NICO ROCHE

OUR AMBASSADOR

Nicolas Roche carries a rare, quiet brilliance – former pro racer turned Tour de France commentator and globe-roaming ambassador who still feels most himself when the road leans upward.

His palmarès speaks with refined confidence: Vuelta stage victories, multiple Irish national titles, and an overall at La Route du Sud, each earned with grace rather than noise.

In 2025, he added a masters Gravel World Championship, reaffirming the depth of his craft and his enduring love for the sport.

Nico brings humility, warmth and an instinctive sense of rhythm on the bike – the kind of presence that turns a journey through Norway's fjords into something unforgettable.

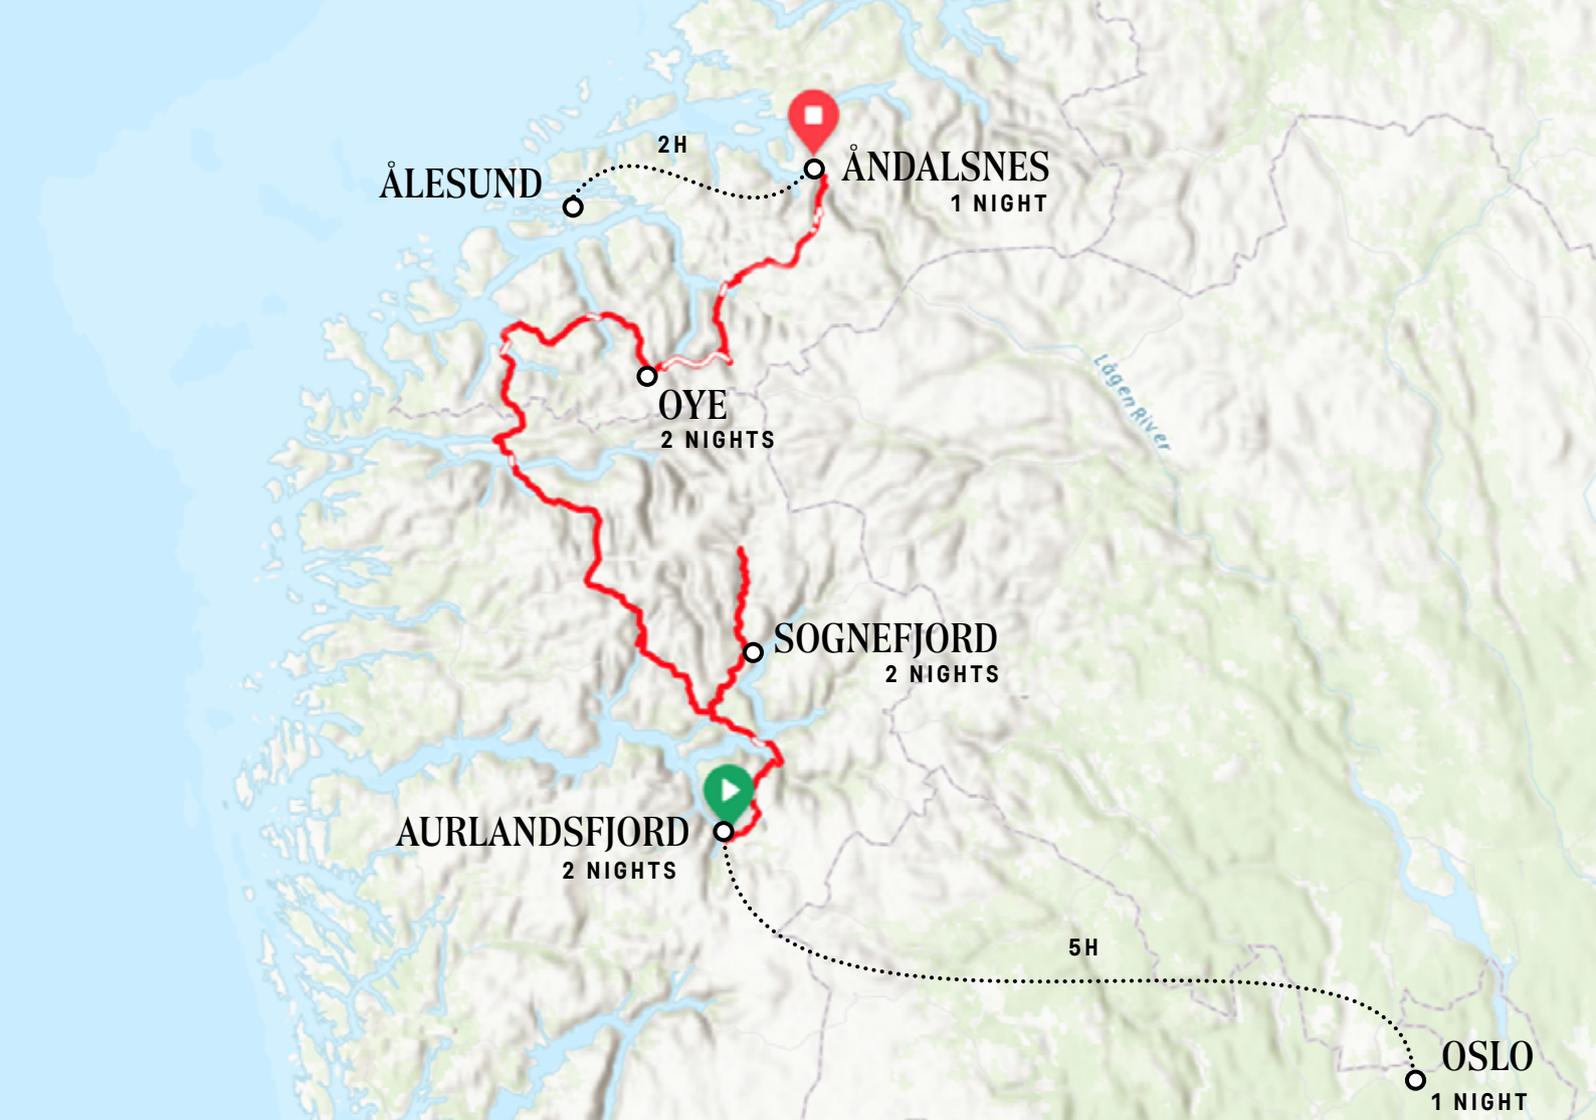

Norway, Europe's last frontier

9 DAYS - 8 NIGHTS

Norway is a paradise of untamed nature, unlike anywhere else in the world. Its dramatic terrain is defined by iconic fjords that will leave you breathless. These majestic glacial valleys, carved by retreating ice and once flooded by the sea, stretch for over 200 kilometers in some places.

Few places in the world are better discovered by bike, where every pedal stroke allows you to fully absorb the grandeur of the landscape. Our carefully chosen routes wind through extraordinarily quiet, pristine roads, giving you uninterrupted views of cascading waterfalls, towering cliffs, and untouched wilderness. Riding here is an immersive experience, allowing you to feel both the scale and serenity of Norway's natural splendor.

This is a country of extraordinary beauty, a place to be explored at least once in a lifetime, where each journey reveals new marvels in a deeply personal and unforgettable way.

Highlights

Adventure in the remote wilderness

The landscapes throughout the route are truly a few of the most dramatic and spectacular that exist in the world. Granite walls up to 1,000 meters high, winding roads along fjords with mirror-like waters, glaciers advancing towards the sea, and mountain passes that seem to touch the sky.

New Nordic Cuisine

With a long tradition of self-sufficiency due to its rugged orography, Norwegians have taken producing everything they need to a whole other level, especially regarding food. This gastronomic movement preserves and showcases their culture and history while putting forward delicious local products.

Highlights

Unprecedented hospitality

The fascinating history of this country is one of people who braved the elements and harsh winters to survive. Over the centuries, this has been embodied in a culture filled with legends and secrets, rewarding the intrepid foreigners with an unprecedented hospitality.

Legendary roads

Norway has some of the most hair-raising climbs in all of Europe and is yet to become a popular destination among the cycling community. Its winding roads award us with open-wide views and changing landscapes. Among the grandiose nature, the kilometers and meters of unevenness become relative.
