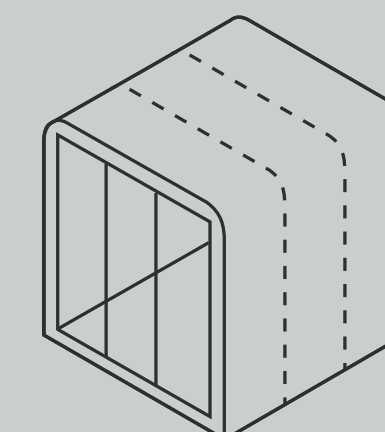

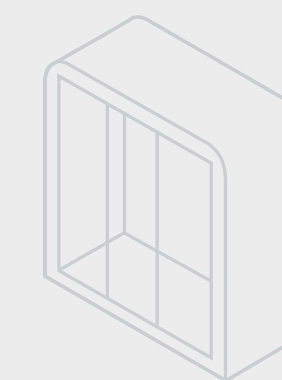

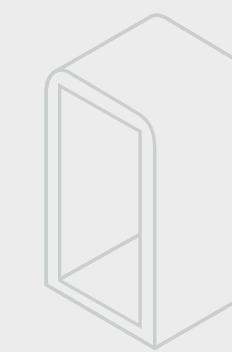

Space **4**

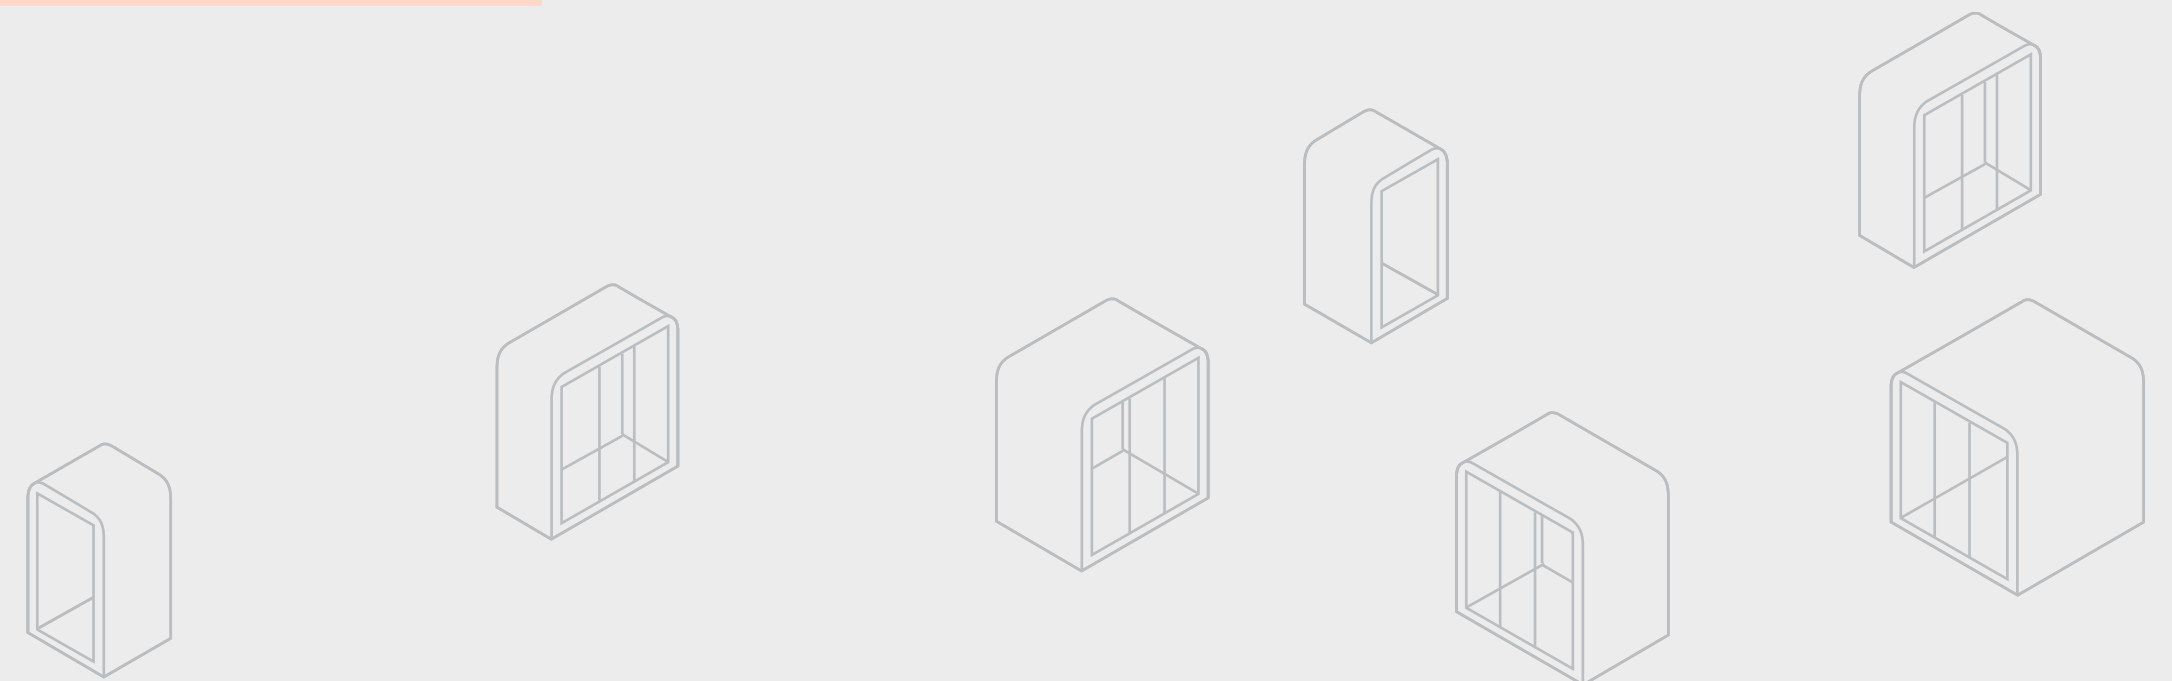

Space **6**

Why it's unique?

