Aug 2023 soft start, Black/Gray tanks pressure cleaned, new goodyear tires, AC and hot water heater serviced. Custom cabinetry in kitchen and bedroom. Call 617-930-1591, moll780@gmail.com

Details:

- Stored under cover.
- Clean Texas Title.
- Awnings in awesome condition. Driver and rear awnings added by previous owner.
- 3" lift installed by dealer. I had this done on our previous AS and will always have this done on every AS I own.
- WeBoost hardwired for 12v. located above the fridge. Internal antenna above TV and external antenna on the roof at the front. This really works amazing and adds bars to your cell. Data and voice extended.
- Power wired for 12v pepwave router in cabinet above fridge.
- Custom cabinetry
 - large countertop extending the useful counter space and 3 large drawers for pots and pans etc. soft close and secured with pins for travel. Located under the front TV.
 - Corner cabinet under the TV in the bedroom. This is a huge addition to the bedroom. Opens for storage inside and great spot for a laptop or other device.
 - The hall closet has a shelf in the top and two drawers in the bottom. Greatly extending the pantry storage. We use some bins in there for cans and other good. Under kitchen sink sliding trash drawer.
- Cut down dining table. Much more solid and allows for better use of the dinette space. Can still be extended to full size if desired. Yes. All the bits are there for the full table. This was also installed by the previous owner by a professional cabinet maker with Airstream specialty.
- 2" receiver installed. 3" cross tube with receiver. Designed for bike carrier. Recently installed and used once so far.
- Solar and batteries.
 - Previous owner had all the electronics, panels, wiring etc done approx. in 2021 by a professional installer.
 - 4x100 watt panels on the roof
 - 3x battle born 100amp batteries
 - Victron Remote monitor on wall for easy viewing and monitoring the system. Firmware updated.
 - Victron MultiPlus 12v, 120amp, 3000 watt
 - Victron portable panel controller. External SAE plug for portable panels.
 - Professionally wired and under the bed for protection.
- Done Aug 2023 at AS of Utah.
 - New Goodyear tires August 2023.
 - Brakes serviced and bearings checked
- We had both the gray and black tanks professionally cleaned last August.
- Previous owner had hail in 2016. Only noticeable on the front and rear curved sheets. Where you would put your BRNs. No leaks reported.
