

REDSTONE RANCH AND RESCUE- HOMESCHOOL SUPPORT **Information Guide**

4551 NW 39th Ave, Coconut Creek, FL

Welcome!

Welcome to Redstone Ranch and Rescue, a homeschool support network designed for moms to socialize their kids and enrich the homeschool education program. We are located in the serene beauty of our 5-acre farm, right here in Coconut Creek. Here, children embark on a unique educational journey where learning flourishes within nature's embrace.

Our program blends the wonders of being outdoors with a hands-on academic curriculum, fostering curiosity, creativity, and a deep connection to the world around us. Children will have different scheduling options where Core Group learning includes language arts, science, math, social studies, art classes, physical education, and more.

Join us in cultivating not just young minds, but compassionate learners of the earth and welcome to a place where every day is an adventure in learning and growth.

Mission Statement

To foster the growth of bright young minds, turning children into successful adults where they will thrive in the worlds they choose. The curriculum will be self-paced with project-based learning and regular problem solving with a multi-age platform where younger and older children engage. They will experience learning through play, discovery, and lessons from the bible.

Animal care and gardening implemented daily will give children a sense of responsibility and confidence that will carry over into all elements of life.

Ms. Alexandra Pearce

Hi, I'm Alexandra! Born and raised in Fort Lauderdale, FL, I've dedicated over 10 years to early childhood education across Broward County, nurturing young lives and shining a light for Jesus. I have two adorable kittens and a love for all things Harry Potter and pink. On weekends, you'll find me exploring new cities or spending quality time with my family at home. I look forward to fostering a love of learning with our students this year!

Ms. Anna Italiano

Hi! My name is Anna.

I am the teacher assistant! I am happy I am able to assist them with anything they need. I love working with kids and being able to be practice patience with them and see their creativity. I love art and having an open mind. In my free time, i enjoy playing pickle ball.

Mr. Sean

Hi, I'm Sean. I teach technology enrichment programs at early learning and K-12 schools. I've worked in big tech, consumer packaged goods, healthcare, higher education, finance, and government to name a few industries. I also hold a master's degree in Information Technology Management from Florida State University.

My goal is to inspire the next generation to delve into the realm of technology and prepare them for the future landscape that is rapidly evolving especially with the dawn of artificial intelligence and machine learning.

Sensei Ivan

My name is Sensei Iván Bejarano! I have been teaching karate for over 40 years. I am excited to offer my teaching experience in the Martial Arts, specifically Traditional Japanese Karate, as well as a program that will bring respect, discipline, focus, cardio-fitness, exercises and most important self-control and self-confidence. I care about every child, and it will be in my total interest to work with them to achieve their goals.

We are here to help parents and encourage their kids with a positive way of life. Parents will be glad to know that their children are in a safe, healthy, and happy environment during our instruction while we help them increase their self-confidence.

We care about every child and it will be in our total interest to work with them to achieve their goals. Such as making the bed in the morning, to respect and help encourage others to do what is right with discipline and control. These skills will help and stick with them throughout their life.