It's modular. On wheels. The best soundproof and the **quietest air circulation** ever made in meeting pod's world.

It has cloud based room reservation app and you can configure it using a augmented reality mobile app.

Silen Space is functional. It's not just furniture, it's an investment!

It adjusts to your changing needs, moves on wheels and is modular.

Modularity

Use Space 2 modules to create Space 4 and 6.
And to divide them into smaller units when you want to

Soundproof

A top player amongst the world's best

Acoustics

Echofree panels for perfect sound muting

Wheels

Hidden wheels for easy moving

Air circulation system

Fully automatic, silent and powerful ventilation

Smart Solution

Unique web interface for bookings, usage and for monitoring your pod's the indoor climate

Economic

Tremendously economic light and ventilation system

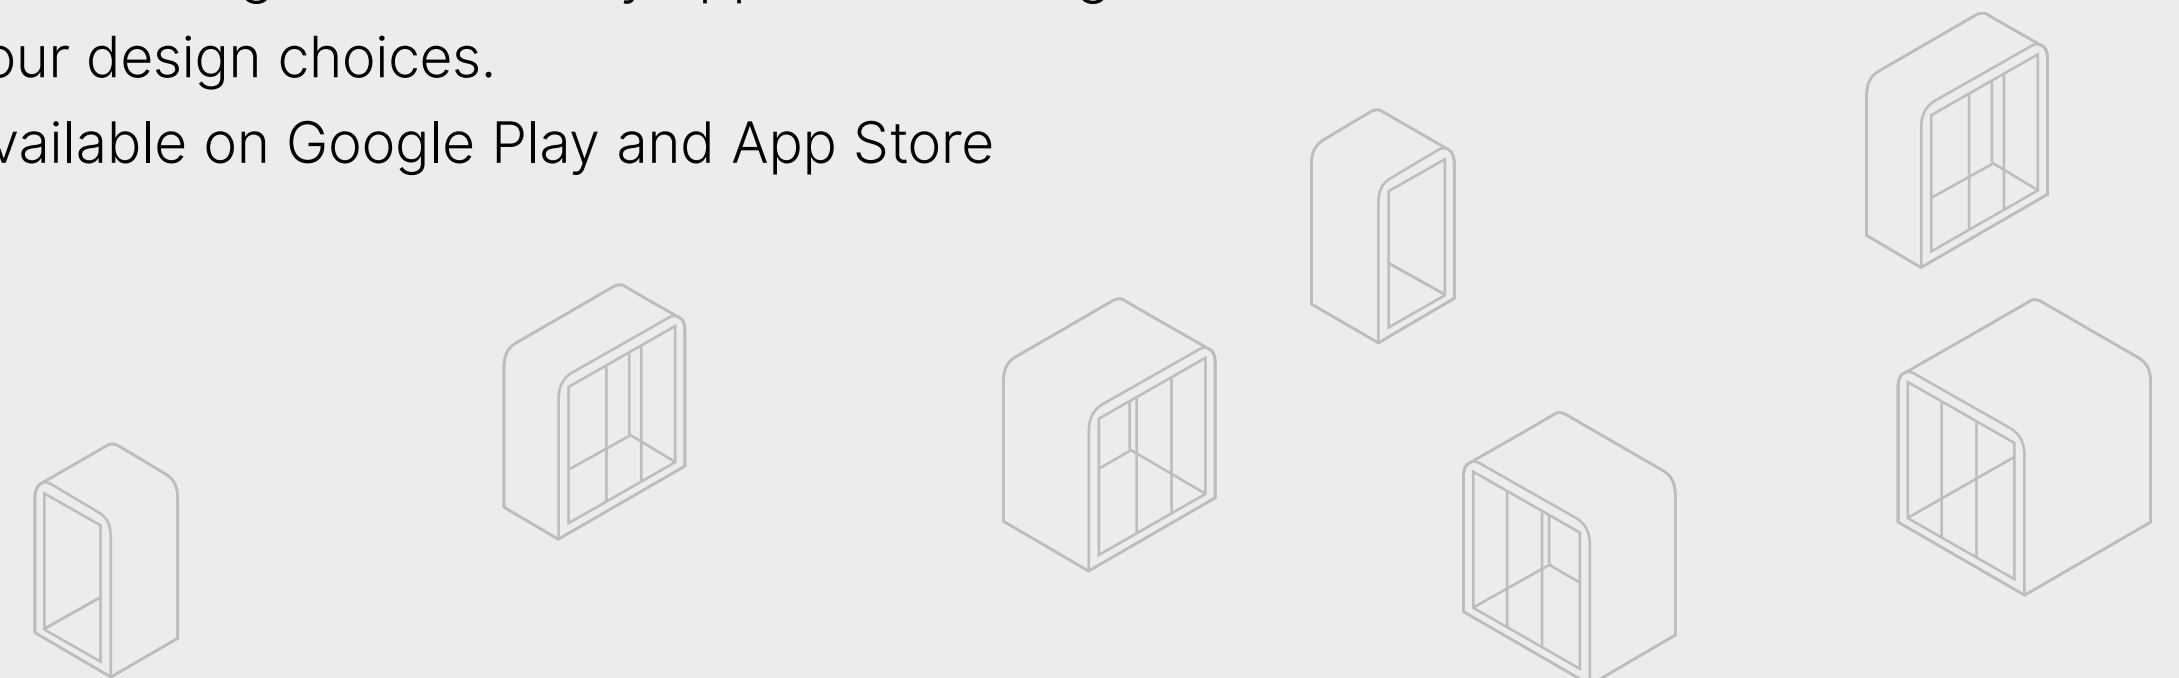

Configurator

A tool that has been nominated for many international design awards. Design a pod to fit your needs!

