

AIRSTREAM 2015 Flying Cloud. 25 foot, twin bed, 50 amp, double air conditioners. Smart plug 50 amp with 30' cord. Has conventional stove and oven along with the microwave/convection oven. Has a modification of dinette. Smaller walnut table with drawer under, custom made, I still have original table in storage. Removed it to allow room for Lambright recliner with the best leather they offer. Took in the longer side of couch, cushions altered by upholsterer, and added 3 drawers with additional matching counter top for more storage space and work space. Also had larger drawer, with divider, in bedroom on nite stand, made by same cabinet maker. Unit does not have a lot of pulling miles and has always been kept under cover. Hensley hitch comes with it. New bearings and seals and parts ordered from Hensley. Great Airstream.

\$48,000. Dana Kelley. 936-524-2851
