## President's Letter

It's a New Year for the BSCBAA

On behalf of the Boykin Spaniel Club and Breeders Association of America, the AKC Parent Club for Boykin Spaniels, I would like to thank the outgoing board members, class of 2025—*Roslin Copeland, Dawn Fields, Bill Howard, and Lisa Watkins* for all their hard work and service to the club. I am again honored to have been elected President by the Board of Directors on March 24, 2025. The Board also elected officers, Vice President: *Ginger Hurley*, Secretary: *Stacy Fox* and Treasurer: *Kathleen Yeaman*. During the Annual meeting, we confirmed and welcomed five new Board Members: *Collin Conrad, Patrick Doyle, Stacy Fox, Lauren Herrera and Ginger Hurley*. We anticipate that the BSCBAA will have a great upcoming year. It began with the Annual meeting where the status of the club was presented, and its many accomplishments were discussed. We wish to thank all the Committee Chairs for their work throughout the year and submission of annual reports, and those that were able to attend. If you missed it, view [slide presentation at our website](#).

The 3rd BSCBAA National Specialty in Navasota, TX was a great success! Thank you to the exceptional work of the 2025 National Specialty Team Members that made it possible. Also, the National Specialty Hunt Test in Hempstead, TX at the Circle J Ranch was a tremendous success! Many thanks to the Jeff Vancannon Family and Collin & Sarah Conrad for the hospitality at their Ranch. It was an outstanding week and large number of Boykin Spaniels on display as ambassadors representing the breed in the conformation ring, various performance events and hunt test. It was a pleasure to socialize with many of our BSCBAA members from various parts of the country. [Please See page 3-8](#) for all the success & [pages 9-11](#) for NS Hunt Test Results. The Board of Directors and BSCBAA Committee Members are currently in the process of planning for the upcoming year. Included in this newsletter, you will find information about some of the events the BSCBAA is planning. We urge you to participate and get involved. There are many opportunities for you to join committees and/or sub-committees ([see current list of committees and chairs on our website](#)) or simply participate in future events. Some of those events include the upcoming photo contest which will in turn be used to produce a calendar as a fund raiser for the club, plans in the works for our **4<sup>th</sup> Annual National Specialty in West Friendship, Maryland**, and Hunt Test in Georgia. Plans are also in works for our fundraiser - Clay Shooting, field training, informative Health & Genetic Zoom Meetings, and various work on different committees, establishing

# REMEMBERING GCHB CH HOLLOW CREEK'S TEXAS TRACE

We choose to celebrate the tremendous life of our beloved Trace! He was one of the trail blazers, pioneers, great ambassadors of the Boykin Spaniel Breed! It's never easy saying good-bye to such a great and loyal friend, but here we are finding ourselves struggling to let him go. Therefore, we choose to remember and celebrate all his goofy behaviors, memorable talents and many wonderful accolades. First and by far one of the best Stud Dogs we have ever had, but he was always a gentleman with the ladies. He loved to flirt, woo and charm his way. He always had the right timing and always asked permission; not just with the ladies but with all things. He had the best temperament, truly a dog with manners. He did almost everything through love, kindness and care, I fear a lesson we could all use. We could put Trace (intact male) in a room, yard or hunting field with any other intact male dog and he could win their hearts over with command and gentleness.

He would have been 14 on July 2nd, he passed just short of that on May 22, 2025. His accolades are many. He has multiple Best of Breed wins, the 2012 AKC National Championship Best of Breed Winner, #1 All Breed Boykin Spaniel in 2013, Westminster 2014 BOS yielding to Texas Trace Vega as BOB, and he won multiple Group Place-ments through his career. He leaves quite a legacy of having sired multiple Champions and Grand Champion Boykins and tremendous hunting dogs. We give a nod to his

son, Cooper as he was the #1 All Breed Boykin Spaniel in 2020 & Westminster 2021 BOB. We know they are both dancing and retrieving together in heaven. We would like to thank breeder, Pat Watts for Trace, he lived up to all our expectations. We remember that first day we