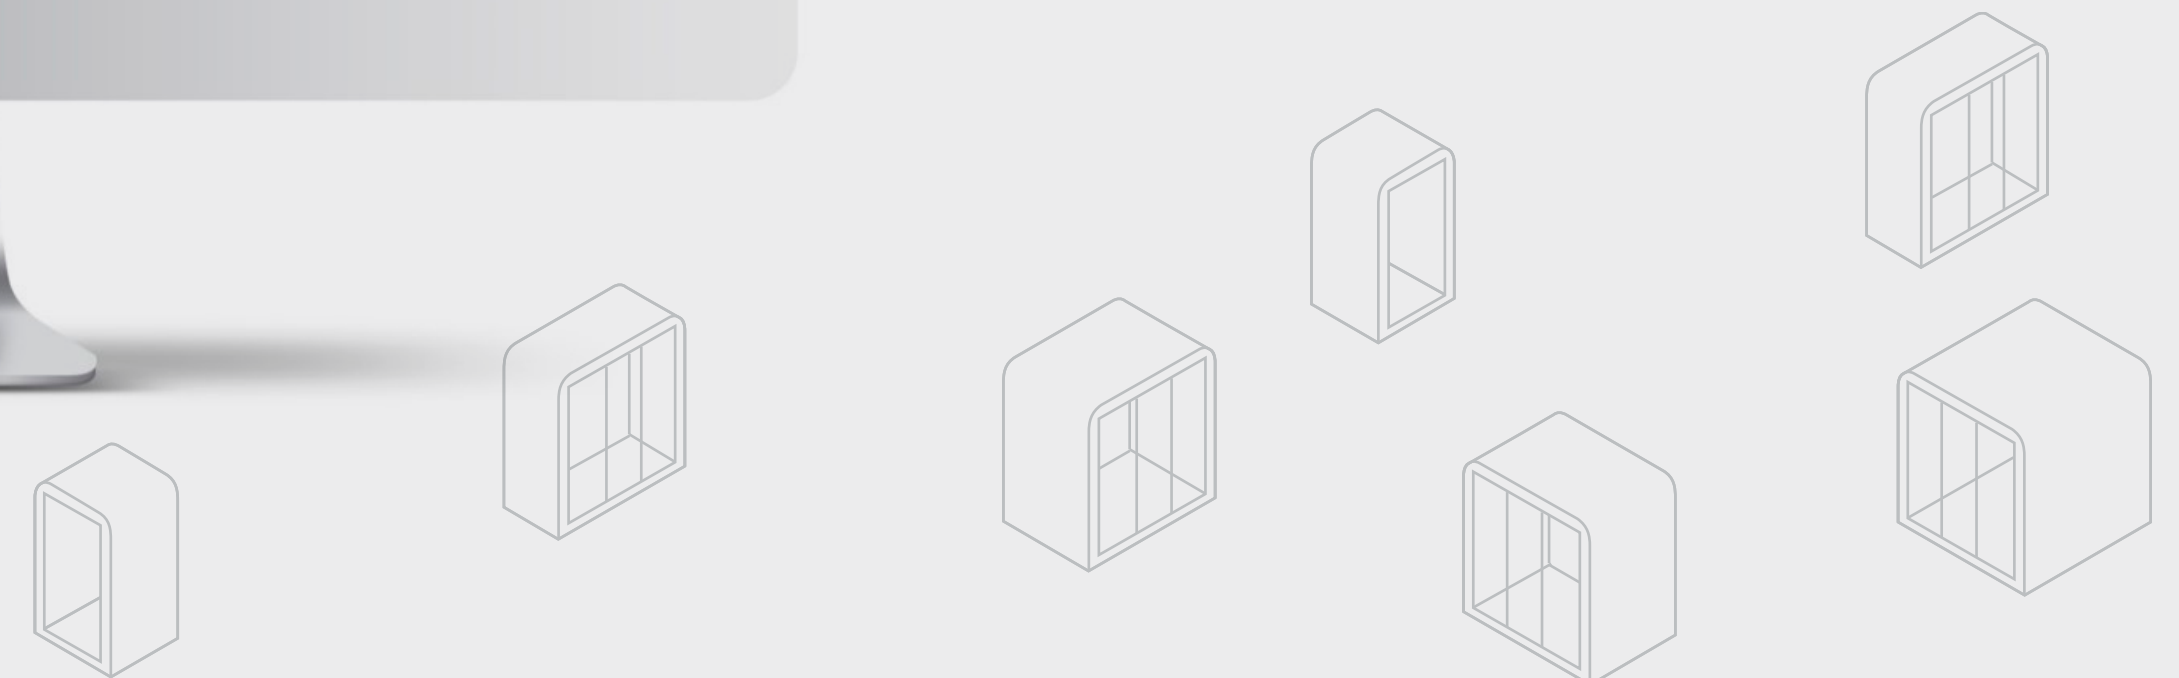

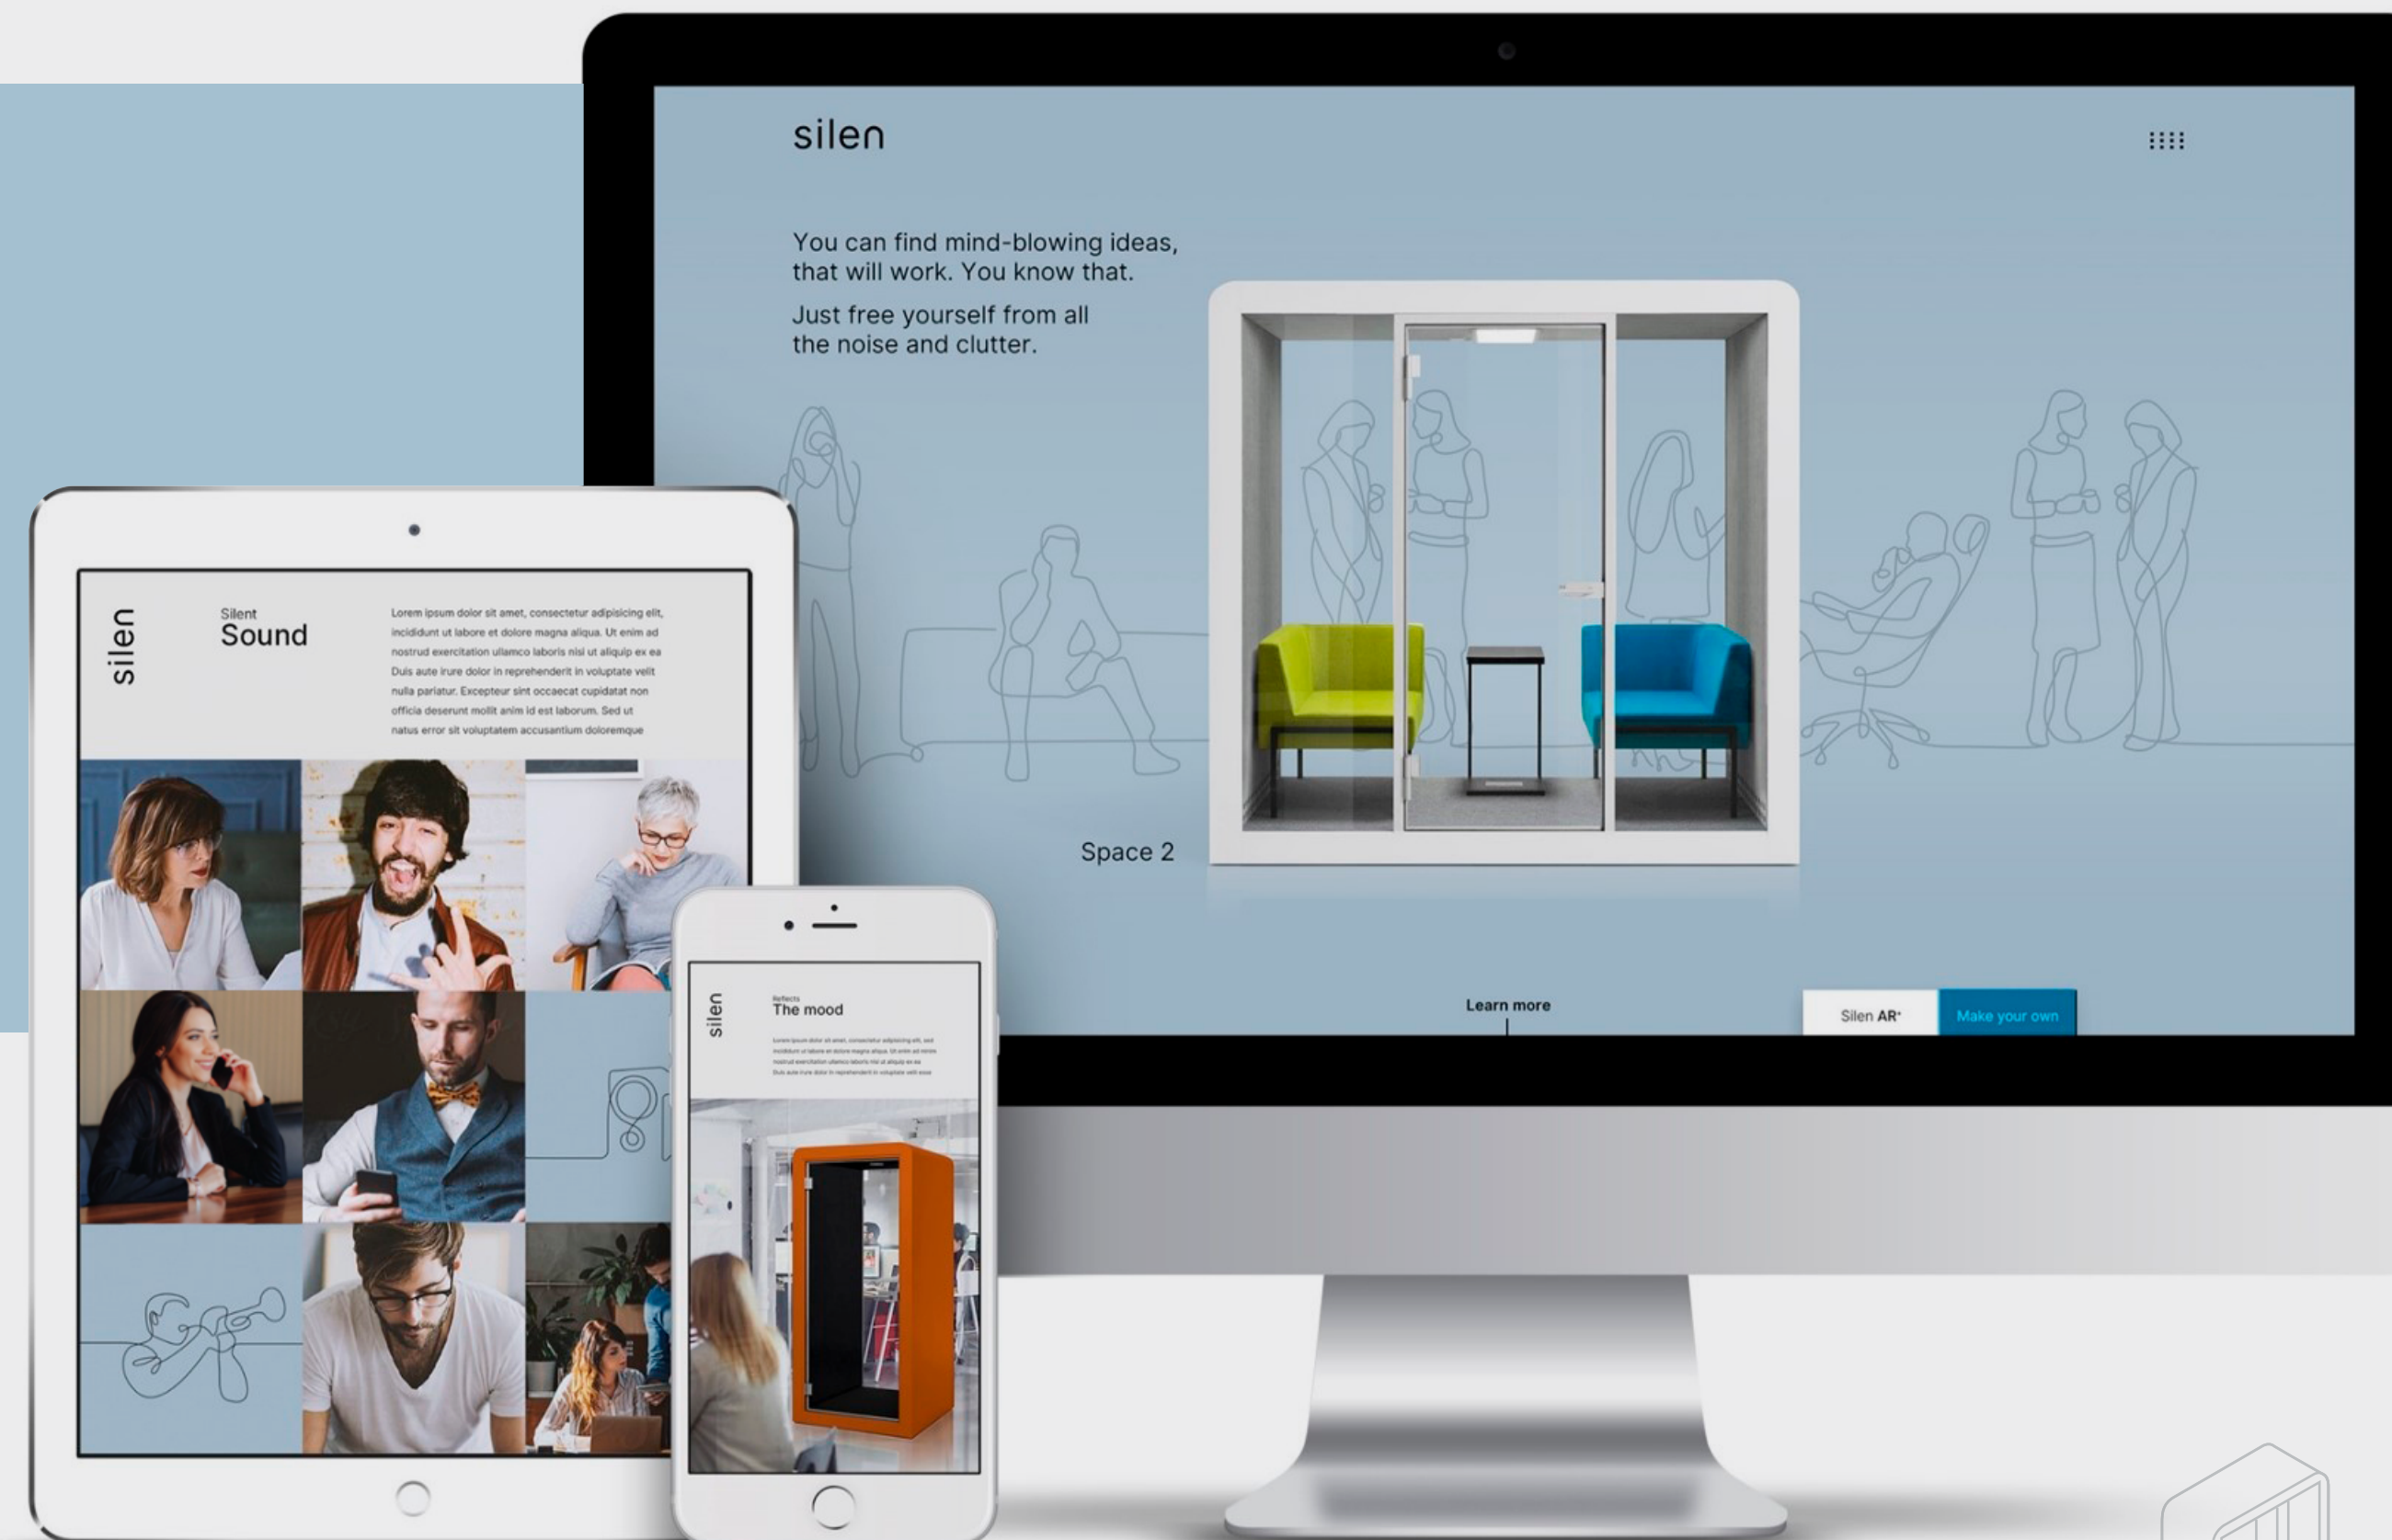

Silen AR+

Use our augmented reality app for checking out your design choices.

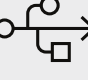

Available on Google Play and App Store

Silen web and configurator won several awards at 2018 Balticbest and Estonian Design Awards competitions Golden Egg competition - The Bronze Egg in the category of branding

Main features

-  Sound insulation
-  Air circulation system
-  LED light
-  110-230V + USB sockets
-  Plug and play
-  Modular flexibility
-  Hidden wheels for relocation
-  Smart solutions iOS and Android

