Dear Texas Airstream Harbor Member,

This letter is to remind you that if you are unable to manage the upkeep of your Airstream lot(s) at TAHI, the TAHI Board will manage maintenance for you. We will arrange for lawn service twice a month at a cost of \$25 per service per lot. You will be invoiced monthly. You may opt out of this service by letting us know how you plan to mow, edge, and clean your lot during our spring, summer, and early fall seasons. Our grass grows quickly and our leaves fall thickly. We know that you prefer your Airstream park in top shape. We are experiencing an influx of visitors like we have not seen before. It is imperative that our park be clean and free of unsightly weeds. The TAHI community works diligently to mow the public spaces and maintain clean visitor lots. We ask that you support our efforts by planning for your lot maintenance yourself or paying for an outside service.

Thank you,
TAHI Board Members
