President's Letter

Hope all had a Very Merry Christmas, a Happy New Year and a safe hunting & holiday season so far. The featured photo above is from our 2025 Boykin Spaniel Calendar and we hope you had a chance to purchase one or more. It's not too late to get your copy or a few extras. You can purchase [your calendar by clicking here](#). The Boykin Spaniels were looking strong as we said good-bye to the year 2024 at the AKC National Championships. We had 23 Boykins exhibiting in Orlando as our very own Jackie DeAngelo owner and breeder to (Maverick) **GCHB CH Top Gun Cleared For Take Off SH** won the Best of Breed and represented in the Sporting Group with poise as a great ambassador to the breed. You may view all the [results here](#) or look on our [Boykin Brags Page 8](#).

The Board of Directors and BSCBAA Committee Members are currently in process of working hard on the great projects & plans of the 2025 year. The first item of attention is the 2028 Class of Nominees for this year, please read about nominees on [page 9](#). The first event on the agenda is the Women's Shooting Weekend (and men on Sunday). The weekend is filled with clay target shooting, Boykin training, silent auction, spa therapy, games, socializing with other Boykin Spaniel enthusiast, and wonderful food and drinks, [See page 5 for details](#). In March, the **2025 BSCBAA AKC National Specialty** will be **March 13, 2025** in conjunction with the Brazos Valley Kennel Club All Breed Show, March 14, 15 & 16, 2025 at Grimes County Fair Grounds in Navasota, TX, See flyer on [page 6](#). Also, 2025 National Specialty Hunt Tests will be on March 8 & 9, 2025 at the Circle J Ranch in Hempstead, TX, entries open **2/4/2025** and premium is on [HuntSecretary.com](#), thank you to our judges Tim & Cathy Pullian. We hope to see some of our members participating in the competition and/or volunteering to work. We will continue hosting/planning events & raising funds for the BSCBAA, scheduling Meet the Breed venues, hunt test, judges seminars, health & genetic zoom presentations and accepting closure (after 15 years) of **the AKC Boykin Spaniel Studbook for dogs coming in from the UKC & BSS as of January 1, 2025**.

With the new year comes renewal of membership, please know that we sincerely appreciate your continue support of the BSCBAA. For more membership information, please go to our website at the [membership page here](#). As the new year has begun with great anticipation and expectations, we are remembering the tragedy in New Orleans and the horrific fires in California, we are hoping our members in these areas are staying safe and we will keep you in our prayers. Please reach out if anyone needs assistance.

BIOS:

Stacy Fox - Marietta, Georgia – Stacy has 20+ years of experience in communications, public relations, government affairs, marketing, television broadcasting, news assignments management and large-scale nonprofit pledge campaign management. She is currently the Director of Communications for The Atlanta Journal-Constitution, where she manages all aspects of communications, including media relations, reputation management, and corporate responsibility. She has been involved in the dog fancy since 1989. Her first dog achieved a CD title, but his best performance was as a therapy dog visiting children at Shriner's Hospital in San Francisco and several nursing care facilities. After their first basic obedience class and Novice A blue ribbon, she became hooked on dog sports. Stacy is currently a Board Member for the Pembroke Welsh Corgi Club of Greater Atlanta and have been a two-time Specialty Show Chair. Stacy has had a few dogs over the years and has achieved in many areas of competition. She is enamored with the Boykin breed and their biddability, drive, tenacity and cheery disposition! Her first Boykin Spaniel, Colette's Moonshine Mason Jar CGC, TKN is well on his way in AKC competitions. She plans to compete in AKC Conformation, Obedience, Rally, Nose Work, Agility, and Dock Diving and in UKC Conformation and performance events and NACSW. She is very interested in learning more about AKC and HRC hunt tests. Stacy is currently a member of the 2025 BSCBAA National Specialty Team.

Collin and his wife, Sarah and their three daughters Arden (8), Elaine (5), and Juliet (3) currently have two dogs: a sweet old Catahoula named Riley and a spunky 2-year-old Boykin Spaniel named Ginny. Collin and Sarah in the past couple of years have been very involved in many of the BSCBAA sponsored fundraisers and events. Collin has volunteered as one of the committee members for the 2025 National Specialty Hunt Test. He will be helping host the Hunt Test at The Circle J Ranch, which is his family's nearly 1000-acre working cattle ranch in Hempstead, TX. He and his family came to Texas about three years ago to finish training and ultimately work in the Texas Medical Center where he is currently employed. 2025 Winter Preparedness and Keeping Yourself, Family and Dogs Safe

Partial Article from the AKC written by Stacy Mason
[Read in full by clicking here.](#)

Stay Active: Keeping active during the winter months can be a challenge. Let's all join AKC Fit Dog today to make sure we don't add too many unwanted winter pounds. <https://www.akc.org/sports/akc-family-dog-program/akc-fit-dog/>

Make sure you and your dog(s) are visible on your walks with good reflective winter gear. I have an Ororo heated vest and love it because it makes those cold winter dog walks much warmer. Watch <https://www.ororowear.com/> — word has it they are working on a heated dog vest.