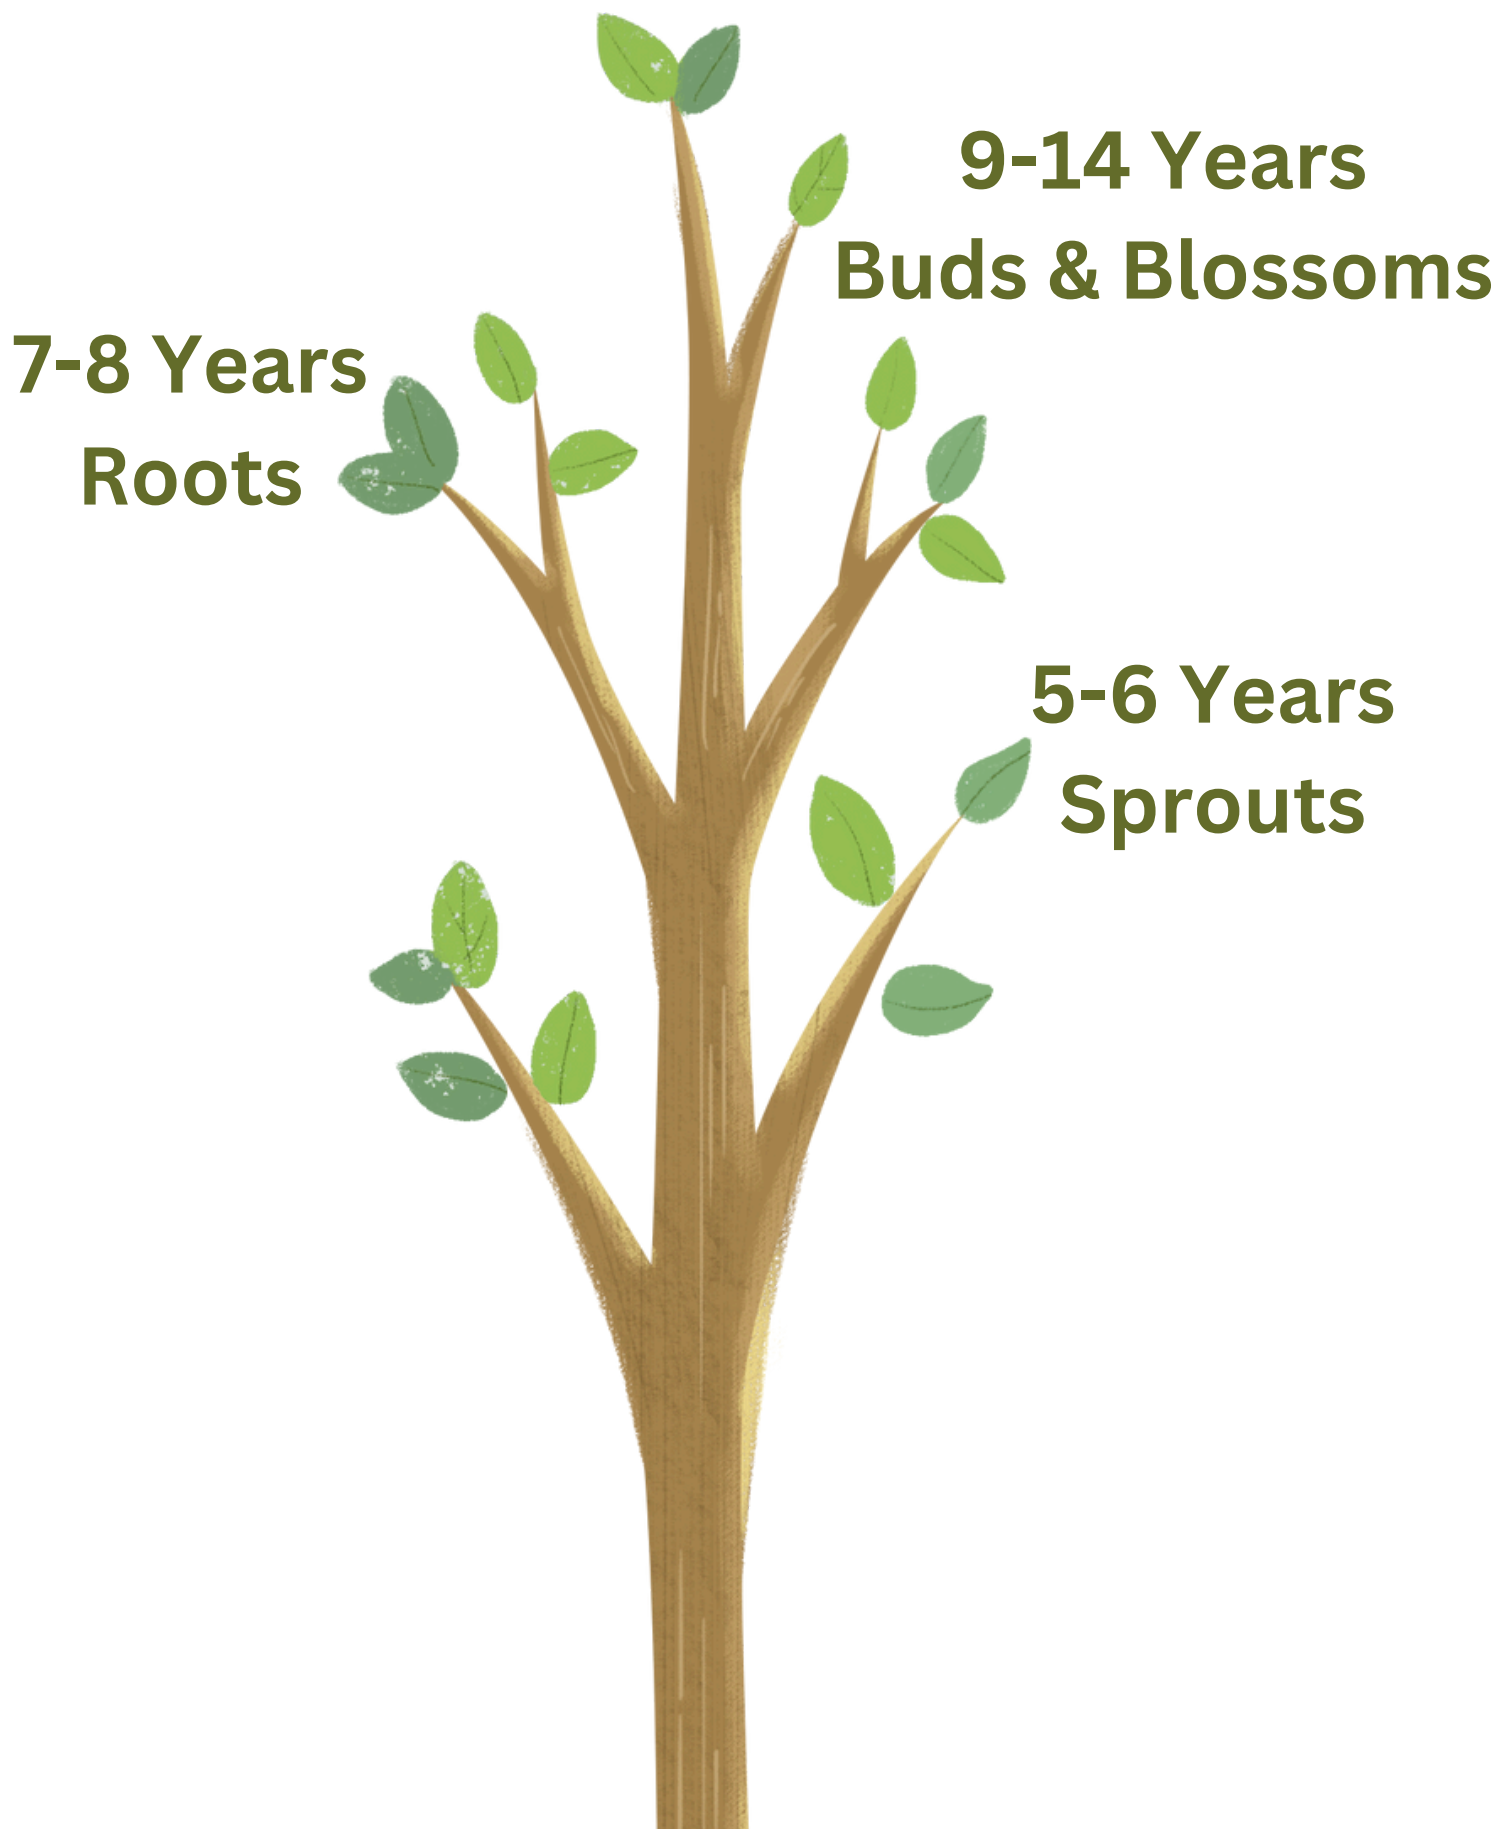

It is our pleasure to help and be apart of your children's lives.

—Sensei Ivan Bejarano, Chief Instructor
6th Dan, Shotokan • 3-time World Champion, Kata & Kumite

Ms. Luciana

Hi, my name is Luciana, and I love preparing the kid's lunch. I am so happy to come here to work each day and seeing the kid's smile. I was born in Brazil and have been enjoying the last 5 years in the US. I love the beach, animals, and spending time with my daughter. Thank you for having me!

MULTISORI CORE VALUES

DESIGNED FOR PARENTS

Homeschoolers face unique challenges that rarely mimic those of a classroom, so our products are designed with that in mind. Our Montessori curriculum is crafted especially for parents. It does not assume that you have specific classroom materials. It is visually engaging and works for multiple ages. Most importantly, the curriculum is streamlined to save time and be fun!

MONTESSORI ALIGNED

Our Montessori curriculum nurtures a child-centered educational approach, makes it easy to prepare a thoughtful and attractive learning environment, and focuses on development of the whole child: physical, social, emotional and cognitive. Our core subject areas - Art, Geography, Mathematics, Practical Life, Science, and Sensorial - follow the traditional Montessori Scope and Sequence. And, just like Montessori in the classroom, M3 by Multisori is designed to feel like play.