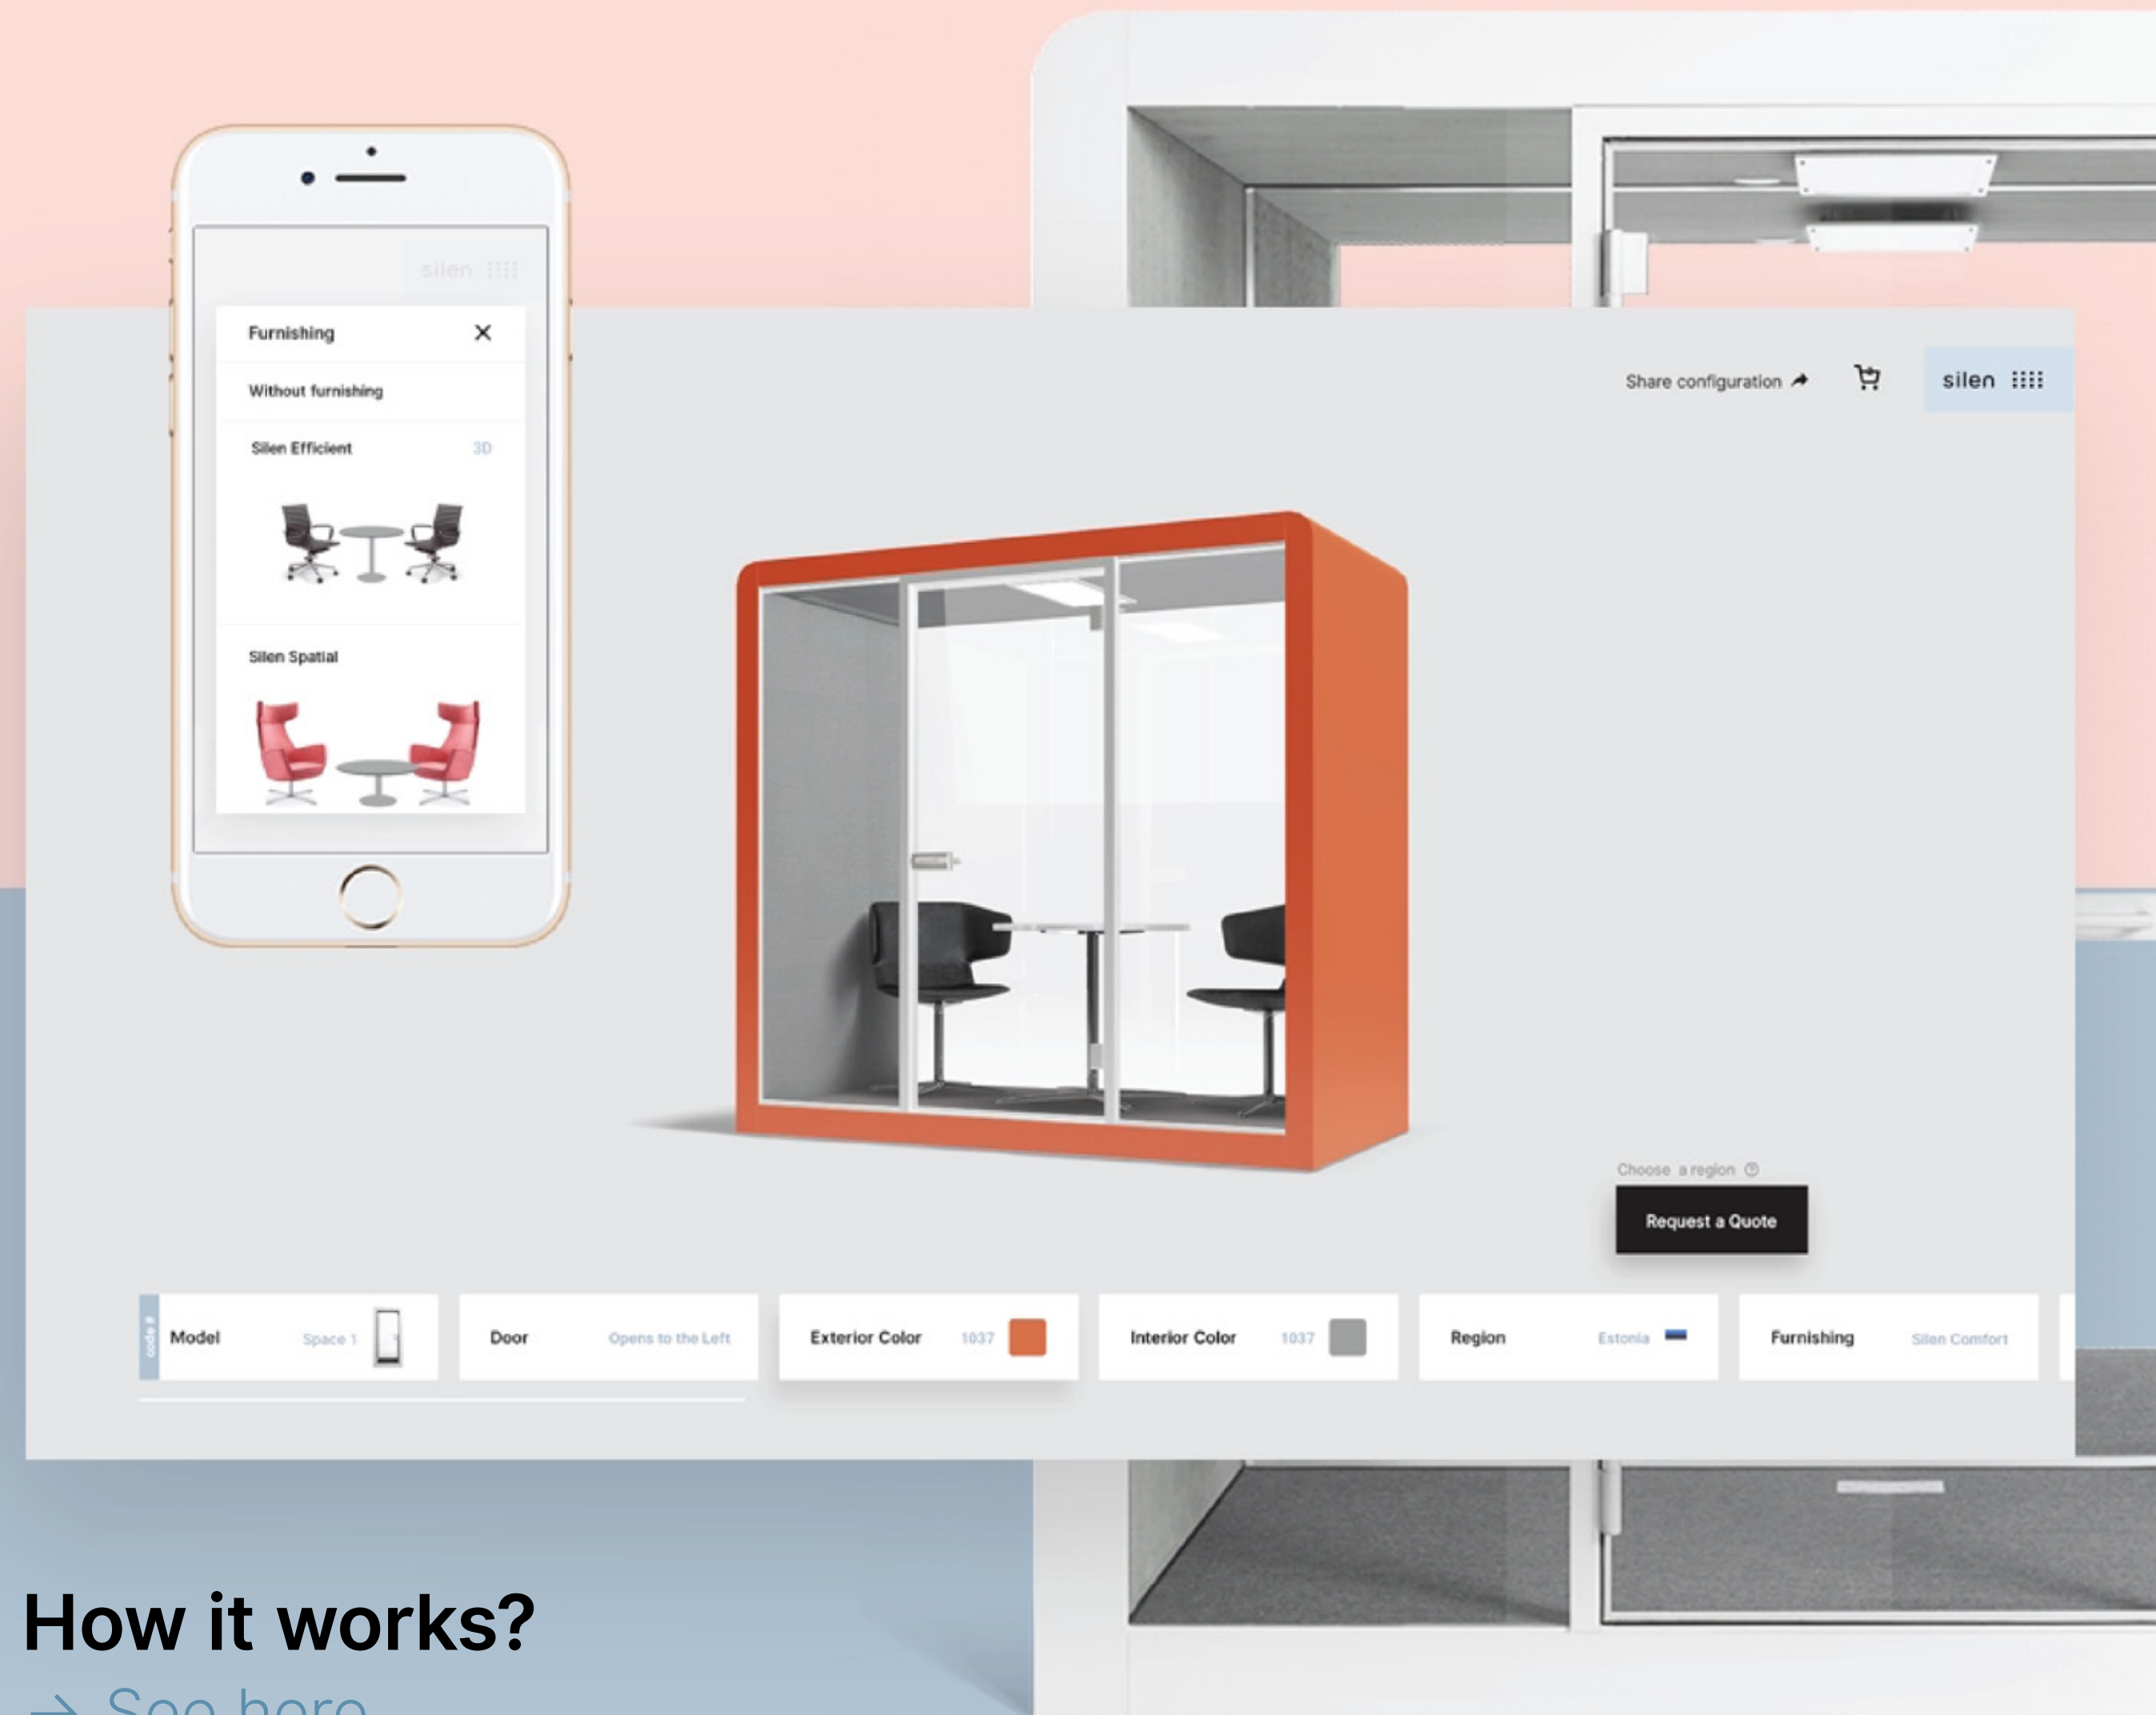

34 exterior colours

3 interior colours

-  Light Grey
-  Dark Grey
-  Black

Web configurator allows to choose features, looks, options, furnishing and finally submit an order

Modular silent spaces for
focusing on what's important

Silence your space. Create magical stuff

www.silenspace.com

Sound of Silen

Silence is holy. It is the basic component we need in order to focus. And when we can focus, we can create. Silen Space is your silent team mate who helps you reach your potential.

Silen Spaces are incredible at silencing the noisy soundscape of a busy office. All Spaces are perfectly suitable for private conversations and phone calls: the don't let the noise in and keep your words from reaching others. We use unique soundproof construction materials and top notch solutions to boost your work flow on a daily basis.