Keep Training: Use your nose to sniff out what all the excitement is about when it comes to AKC Scent Work! Scent training can make those cold or chilly walks more interesting for both you and your dog(s). Fun fact, the moisture in snow just might make it a bit easier for your dog(s) to make a "find." <https://www.akc.org/sports/akc-scent-work/>

Winter is a great season to use the extra time inside to work on some fun AKC activities, like Trick Dog and Rally training! <https://www.akc.org/sports/companion-dog-sports/>

Use this winter to start a new activity with your four-legged friend(s). You can earn titles virtually in many sports!

Fire Prevention: All types of heat sources have a fire danger or burn risk for homes, kennels and/or dogs. These devices are even riskier for homes or kennels with multiple dogs. As a dog owning home, I believe the safety of my dog(s) and home depends on a pre-winter deep clean. Dust, dirt, dander and dog hair can all build up to be scary in out of sight places. I make sure to dust and/or vacuum all my corners, behind the furniture and under appliances.

I want to make sure I have gotten all the fine particles and stray hairs that may have been missed by vacuuming, sweeping or during dusting. Don't laugh, but have you tried a leaf blower to get to some of those hard to reach and out of the way places? Secure your breakables, wear a dust mask, and open a door. You will be surprised what you have missed. Don't forget to clean or change air filters, blowers and vents. Spiderwebs and "dog fur dust bunnies" are a major contributor to home and kennel fires during the winter. Heaters, motors and appliances can overheat or short out when "dog fur dust bunnies" get sucked into the wrong places.

Dog breeders have been swindled out of puppies with fraudulent checks, counterfeit money and fake cashier's checks.

Security Measures: In the news, we sadly see that some dog owners and dog breeders have been the victims of violent crimes. It is a well-known fact that puppy sales increase during the holiday season. Here are some ways that dog breeders can keep themselves, families and dogs safe.

1. **Cameras:** Video cameras, video cameras and more video cameras that backup to the internet or cloud storage are the best safety net you can have. Cameras can also be used to help you watch your dog's behavior and to keep an eye on any pending litters of puppies.
2. **Questionnaires:** A puppy buyer questionnaire is not just to find out if your puppy is the right fit for their new family; it may help you find out if you are talking to a real person, a scammer, or a person with ill intentions.
3. **Check location:** Google Maps <https://www.google.com/maps> and similar websites can help you get a virtual feeling of your puppy customer. If something feels off, trust your gut!
4. **Video:** FaceTime or another video chat platform can help share how cute your puppies are with potential customers, but it can also help you see the type of environment your puppies will be going to as well as give you a "face" of whom you are talking with.
5. **Safety Net:** Please make sure you have a "safety net" in place. This can be a friend or family member that knows when you are going to have puppy customers picking up a puppy. Make sure to keep a log of the people you talk to and share this log with your network and in your cloud storage. Always try to make sure you have someone else on the property when puppy customer meets you.
6. **Identification:** If possible, get a photo identification of the person or people coming to get their new family member. Make sure you have a "safe word" and that your safety net knows what steps they should immediately take if you share your safe word.
7. **Look-loos:** Be wary of "look-loos." If someone wants to come and look and does not sound serious or the hair on the back of your neck is giving you a tingle, you have the right to refuse. Do not share your information.

8. **Payments:** Do your homework on the types of payments that you should accept. Know which payment methods are the most secure and which ones are reversible. Know how to spot and/or verify fake currency, checks or money orders, if you take these types of payment.

9. **Dog ID:** Make sure your dogs and puppies are microchipped with AKC Reunite. Do not be afraid to tell potential customers and/or post it on your website that your dogs are microchipped. <https://www.akcreunite.org/>

BSCBAA TAIL DOCKING FORMULA & PROCEDURE

Established in 2013 by BSCBAA

Leave 1/3 of the tail plus 1/4 inch; please use a ruler. Dock tail between 3-5 days of age—3 days is preferred. There is consistently a natural indentation where the tail should be docked. If the measurement falls between joints, look and feel for the one where there is a natural indentation. REMEMBERING—Longer is preferred. Best practices done by vet with breeder attending & overseeing.