ONGOING SUPPORT

With Multisori, you are never alone. Need a friend to talk to who understands your Montessori homeschooling journey? Want to celebrate a homeschooling win with parents who share your passion for Montessori? Our curriculum's creator is never further than an e-mail or PM away. And, our private Facebook group provides a supportive tribe of like-minded homeschoolers from all over the world. So, help is always just a click away.

ABOUT MULTISORI

We built on the strengths of Montessori, staying true to its pedagogy while adapting it to fit the needs of homeschoolers.

Project **WILD**

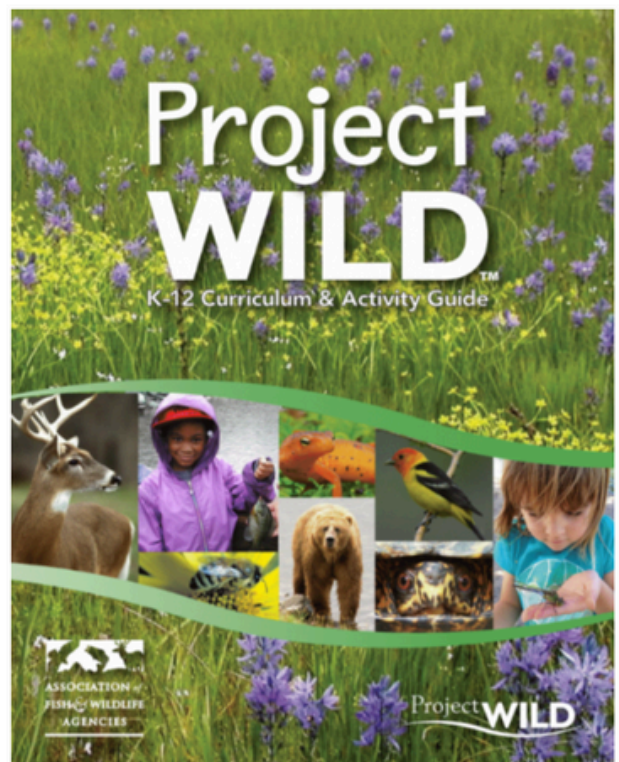

Teach WILD. Learn WILD. Be WILD.

Project WILD's mission is to provide wildlife-based conservation and environmental education that fosters responsible actions toward wildlife and related natural resources. All curriculum materials are backed by sound educational practices and theory, and represent the work of many professionals within the fields of education and natural resource management from across the country.

Additional parts to the *Project Wild* curriculum that will be used:

- Project Wet
- Project Wild Aquatic

Five Pillars of The Good and the Beautiful Homeschool Curriculum

Pillar 1

Appreciation for God, family, nature, and wholesome art and literature.

Homeschool is not just about checking off all the subjects to be taught each day—it's about shaping children's hearts and minds and, above all, leading them closer to God. Thus, our nondenominational Christian curriculum is rich with nature, beautiful art, and literature that supports faith, character building, and strong families.

Pillar 2

Structure and strong academics.

Learning should be fun and creative while ALSO being academically solid and thorough. Our intentional and planned curriculum is thorough and academically robust, leaving no holes in your child's academic foundation.

Pillar 3

Easy-to-teach lessons with short teaching times.

You do not need teaching experience or knowledge to give your child a strong academic education. Our lessons are open-and-go, and we maximize learning by teaching multiple concepts in each activity or lesson, reducing busywork and teaching time so that you and your child have time for the many other opportunities that homeschooling brings.

Pillar 4

Affordable homeschool curriculum.

All of our thorough, high-quality K-8 math and language arts courses are free to download or inexpensive to purchase. Many homeschooling families switching to The Good and the Beautiful homeschool curriculum find that they save over \$2,000 a year compared to other popular homeschool curriculum companies.

Pillar 5

Balanced homeschool approach.

In short, we focus not on one educational philosophy but rather on what works! Because our curriculum is so balanced and does not lean toward any extremes in homeschooling, hundreds of thousands of families with different views on education have found The Good and the Beautiful to be a wonderful match for their homeschools.

Location

At Redstone Ranch and Rescue, children have the luxury of learning both inside and outside.

Whether it is in our well equipped classroom with up to date technology or on our farm surrounded by animals, our garden, or playground, children will be able to learn at their own pace and grade level.
