

Solar panel configurations – 2 panel systems

PV - 405W (1722 x 1134 x 30mm mm for each panel)

Supports (1200 x 1100 for each panel)

Best all-year-round angle for PV (photovoltaic) solar panels in the UK is 35-40 degrees.

Alternative arrangement

Batteries, pumps and controls all sit within the area(underneath) the panels on the supports

Allow 400mm
