

**Keep your rented dumpster
7-10 days.**

**Have your space ready for the
dumpster when it arrives.**

**Ask us for advice on what size
you need if you are unsure.**

**Reuse, recycle, resell, or repurpose anything
possible. Not only are you helping the
environment by doing so, you also save money.**

**If the dumpster is placed on a street, call your
municipality first. They may require a permit.**