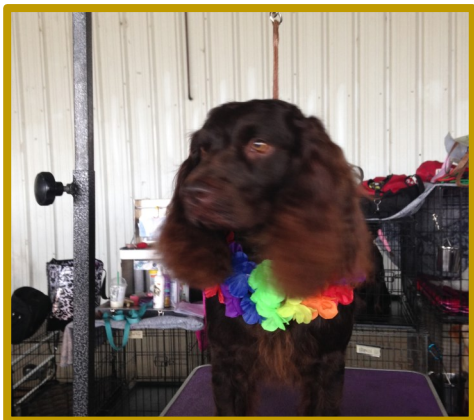

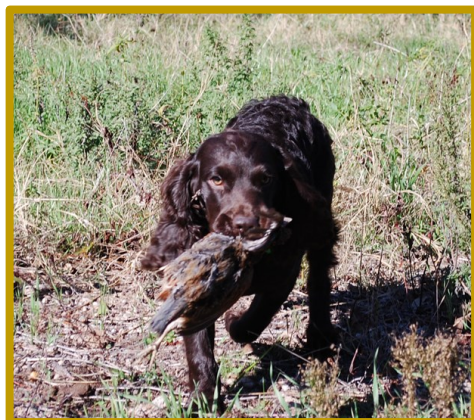

were introduced to Trace, as we were featuring Boykin Spaniels at an Epic Game Fair Sport-ing Event in Georgia. Ginger loved him immediately and brought him home as just a pup. Also, much thanks to Rose Leale as his handler and helping us achieve all the wins. Well, Trace was not just a pretty boy, he could hunt and retrieve with the best of them. He loved hunting with Ginger and his all-time love (Sunny) they made a great team! Trace has been know to be goofy & had the names to go with it, Rose often referred to him as Frog-man, and in his later years he was know as the BeBopper. He loved bebopping around with chest out, proudful in the yard with all his girlfriends. He loved his owner, Ginger and she loved him dearly. He was admired by many and loved by all you met him. This one

hurts, Trace is being missed and we find ourselves yearning for him and swear in the faint evening at dusk, we can see a shadow-glimpse of him bebopping about.

Trace leaves behind an impressive progeny and passes on his good looks, conformation, function, form, and great hunting skills; he had excellent health and genetics, temperament, and most of all a kind and gentle heart. To commemorate Trace's life, we will be placing a memory in his name and donating funds to the [BSCBAA's Memoriam Webpage](#) in hopes of keeping his legacy alive!

# HOW TO CALCULATE DOG YEARS TO HUMAN YEARS

Partial Article from the AKC written by AKC STAFF

[Read in full by clicking here.](#)

Since the 1950s, the popular calculation of how old a dog was “in human years” has been that one dog year is the equivalent of seven human years. Even though this formula has been around for a surprisingly long time, the reality is not so cut-and-dried. That doesn’t stop people from defaulting to this traditional calculation. “You can’t really kill the seven-year rule,” says Kelly M. Cassidy, a curator of the [Charles R. Connor Museum](#) at Washington State University, who compiles studies about longevity in dogs.

One explanation for how this formula got started is that the 7:1 ratio seems to have been based on the statistic that people lived to about 70, and dogs to about 10.

“My guess is it was a marketing ploy,” says William Fortney, a veterinarian at [Kansas State University](#). He tells the Wall Street Journal that it was “a way to educate the public on how fast a dog ages compared to a human, predominantly from a health standpoint. It was a way to encourage owners to bring in their pets at least once a year.”

As a general guideline, though, the [American Veterinary Medical Association](#) breaks it down like this:

- ❖ **15 human years equals the first year of a medium-sized dog’s life.**
- ❖ **Year two for a dog equals about nine years for a human.**
- ❖ **And after that, each human year would be approximately five years for a dog.**

## How Do Researchers Come Up With Those Numbers?

There are many several factors to consider, so it’s not possible to pin it down precisely, but the AVMA says: “Cats and small dogs are generally considered ‘senior’ at seven years old, but we all know they’ve got plenty of life left in them at that age. Larger-breed dogs tend to have shorter lifespans compared to smaller breeds and are often considered senior when they are 5 to 6 years of age. The ‘senior’ classification is based on the fact that pets age faster than people, and veterinarians start seeing more age-related problems in these pets. Contrary to popular belief, dogs do not age at a rate of 7 human years for each year in dog years.”

The National Center for Health Statistics doesn’t keep records for dogs. Instead, there are three main sources for data on their longevity: pet-insurance companies, breed-club surveys, and veterinary hospitals.

## Why Do Smaller Dogs Live Longer than Larger Dogs?

This phenomenon has baffled scientists for years, and research has yet to explain the relationship between body mass and a dog’s lifespan.

Generally speaking, large mammals, like elephants and whales, tend to live longer than small ones, like mice. So why do small dogs have a longer average life span than large breeds?

Large dogs age at an accelerated pace, and “their lives seem to unwind in fast motion,” according to researcher Cornelia Kraus, an evolutionary biologist at the University of Göttingen in Germany, speaking to Inside Science. Scientists concluded that every 4.4 pounds of body mass reduced a dog’s life expectancy by about a month. The reason why is still unknown, though Kraus puts forward several possibilities, including that larger dogs may succumb to age-related illnesses sooner and that the accelerated growth of large dogs may lead to a higher likelihood of abnormal cell growth and death from cancer. Scientists plan future studies to better explain the link between growth and mortality.

We would like for you to attend, so we want to provide topics of interest.

## BSCBAA TAIL DOCKING FORMULA & PROCEDURE

Established in 2013 by BSCBAA

Leave 1/3 of the tail plus 1/4 inch; please use a ruler. Dock tail between 3-5 days of age—3 days is preferred. There is consistently a natural indentation where the tail should be docked. If the measurement falls between joints, look and feel for the one where there is a natural indentation. REMEMBERING—Longer is preferred. Best practices done by vet with breeder attending & overseeing.
