- Accept NO Substitutes

# Enhances Any Food!

It's DELICIOUS

- The light delicate flakes dissolve quickly
- Enhances the natural flavors of your food
- Perfect for Margaritas!!

# Chefs & Critics Love it!

Murray River Salt – trusted by chefs and restaurants all over Australia, is now its brought its magic all the way to USA!

*"I use Murray River Salt as a finishing salt, works really fantastic, looks awesome, tastes great, dissolves perfectly on any kind of dish, it's the best way to use it. It dissolves instantly, and you are not getting all that heavy salt content that you would normally get with other salts. This is such a better quality product, there is no reason to go anywhere else – it's an absolutely fantastic product, I use it on a daily basis!"*

~Brett Calley – Chef – Lucky Cat, Denver, CO

*"I might sound like a broken record but I've been writing about (and using) Murray River Salt since I first discovered it almost a decade ago. It is a favorite gift to take to chefs and foodies overseas as it is a unique Aussie product, looks so beautiful on the table and also adds a crunch and bursts of flavor to dishes that iodized salt never can. Just use it as a finishing salt – basically a salt sprinkle on dishes to finish them off".*

~Matt Preston – Food Critic & TV Presenter