It's modular

Silen Space is a living organism just like your company – it grows, shrinks and moves around.

Our unique and hassle free solution is designed to constantly match the changing needs. As a modular system, it's in help over countless of years and through many office spaces. This means that your Space ends up being more useful than any other solution, both from the people's and from the environment's point of view.

What makes modular Silen Space special? It has hidden wheels – all modules can be moved quickly. It has unique, fast and a simple way of attaching and detaching modules. Its accessories can be ordered straight from our warehouse. It's possible to add Silen's functional furniture items to fit the Space.

You can find mind-blowing ideas,
that will work. You know that.

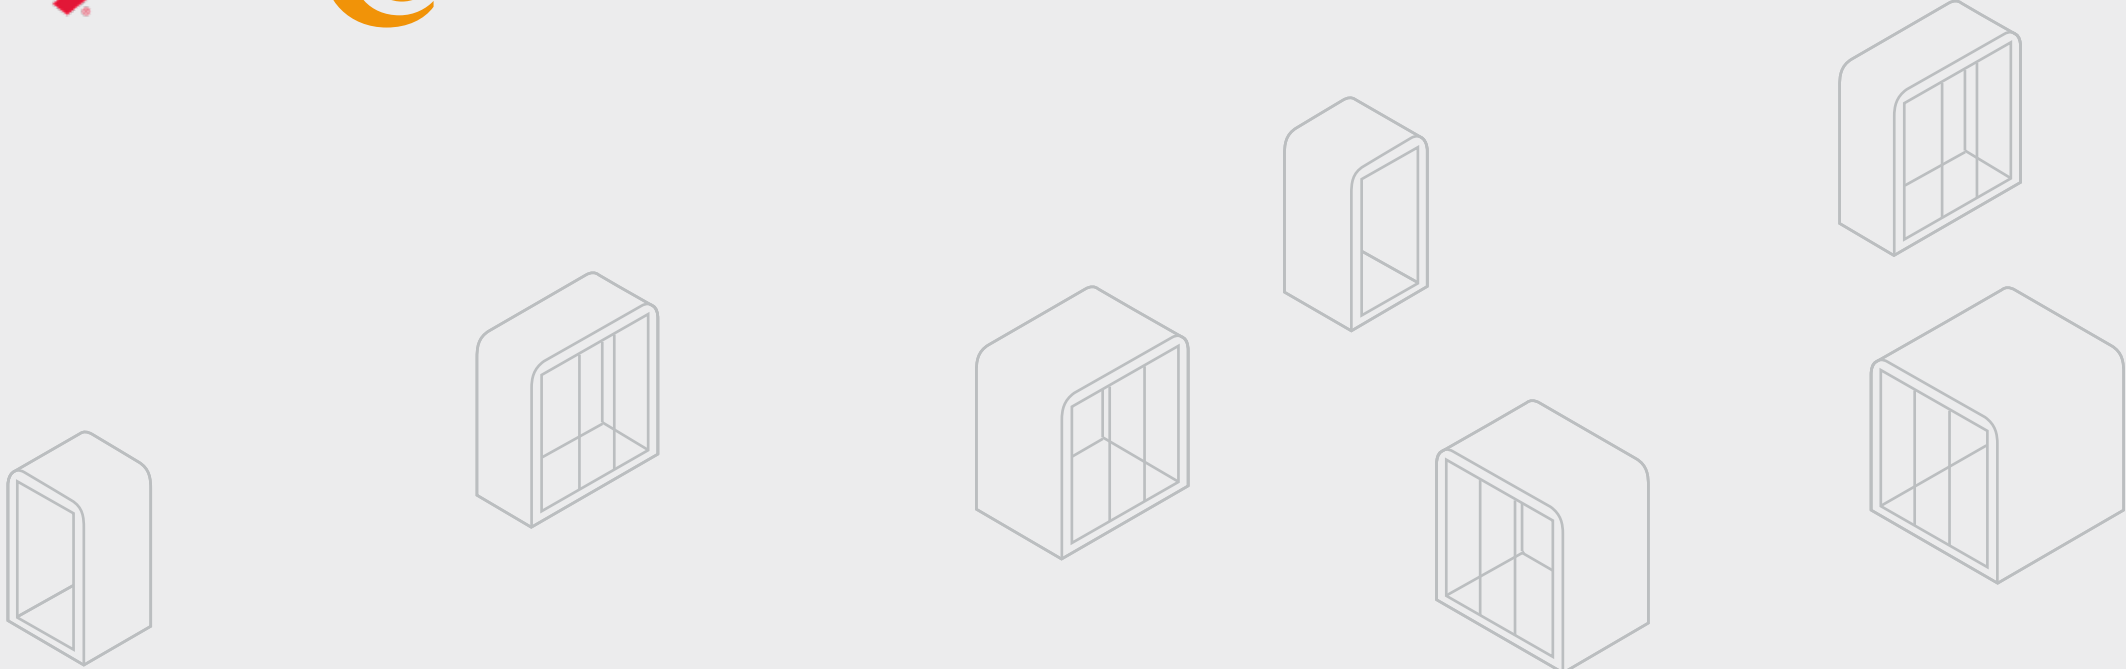

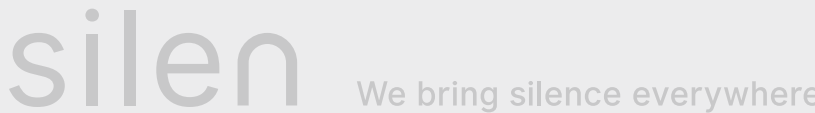

Just free yourself from all the noise and clutter.

1st Silen space on the Moon!:)

Would you join us?

The background is a solid light blue color, overlaid with a repeating pattern of isometric cubes. Each cube has a white line drawing of a window or door on one of its visible faces. The cubes are scattered across the entire page, creating a textured, architectural feel.

Thank You!

silen@silenspace.com

In the bottom right corner, there is a decorative element consisting of four overlapping squares in shades of grey, white, light orange, and brown.
